Budget and Planning Committee Meeting
Minutes
May 13, 2014

1. Approval of Minutes for February 24, 2014. Minutes were approved as proposed.

2. Budget Update and Discussions. Since the last BPC meeting a budget has been passed. An allocation for CUNY should be given at the end of the month. This will be the penultimate year CUNY will receive a Compact. Though we have not yet received a Compact budget we have adopted a working assumption that it will be 75% of last year’s Compact. The SPS/FPS group and the Executive Staff have been having regular meetings to discuss the ways to address the budget. Next year’s deficit will be closer to $2 million because we have not included the Compact budget in our plan. Some searches have been initiated and will be executed during the year. We plan on doing searches for 14 full-time faculty. We should rethink some of the searches we have planned, and will even need to reexamine some of the authorized searches. If we can hold off on those hires we can accrue another $567,000. Even with cuts to OTPS, to College Assistants, and no new hires, the college has a deficit of over $500,000. We will need to look at other sources of funding. These numbers are based on the assumption that enrollment will remain flat, so we should continue to look for things within our control that will allow us to free up money.

A question was raised regarding the Adjunct Budget, and why the numbers went down but back up again. It was asked if the change is due to the fact that we are not filling full-time lines. Pat responded by saying that the budget plan developed for FY2015 had no forecasting for the Adjunct Budget.

Another concern was raised about the retirees we will not be able to replace. It was asked if class sizes should be increased to offset the reduction of full-time faculty members.

President Travis added to this discussion and said that John Jay is in this situation because of an enrollment drop. It has caused issues this year, and will cause issues going forward. The implementation of CUNYFirst will also affect our enrollment numbers. We should expect the numbers for spring, summer, and fall to be lower. However, the budgets will still be in flux until the arrival of the new Chancellor.

3. Planning Report on Graduate Studies and Related Areas. Dean Anne Lopes gave a presentation on her plans. In her plan Dean Lopes summarizes her visions, goals, objectives, and strategies. She also presented her budget request in order to make these initiatives possible.

4. Space Planning Update. John Jay has allocated $125,000 from the Aux Corp. budget to hire a Space Consultant. A consultant has been chosen, but no announcement has been made yet. The plan is to have the preliminary stages of this process complete within six months. The consulting firm will work with the SPS group, chairs, and others to piece together the information they need. We will need to look at how space is currently being utilized, what spaces can be repurposed, classroom utilization rates, growth of departments over the next few years, etc. As John Jay is set to lose North Hall soon, we need to think about how we can acquire more space.

The Faculty Senate has also been lobbying to CUNY for more space. The Senate had a meeting recently where Vice Chancellor Iris Weinshall and four of her colleagues attended. A presentation was made about John Jay’s space needs, and it seemed that the Vice Chancellor has agreed to help John Jay look for more space.

Summary of Selected Key Factors

Graduate

• Committed faculty
• Few programs---Mission-based
• Lack of a distinct graduate faculty
• Academic standards and policies
• Brand/college name recognition
• Mostly part time; retention and graduation rates
• No marketing materials
• No plans for program development in place
• Institutional support
• Insufficient governance structure to support growth in graduate programing
Contexts
Summary of Selected Key Factors

John Jay Online
- Planning and development policy in place
- Programming commitments
- Leadership and some (mostly pt) staff

International
- Planning committee
- Nominal relationships to rest of college
- SIO not in place

Professional
- Nominal relationships to rest of college
- Broad potential for growth
- Director not in place

Key Questions

• What are our current programs’ strengths?
• In what areas of expertise are our faculty concentrated?
• What are the markets’ needs?
• What should we develop?
• How should we do it?
Planning

Twin Focus

Strengthen existing programs

Update academic standards and policies
Increase Faculty involvement and student engagement
Assess outcomes from recruitment/marketing, retention, graduation
Improve relationships w/college departments
Identify and utilize existing resources

Develop new programs

Use a best practice development model that boosts synergies among all reporting areas
