Study Abroad Summer 2015
July 1st through July 30th
Tanzania: Exploring Arts, Culture & Society
AFR 280 (3-credits)
Professor Crystal Endsley cendsley@jjay.cuny.edu

This study abroad program will emphasize gender, development, and Swahili cultural practice and the ways these aspects of life intersect with social justice. The learning outcomes centralize the development of an understanding of the individual, social, political, economic, and cultural contexts of the struggle(s) for justice throughout Tanzania. We focus on two diverse communities in Tanzania and students will consider new, site-specific contexts that Tanzanians face. The supplemental field experiences, cultural immersion, and service projects will undergird the interdisciplinary theory learned in the classroom.

Program Highlights:
Workshops with Community Partners including:
1. MOTO: community based craft production https://motozanzibar.wordpress.com/
2. Stone Town Tour
3. Spice Tour & Lunch
4. Original Dhow Safari to Prison Island & Sandbar
