DATA ANALYTICS FOR MANAGERS

December 4, 2015
9:00 am to 5:00 pm

This course introduces participants to the concept of data-driven decision making and management. Participants will learn how to better use data for setting goals and defining objectives while identifying the proper metrics for those objectives, and the elements of meaningful management dashboards. You will also learn how to assess the right analytical tools to manage projects, processes, and analytic staff within their departments.

For Managers and Supervisors
