NEW YORK FORWARD/REOPENING GUIDANCE & INFORMATION

IMPORTANT UPDATE—CLUSTER ZONES:

- Mass gatherings and outdoor dining will resume in red areas of Orange County as COVID-19 cases slow in ongoing clusters, but Gov. Andrew Cuomo said that other recently imposed restrictions will remain in place in Brooklyn, Rockland County and Broome County. (Oct. 28, 2020)

- On October 21, after 14 days of data monitoring, Gov. Cuomo announced that the state was modifying some existing cluster zones and adding new ones in Steuben and Chemung Counties and in Queens — areas that have seen recent upticks in positive cases. Another neighborhood, Ozone Park in Queens, was added to the list requiring limitations on activity. Targeted restrictions — which include attendance limitations at mass gatherings and houses of worship — remained necessary to keep isolated outbreaks from spreading in New York City and elsewhere.

- "Cluster zones" can be either Red, Orange or Yellow and each carries different restrictions. The boundaries are set based on actual COVID cases using mapping software. Defined criteria determine when an area will enter or exit a zone. These changes, and the new cluster zones, take effect Thursday, October 22 for impacted businesses and houses of worship. The changes take effect on Monday, October 25 for impacted schools. See all of the cluster zone maps here.

- After assessment of the infection rates, Gov. Cuomo issued a new set of standards on the state’s attempts to control the spread of the coronavirus in so-called “hotspot zones. Going forward, the cluster zone maps will be reassessed over a moving 10-day period.
  
  o An area can exit a red zone is under 3% for 10 days
• It can exit an orange zone if the rate is under 2% for 10 days
• It can exit yellow if the rate is under 1.5% for 10 days

See: Press Release
• On Tuesday, October 6, Gov. Andrew Cuomo announced new restrictions and guidelines aimed at curbing a surge of coronavirus clusters in parts of New York City—Brooklyn and Queens—and in Broome, Rockland and Orange Counties, halting in-person instruction in public and private schools and nonessential businesses in certain areas where the rate of cases has remained high. See: Press Release

  ▪ The state is establishing multi-ring zones around clusters where COVID-19 is seeing significant increases in parts of Brooklyn and in sections of Queens.
  ▪ The governor released precise maps of the clusters that will see the new mandatory restrictions.
  ▪ In Red zones (Cluster): houses of worship restricted to 25 percent capacity with a 10-person maximum. There will be no gatherings in or out of doors, all non-essential businesses will be closed and restaurants will be limited to take out.
  ▪ In Orange zones (Warning): houses of worship will be allowed at 33 percent capacity with a 25-person maximum. People will be allowed to gather in groups of no more than 10 people — both inside and out — and high-risk non-essential businesses like gyms and personal care places will be closed. Outdoor dining will be allowed in small groups (4 people max. per table).
  ▪ In Yellow zones (Precautionary): Houses of worship will be allowed at 50 percent capacity. In and outdoor gatherings will be limited to 25 people, all businesses can open and indoor dining will be permitted but in groups no larger than four.
  ▪ Schools will be in remote learning modality only in both red and orange zones. In-person learning will be permitted in yellow zones, but there will be mandatory weekly testing for all students and staff.
  ▪ Rules will take effect in NYC on Thursday and will remain in effect for at least 14 day as officials review the new data.
  ▪ For NYC Parks, the restrictions impact public mass gatherings as follows:
- Red Zone - No gatherings (indoor & outdoor)
- Orange Zone - No gatherings more than 10 (indoor & outdoor)
- Yellow Zone - No gatherings more than 25 (indoor & outdoor)

In accordance with these restrictions, NYC Parks is instituting the following changes:

- Public programming offered by NYC Parks - Canceled in red zone areas; will adhere to limits on gatherings in orange zone & yellow zone
- “It’s My Park” events - Canceled in red and orange zone areas; will adhere to limits in yellow zones
- Special Event Permits - Canceled in red zones; must adhere to limits in orange & yellow zones
- Athletic Permits - Canceled in red and orange zone areas; must adhere to limits in yellow zones
- Daycare - Canceled in red zones & orange zones

For all updates on park service changes and closures related to COVID-19, please refer to the NYC Parks website: https://www.nycgovparks.org/about/health-and-safety-guide/coronavirus.

New York City Region Status

- New York City entered phase four of reopening on July 20
• Mayor de Blasio announced that in **phase 4** of the city’s reopening, which began Monday, July 21, **zoos** and **botanical gardens** can reopen with outdoor activities at **33%** of their capacity.

• Gov. Cuomo announced Friday, August 14 that low-risk indoor cultural activities – including museums and aquariums will reopen in New York City on Aug. 24. Admittance will be limited to 25% capacity and mask-wearing will be enforced. Food service will also be permitted with conditions.

• Read more about New York City's cultural institution [reopening](#).
  - Museums will be required to only sell tickets with reserved, staggered entry times. The [New York Times reports](#) that the Museum of Modern Art plans to reopen on August 27, the Metropolitan Museum of Art on August 29, the Whitney on September 3, and the Museum of Natural History on September 9.

• The 9/11 Memorial Museum is reopening exclusively for victims’ families on the 19th anniversary of the terrorist attack – and then to the general public a day later following a six-month closure amid the coronavirus pandemic, [the New York Post reports](#).

• **The Brooklyn Museum and El Museo del Barrio** will reopen to the public on September 12th.

• **New York Botanical Garden** has reopened with [the Garden](#) taking a phased approach to reopening and applying many safety precautions.

• **Brooklyn Botanic Garden** will open to the general public by **August 7th**.
  - **Professional sports** are back but will not include fans to lessen the spread of the virus.
  - The production of **tv shows, movies**, and **music** will resume with safety precautions.
  - Gyms and fitness centers will reopen starting August 24 with safety standards.
    - Local elected officials may choose to delay the reopening of gyms and fitness centers until September 2 to, in part, provide time for required local health department inspections, and may also choose to delay the reopening of indoor fitness classes until a date beyond September 2.
• **Mayor de Blasio stated on August 19 that the earliest that New York City gyms will reopen is September 2nd.** When gyms are able to reopen, conditions will include:
  - Gyms must be inspected by local authorities within two weeks of opening
  - Employees and patrons may only enter the facility if they wear an acceptable face covering, provided they are over the age of two and able to medically tolerate one
  - Capacity must be limited to 33% of the maximum occupancy for a particular area, inclusive of employees and patrons

  o Activities that currently remain closed/excluded from this final phase of reopening include:
    - indoor dining (in NYC)
    - indoor bars;
    - serving alcohol without purchase of food;
    - movie theaters /concert halls

  o Additional information can be found [here](#).

• Mayor de Blasio announced on September 8 that the city sheriff will be enforcing the state’s travel advisory at the Port Authority bus terminal. The sheriff’s office will pull over buses before they arrive from states with high infection rates and hand out health forms that travelers will be required to fill out. [Press Release](#)

• **Mayor Bill de Blasio announced on Wednesday, August 5 that the City will establish COVID-19 traveler registration checkpoints at key entry points into New York City to ensure compliance with New York State quarantine requirements and further the containment of COVID-19.** The new checkpoints at bridges and tunnels will stop cars and seek to enforce quarantine orders imposed by New York State, which require people coming from 34 states and Puerto Rico to self-isolate for up to 14 days to avoid spreading Covid-
19. The city Sheriff’s Office, in association with other law enforcement agencies, will oversee the checkpoints and stop a random sampling of cars entering the city, reminding drivers of the quarantine order and requiring them to complete a registration form if they’re coming from a high-risk state. People violating the quarantine — which applies to both residents of the high-risk states and New Yorkers returning from visits — can be subject to fines up to $10,000. Individuals who refuse to fill out the New York State Department of Health travel form are subject to a $2,000 fine. See: Press Release

- **New York City Phase 3**
  - New York City: New York City Reopening Guide
    - Phase 3 allows the reopening of nail salons, tattoo parlors, massage parlors, and spas, restricted to 50% capacity and with masks and social distancing requirements.
    - New Yorkers are also permitted to use outdoor recreational and sports facilities, including basketball courts and soccer fields, and dog parks.
    - In-door dining in restaurants is not permitted at this time.
  - Phase 3 Guidance: Here and NYC Department of Health Guidance
  - Progressing through the reopening phases allows for more shopping opportunities. NYC DOHMH has developed guidelines for How to Shop Safely
  - With cases rising among New Yorker City residents, under the age of 40—especially for the 20-29 age demographic—the City will launch a comprehensive public outreach campaign targeting younger New Yorkers, educating about social distancing and face coverings, among other topics.
  - **Face Coverings:** As the city continues to reopen and more people return to work outside the home, New Yorkers should wear a face covering as much as possible when around other people in an indoor setting that is not their home.
  - Guidance for Phase 2 of Business Reopening:
  - Guidance for Restaurant Reopening
**https://www1.nyc.gov/nycbusiness/article/nyc-restaurant-reopening-guide**

- Regional Dashboard and metrics monitoring [https://forward.ny.gov/regional-monitoring-dashboard](https://forward.ny.gov/regional-monitoring-dashboard)
- New York City: [Confidential 24/7 Hotline NYCWell](https://www1.nyc.gov/site/cmsgov/nycwell.page)
- New York City has called off plans to allow indoor dining at restaurants in phase three in early July amid a spike in coronavirus cases in other parts of the country that is heightening fears of a resurgence in New York. (July 1)
- Reopening NYC: What Workers Need to Know

  [NYC Consumer Affairs](https://www1.nyc.gov/site/cmsgov/consumer-affairs.page) has created a [Business Reopening Guide](https://www1.nyc.gov/site/cmsgov/consumer-affairs.page) with information for workers. This guide contains information regarding what safety protocols your employer must follow, workplace laws, and other city resources. Additionally, the agency published a [Worker Rights Page](https://www1.nyc.gov/site/cmsgov/consumer-affairs.page). This page contains many important updates for employees in multiple languages.

- **The Office of Nightlife has launched the “It’s Up to You, New York” public awareness campaign** to encourage restaurants and bars, patrons and residents to work together to ensure that the rollout of New York City’s Open Restaurants allows people to socialize responsible.

**New York City Phase 2**

- Mayor de Blasio signed an executive order on Thursday, June 18 allowing expanded al fresco dining during Phase 2. Restaurants will be allowed to convert the parking spots in front of their stores into dining space. They can also set up tables on the sidewalk, even if they weren’t previously authorized to have a sidewalk cafe. Restaurants will also have the option to open their own backyards and patios. However, social distancing is required, with at least 6 feet between tables, and allow enough space on the sidewalk for pedestrians to pass. Only establishments that serve food are eligible. Curbside seating is not permitted in bus stops, fire hydrants and no standing zones. Customers cannot congregate if they aren’t seated at tables.
• The City has established an expedited approval processes by allowing restaurants and bars to self-certify their eligibility for curb lane and sidewalk seating using a new, streamlined application process at NYC.Gov, which will be available starting Friday, June 19th. The mayor codified the guidance by signing Executive Order 126. See: Executive Order
  • in-store shopping,
  • office jobs;
  • hair salons and barbershops;
  • the real estate industry;
  • car dealerships;
  • City playgrounds—however, team sports, including basketball, football, softball and soccer, will remain prohibited.

• As part of the City’s entry into Phase 2 of the State’s “NY Forward” rubric, NYC Parks began re-opening playgrounds for the public effective today, Monday, June 22.
  • Comfort stations located within these previously closed areas are being reopened for the public. NYC Parks also began reactivating drinking water fountains within these areas.
  • NYC Parks staff is performing all necessary duties, including the removal of temporary fencing & barricades, to prepare the sites for safe public use and have these properties and features accessible as soon as possible.
  • The citywide enforcement effort to encourage social distancing among parkgoers remains in place, involving multiple City agencies, including NYPD, OSE, the Sheriff’s Office, DEP, DSNY, DOB, and FDNY. The City will continue to monitor conditions and determine if more severe restrictions are necessary.
  • To make it easier for New Yorkers to enjoy their parks and benefit from recreational opportunities, even if they're staying indoors, NYC Parks has launched Parks@Home: a wide variety of online park tours, fitness classes and other fun activities. Get more information here: https://www.nycgovparks.org/highlights/parks-at-home
• For all updates on park service changes and closures, please refer to the NYC Parks website: [https://www.nycgovparks.org/about/health-and-safety-guide/coronavirus](https://www.nycgovparks.org/about/health-and-safety-guide/coronavirus).

• **New York City Phase 1**
  - construction for non-essential businesses;
  - retail - curbside pickup and in-store pick up where curbside not available;
  - agriculture, forestry, fishing and hunting; and
  - retail trade, and wholesale trade.
• Mayor Bill de Blasio announced that [day camps that depend on city parks will be allowed to operate](https://www.nycgovparks.org/about/health-and-safety-guide/coronavirus) this summer.
• NYC public beaches for swimming opened July 1. Lifeguards will be on duty daily from 10:00 a.m. to 6:00 p.m. Swimming is unsafe and strictly prohibited at all other times. See: [Press Release](https://www.nycgovparks.org/about/health-and-safety-guide/coronavirus)
  - In addition, the city will expand the it cooling program installing air conditioners for low-income seniors, the number of outdoor cooling elements available for New Yorkers to enjoy during extreme heat. NYC Parks is adding brand new cooling elements within HVI 5/4 zones, and highlighting the existing 950 cooling elements citywide with a new [Cool It! NYC map](https://www.nycgovparks.org/about/health-and-safety-guide/coronavirus). See more [Here](https://www.nycgovparks.org/about/health-and-safety-guide/coronavirus)
• For **indoor religious and funeral services**, during Phase One reopening, congregant/attendee capacity was limited to 10 people. During Phases Two (starting Monday, June 22) and Three, occupancy is up but cannot exceed 25% of the maximum occupancy as set by certificates of occupancy and fire safety regulations.
• During Phase Two, independent retail stores will once again be open to the public for browsing [while adhering to State guidelines](https://www.nycgovparks.org/about/health-and-safety-guide/coronavirus). Additionally, malls must remain closed to the public, but stores based in malls with their own street entrances can reopen; those without their own external entrances may conduct curbside delivery.
• The city is launching a marketplace for reopening businesses where they can buy masks, face shields, gloves, cleaning and disinfecting products, physical barriers and portable furniture.
Basic rules for all sectors

Social Distancing
- Require 6 feet of distance unless safety or core function of the work activity requires less
- Reduce occupancy to under 50%, limit confined spaces to 1 person (elevators, behind cash registers)
- Limit all in-person gatherings and meetings, and only hold them in large, well-ventilated areas with social distancing

PPE
- Provide employees with free face coverings or, if warranted, face shields or other proper protective equipment. Require face coverings if employees cannot keep 6 feet of distance due to safety or core work function
- Hygiene
- Ensure frequent cleaning and disinfecting of any shared surfaces

Health Screenings
- Implement mandatory health screenings for employees, including questionnaires, temperature checks

Communication
- Create and place distance markers, post signage throughout the workplace reminding personnel to adhere to phase 1 guidance and rules
- The Governor signed legislation authorizing Attorney General Tish James to enforce the price gouging statute to cover PPE. Read more here.

Training and Implementation
- To help enforce the guidelines, DCWP, FDNY and DSNY will conduct random visits to reopening sites to ensure compliance. Summonses will be issued only in egregious circumstances or repeat violations. Response to complaints will be
coordinated by the Office of Special Enforcement with NYPD, Sheriff and other relevant agencies. People can call 311 to report a business that is violating guidelines.

- **Business Roll Out**
  - The City will require Phase 1 businesses to post reopening safety plans in the workplace. The Department of Buildings, Department of Consumer and Worker Protection and Small Business Services will educate, conduct outreach and provide support to businesses.
  - The City is training small business advocates and compliance advisors. The City will publish plain language industry guides and launch a dedicated Business Restart Hotline. In addition, Sector Advisory Councils will be available to troubleshoot additional necessary guidance or rule changes to help businesses succeed.
  - The City announced the **Restaurant Revitalization Program**, a $3 million project to assist restaurants with “wage replacement” to retain current employees (or rehire those laid off) due to COVID-19. The program will prioritize neighborhoods hit hardest, including Washington Heights, Inwood, Hamilton Heights, Central Harlem, Morningside Heights, East Harlem, the Lower East Side, and Chinatown. The first round of applications are due June 19. [Learn more](https://www2.dcr.nyc.gov/business-restart-recovery/restaurant-revitalization-program).
  - **Six major retailers are requiring customers to wear face coverings while shopping at their stores nationwide**, including: Costco, C-Town, Gristedes and D’Agostino, Stop & Shop, Tops and Whole Foods. (July 1)

- **NYC Resources for start-up**
  - Mayor de Blasio announced on Friday that outdoor dining program will be extended year-round and made permanent. Outdoor dining, which started in response to the coronavirus pandemic, was set to end on Oct. 31.
    - The City will allow restaurants to expand seating to the frontage of adjacent properties, as long as the adjacent property owners formally agree to the use
of the space for a specified period of time and commit not to charge a fee for its use. The City will work with the State Liquor Authority on any requirements associated with extending alcohol service to the expanded seating in front of adjacent properties. In early October, the New York City Department of Transportation (DOT) will issue a template agreement and provide instructions on how to file the agreements. Adjacent properties may not be used prior to the release of official instructions and formal agreements.

- Subject to restrictions, restaurants are allowed to incorporate heating elements into their outdoor dining setups. Electrical heaters will be allowed on both sidewalk and roadway. Propane and natural gas heaters will be allowed on sidewalks only; they will remain prohibited in roadway seating. Propane will require a permit from FDNY and compliance with FDNY regulations for outdoor use, handling and secure outdoor tank storage overnight. Official guidance on what will be considered approved installation and use of heating elements will be released before the end of September, and restaurants are prohibited from installing heating elements until guidelines are released and followed.

- Restaurants will also be permitted to use tent enclosures to keep diners warm. In partial tent enclosures, at least 50% of the tent’s side wall surface area must remain open and electrical heaters are permitted. In full tent enclosures, the tent’s side walls may be closed but occupancy limitations will be capped at 25% of capacity, and indoor dining guidelines must be followed; electrical heaters will also be allowed. Enclosed structures, such as plastic domes, will be allowed for individual parties and must have adequate ventilation to allow for air circulation.

- As the program’s duration will now continue through the winter months, and winter weather creates potential for inclement weather to impact road conditions, the City will engage the restaurant industry and other
stakeholders to develop additional safety features to further strengthen roadway barriers. To ensure timely implementation, the City will require restaurant owners to comply with new safety features by November 15, 2020. In addition, significant snow events may necessitate the temporary removal of some barriers from the roadway.

- The City will work with the City Council to make the regulatory changes necessary to make the program permanent. See: Press Release
  - Dedicated Business Restart  888-SBS-4NYC (888-727-4692).
  - Guides for industry employers are provided here.
  - The Department of Citywide Administrative Services (DCAS) will provide 2 million free face coverings to 40 local chamber and business groups through June 8.
  - Business Reopening Information and Resources: nyc.gov/business
  - Digital Resource Fairs - Please visit http://nycsmallbizcourses.eventbrite.com to sign up for this resource fair and to find all of our digital webinar offerings.
  - Face Covering Distribution: For a list of distribution sites available, visit https://www1.nyc.gov/nycbusiness/article/free-face-coverings
  - Financial Counseling for Businesses: NYC.gov/talkmoney
  - 311 Worker Protection Hotline will launch on Monday, June 8, 2020. Worker rights and guidance can be found here
  - DOHMH COVID-19 Info: Business & Facility Guidance
  - To help restaurants rebound, the NYC Department of Transportation and Department of Consumer and Worker Protection will streamline the permitting process for outdoor sidewalk seating. Restaurants will be able to convert adjacent parking spots into more seating with self-certification -- no permit will be needed. The City will allow restaurants to create seating areas in Open Streets sites, and identify new Open Streets on commercial strips with a high volume of restaurants. Interim Guidance For Outdoor And Take-Out/Delivery
Food Services During The COVID-19 Public Health emergency:

**Guidance**

- **The Mayor extended the City’s overwhelmingly popular Open Restaurants program until the end of October**, giving nearly 9,000 participating restaurants two extra months to serve diners in safe, socially distant outdoor spaces. The Mayor also unveiled 26 more locations for the weekend expansion of outdoor dining options under an initiative that combines two popular programs, Open Streets and Open Restaurants. See: [Press Release](#) (July 17)

**Construction**

- **The New York City Department of Buildings (DOB) released new COVID-19 safety guidelines** for property owners and contractors as construction sites get back to work as part of New York City's Phase One of New York State’s reopening plan, on June 8, 2020. These new required safety measures for construction sites were developed with the New York City Department of Health and Mental Hygiene (DOHMH) and are being implemented to prevent the spread of the novel coronavirus to workers and the public during the ongoing COVID-19 pandemic. [Read the guidelines](#).

- The guidelines apply to all construction activity in New York City during the ongoing COVID-19 public health emergency, until the State rescinds or amends its Executive Order and related guidance. Stop Work Orders previously issued by the Department for noncompliance with the State’s non-essential construction ban will be lifted. The Department will not be lifting Stop Work Orders at sites that illegally continued work even after they were issued a Stop Work Order for violating the ban, and have outstanding civil penalties.

- Employers are also required to develop a site-specific health plan that is prominently visible on the worksite. They will also be required to submit and display an affirmation to the State that they have read and understood the additional reopening requirements as required in the [NYS Interim Guidelines](#).
DOB inspectors will be conducting a safety inspection sweep of every permitted construction site in New York City, and following up with additional periodic checks of active work sites. Members of the public can also call 311 to report a work site where proper COVID-19 safety measures are not being followed. During these sweeps, inspectors will be looking for the following:

- Compliance with social distancing protocols. Six feet of distance should be observed between all personnel, unless safety or work functions require shorter distance.
- Anyone on site, including workers, other construction professionals, and approved visitors, who are less than six feet apart must wear face coverings. Maintaining this practice at all times is highly encouraged.
- Readily available hygiene and hand washing stations.
- COVID-19 safety measures signage visible to workers, reminding everyone to adhere to all safety protocols while on site, including proper hand hygiene, physical distancing rules, appropriate use of personal protective equipment, and cleaning and disinfecting protocols.
- Tightly confined spaces (e.g., elevators, hoists) occupied by only one individual at a time, unless all occupants are wearing a face covering and the space is kept under 50% maximum capacity.
- For elevators and hoists, 50% capacity signage must be posted within the cab and at each landing.
- A site safety monitor must be designated. The role's responsibilities include continuous compliance with all aspects of the site safety plan.
- Safety plan(s) are conspicuously posted on site and include a copy of the submitted State affirmation.
- Properly completed and updated cleaning and disinfection logs.
- A communication plan for employees, visitors, and clients is on site.
- Correctly completed and updated logs of every person who may have had close contact with others on site to ensure effective contact tracing.
• **Health/Medical Coverage**
  o **Call the City’s new COVID hotline (212-COVID-19)** to speak with a clinician about COVID and discuss self-quarantine options and travel restrictions, available in English and Spanish.
  o The New York State Department of Financial Services took action to extend emergency regulations requiring New York health insurers to waive cost-sharing associated with emergency room visits, in-network telehealth visits, in-network outpatient provider office visits, in-network urgent care center visits, and in-network laboratory tests when the purpose of the visit or test is to diagnose COVID-19, and waiving cost-sharing for in-network telehealth services for any healthcare service covered under a policy, including mental health and substance use disorder treatment until November 9, 2020.
  o **The deadline for state health insurance special enrollment has been extended to through December 31, 2020. New Yorkers** without health insurance can apply for coverage through the [NY State of Health Plan](https://www.health.ny.gov/insurance/state_plan_enrollment.htm) Marketplace. See: [Press Release](https://coronavirus.nyc.gov/site/press-releases/2020-09-10-special-enrollment-period-extended.htm)
  o New York City hospitals are now eligible to resume elective surgeries and ambulatory care. (Aug. 18)
  o **NYC Care will expand to Queens and Manhattan, four months ahead of schedule.** This is a Citywide effort to guarantee health care for all New Yorkers. NYC Care currently serves the Bronx, Brooklyn and Staten Island by providing access to low-cost and no-cost primary care for those who are ineligible or can’t afford insurance, and helps fight healthcare disparities made clear by COVID-19. It is expected to reach nearly 54,000 residents; 44,000 residents in Queens and 10,000 residents in Manhattan.
  o The FDA has identified **130+ hand sanitizers** that consumers should avoid because they lack a sufficient level of alcohol to kill germs or because they contain dangerous levels of wood alcohol. To report adverse effects from hand sanitizer, fill out an [FDA MedWatch](https://www.fda.gov/safety/medwatch/report-problems) report.
A recent Duke University study shows that almost all masks are effective at reducing the spread of COVID, but fleece masks, bandanas and neck gaiters are worse than wearing no mask at all.

Transportation

- The State has issued updated guidance for taxis, for-hire vehicles and other transportation services. Drivers are encouraged to transport passengers with the windows down to increase ventilation, and to implement physical barriers between rider and driver, in addition to the mandatory mask wearing requirement for both drivers and passengers. See: Guidance

- The State Department of Motor Vehicles is expanding online services, making it easier for New Yorkers to do business with the DMV during this pandemic. The Gov. announced on Sept. 18 that the DMV is launching a pilot program to offer the written learner permit tests for passenger cars (Class D) and motorcycles (Class M) online. It is also piloting a process to allow customers who reside in counties served by the State DMV to register their vehicles online. In-person services are available for transactions that cannot be done online, by mail or by drop box and reservations are required for all in-person transactions. Read more.

- A new executive order was issued by the governor extending the vehicle inspection and registration deadline until Nov. 3.

Mass Transit

- The MTA will begin a voluntary COVID-19 screening program for frontline transit employees. Under this new initiative, free COVID testing will be offered at field locations and medical assessment and occupational health services centers to frontline NYC Transit, LIRR, Metro-North and Bridge and Tunnels employees. Up to 2,000 frontline MTA employees will be screened per week under the initial phase of the program. Read more here. (October 27)

- The MTA’s new live subway map gives real-time updates about train arrivals, service changes and elevator and escalator outages. It’s not yet available on the MyMTA app, only on web browsers, so bookmark it: map.mta.info.
Governor Cuomo announced an executive order on September 10 directing the Metropolitan Transportation Authority to develop a plan to increase mask compliance throughout the mass transit system. In response to this directive, the MTA announced riders who refuse to wear a mask on public transit will be subject to a $50 fine. The new rule takes effect on Monday, September 14. See: Press Release

The Metropolitan Transportation Authority (MTA) is ending a program that allowed essential workers affected by its overnight subway shutdown to get free rides in for-hire vehicles. Given the fiscal crisis facing the agency, the program will end August 30.

The Long Island Railroad launched a new app to help you identify train capacity. Riders can use the app to help plan their commutes and identify which trains are the least crowded.

The NYC Fair Fares program is now accepting applications. Eligible New Yorkers receive a 50% discount on subway and eligible bus fares. Click here to determine your eligibility and apply. Click here for more information on the Fair Fares program.

The MTA announced they have deployed PPE vending machines stocked with masks and hand sanitizer as a pilot program at 10 stations. Eight of the vending machine locations are in Manhattan:

- 14 St-Union Square
- 34 St-Herald Square (two machines)
- 34 St-Penn Station
- 34 St-Penn Station
- 42 St-Port Authority Bus Terminal
- 42 St-Times Square (two machines)
- 59 St-Columbus Circle
- 74 St-Roosevelt Av

Masks are mandatory when riding public transportation systems and New Yorkers should follow all guidelines and protocols when riding, including...
maintaining social distancing to the extent possible, using hand sanitizer and observing decal guidance.

- The city’s subway and bus system has resumed service
- The Metropolitan Transportation Authority (MTA) unveiled its **13-Point Action Plan for A Safe Return**. Subways and buses were moving 1.5 million customers in advance of the re-open. For more information on the MTA's 13-Point Action Plan, visit [here](#).

- The 13-Point Action Plan includes:
  - Increased Service
  - Cleaning & Disinfecting
  - Mandatory Face Coverings
  - Enhanced Safety & Security
  - Nation-Leading Employee Safety Initiatives
  - Innovative Cleaning Solutions
  - Hand Sanitizer
  - Floor Markings, Directional Arrows and New Signage
  - Staggered Business Hours
  - 2 Million Mask Contribution from State & City
  - Contactless Payments
  - New Partnership & Technology to Make System Safer and data dashboard

- **The Governor has asked that commuters unsatisfied with bus or subway service** during reopening call **511** with complaints.

- Mayor de Blasio announced that approximately 800 NYPD school safety agency will be deployed throughout the transit system to distribute face masks and encourage social distancing. (June 8)

**Bus Service:**

- The Metropolitan Transportation Authority announced on Sept 24 that it will add nearly 1,000 bus trips beginning in October to help students travel to school. The MTA will also provide free masks to students, which are mandatory to wear on public transit in New York.
- **The myMTA app now features bus ridership information in real time.** To help avoid crowding on buses as New York City reopens, the MTA has added a feature to its myMTA app to provide the real-time number of riders on any given bus line.

- **The Metropolitan Transportation Authority (MTA) announced it has launched a pilot program to mount dispensers of free surgical masks inside buses to further protect customers while on board.** The MTA has already completed the installation of dispensers on 100 buses on six bus routes in three boroughs. Customers on the Bx12 SBS and Bx41 SBS routes in the Bronx, S53 Staten Island local route, and X63, X64 and X68 express routes in Queens can now easily access the free surgical masks from dispensers mounted at the rear doors of the SBS and local buses, and at the front door of express buses. The MTA plans to roll out the pilot across every borough on more than 20 routes and 400 buses by the end of August. All customers and MTA employees are required to wear a mask while riding public transit.

- **On Wednesday (8/5) the MTA will launch two new overnight express bus routes to other boroughs:** M99 (Hell’s Kitchen-East New York via 14th St., 1 - 6 am) and Bx99 (West Village-Woodlawn, 1 - 6 am).

- With shield installation for the drivers, front-door boarding and fare collection on buses will resume on August 31.

- The city will create new five busways — where most regular cars are banned, allowing for faster and more frequent bus service — starting with Main Street in Flushing, Queens this month. Between July and October, busways will be added on Fifth Ave. in Manhattan, Jamaica Ave. in Queens, Jay Street in Brooklyn and 181st Street in Manhattan.

- There will also be four new bus lanes on E. 14th St. in Manhattan, 149th St. in the Bronx, Hylan Blvd. on Staten Island and Merrick Blvd. in Queens — for a total of 20 miles of busways and bus lanes serving 750,000 riders.

- **The Staten Island Ferry,** which had its service reduced, will begin running every 20-minutes at rush hour (6:00 am-9:00 a.m. & 3:30 p.m.-6:30 p.m.) and 30-minute service (5:30 a.m.-6:00 a.m. & 6:30 p.m.-7:30 p.m./Weekends 7:00
a.m.-7:00 p.m.) Markers will be in place to demonstrate six feet of social distancing. Face coverings and hand sanitizer will be widely available and distributed.

- **Metro-North and Long Island Railroad**: Both MTA commuter rails systems have expanded their limited-service schedules. Metro-North now runs additional city-bound trains in the morning and in the opposite direction in the evening and LIRR has increased capacity, and according to media reports will be at 90% service. Ticket counters remain closed. Passengers must use kiosks or the MTA app.

- **New Jersey Transit**: Trains and buses are operating on full schedules. The concourse in New York’s Penn Station will be closed for cleaning every night between 1 a.m. and 5 a.m., but customers can still enter via the main entrance on 7th Avenue and 32nd Street. Passengers with paper tickets will be asked to tear them to minimize hand-to-hand contact with staff.

- **Testing and Treatment updates in NYC and State**
  - SUNY will require on-campus students to test negative for COVID-19 before leaving for Thanksgiving break. That means SUNY’s 64 colleges and universities will test about 140,000 people over a 10-day period leading up to Thanksgiving break. Per the policy, colleges in the SUNY system should schedule tests as close as possible to students’ departure date. (October 27)
  - The State of New York announced the launch of COVID Alert NY – the official Exposure Notification App, which uses Bluetooth technology to notify users of their proximity to other cellphones with the app that have been tied to a positive coronavirus test. The free app is ADA compliant and available in 6 languages. **To learn more about COVID Alert NY, visit ny.gov/covidalerts.**
  - NYC and New York State have expanded coronavirus testing criteria to include all New Yorkers.
    - Any New Yorker can go to any of the State’s 750+ testing sites and get a test at no cost.
• The City will now have the capacity to test up to 50,000 New Yorkers per day, building on the city's commitment to test, trace, and treat all positive cases of COVID-19. The City will also now activate the next stage of its hyper-local response in the Rockaways and Sunset Park. The first two-week pilot initiative, launched in the Tremont, Bronx neighborhood, tested over 7,400 New Yorkers. All 200 positive cases received immediate, on-site counseling, allowing them to immediately safely separate and receive assistance through supportive services, such as food and financial counseling (July 23)

• The City will open four new testing sites with the urgent care partner Medrite. The following sites will launch Monday, July 27th, with operating hours between 8:00 AM – 8:00 PM.
  - **Manhattan**
  - 330 West 42nd Street
  - 919 2nd Avenue
  - 77 Dyckman Street
  - **Brooklyn**
  - 504 Myrtle Avenue

• **New City Testing Partnerships (July 13)**
  - **Ramon Velez Health Center** (Currently Open)
    - 754 E. 151st Street, Bronx
    - Monday - Friday 9:00 AM-4:00 PM
    - Appointment required
  - **Clay Avenue Health Center 1** (Currently Open)
    - 776 Clay Avenue, Bronx
    - Monday - Friday 9:00AM-4:00 PM
    - Appointment required
  - **Casa Maria Health Center** (Currently Open)
    - 324 E. 149th Street, Bronx
    - Monday - Friday 9:00 AM-4:00 PM
    - Appointment required
  - **Claremont Health Center** (Currently Open)
    - 262 E. 174th Street, Bronx
- Monday - Friday 9:00 AM-4:00 PM
- Appointment required

- **Thomas and Marie White Health Center** (Currently Open)
  - 116-30 Sutphin Boulevard, Queens
  - Monday - Friday 9:00 AM-5:00 PM
  - Appointment required

- **Hope Gardens** (Opens tomorrow, July 14th)
  - 120 Menahan Street, Brooklyn
  - Monday - Friday 10:00 AM-4:00 PM
  - Appointment required

- The City will also operate additional testing sites through Union Community Health Centers:
  - **Union Community Health Center**: (Currently Open)
    - 260 East 188th Street, Bronx
    - Monday - Friday 9:00 AM – 5:00 PM
    - Rapid Care hours: Monday-Friday 3:00 PM -9:00 PM. Saturday-Sunday 10:00 AM-6:00 PM
    - Appointment required
  - **Grand Concourse**
    - 2021 Grand Concourse, Bronx
    - Monday - Friday 9:00 AM- 5:00 PM
    - Appointment required

- The following sites will open through a partnership with the Institute for Family Health:
  - **Stevenson Family Health Center** (PCR Testing Only; Opens August 3rd)
    - 731 White Plains Road, Bronx

- Governor Cuomo announced the state is opening 14 new temporary testing sites at churches located in communities particularly impacted by COVID-19, in partnership with Northwell Health and SOMOS Community Care. (June 8)
- Tracing will be included with coronavirus testing.
- The goal is to have 5,000-10,000 tracers.
- Individuals who test positive for coronavirus will receive a call from a tracer 24-36 hours after being tested. The Mayor urges everyone to answer the call.
New York City will launch mobile testing to come out to the community.

- An additional 10 trucks will be available in July providing 80 test per truck per day.

For more information on testing, visit here.

Upcoming Antibody testing:

- Antibody testing will be offered on an appointment-only basis from Monday, June 29 to Friday, July 24. Tests are free for all City residents over the age of 18, and available at the below sites Monday- Friday from 12:00 PM-8:00 PM or Saturday through Sunday 8:00 AM-12:00 PM. Appointments can be made on this site or by calling 1-888-279-0967:

  **Brooklyn**
  Brooklyn P.S. 12
  *430 Howard Avenue*

  **Queens**
  Queens High School of Teaching
  *74-20 Commonwealth Blvd*

  **Manhattan**
  Gregorio Luperon High School for Science and Mathematics
  *501 West 165th Street*

  **Bronx**
  James Monroe HS Campus Annex
  *1551 East 172nd Street*

  **Staten Island**
  Former St. John Villa High School
  *57 Cleveland Place*

Free, walk-in antibody testing is now available at H+H Gotham Community Health Centers across the city. Additional information, including hours of operation, can be found here.

**Brooklyn**
Cumberland, *100 North Portland Avenue*
Ida G. Israel, *2925 W 19th Street*
Jonathan Williams Houses, *333 Roebling Street*

Morrisania, 1225 Gerard Avenue

Staten Island
165 Vanderbilt Avenue

- **Tracing and Isolating in NYC**
  - Information on the Test & Trace Corps, including program metrics, is available [here](#).
  - New Yorkers with positive results are now receiving calls. Anyone safely separated at home will be offered meal delivery, medication and essential services through a Resource Navigator. Anyone unable to safely isolate at home will be offered a free hotel room. Contact mapping, case monitoring and outreach to contacts all began yesterday.
  - If you test positive You will be called within 24 hours by a Tracer. The call will last 30-45 minutes and you will be asked about your symptoms, your recent close contacts and how to reach them, and your tracer will give you instructions on how to safely separate for up to 14 days.
  - If you *can* safely separate at home, you’ll get a same-day call from a Resource Navigator offering services including meals and medication. If you *cannot* safely isolate at home, you’ll receive a same-day call providing you with a free hotel room, and instructions on how to separate there.
  - If you are named as a contact, a tracer will call you to ask about your symptoms, offer instructions on how and where to get tested immediately, and give instructions about how to safely separate for 14 days, either at home or at a free hotel. You will then receive daily follow-up to ensure you get tested.
**Housing**

- On August 27, the Department of Housing and Urban Development (HUD) extended its eviction and foreclosure moratorium for FHA-insured homeowners through the end of 2020. HUD will also begin considering factors associated with eviction risk when allocating nearly $2 billion in CARES Act funding and is reminding current grant recipients that they can use various funds to assist renters at risk of eviction. To assist vulnerable Americans, **HUD allocated $472 million in CARES Act funding to help ensure that low-income residents have a safe place to live during the coronavirus.** See: [Press Release](#)

- The moratorium for residential evictions in New York State has been extended to the end of the year. See: [Press Release](#)

- The state’s chief administrative judge issued a memo on Wednesday, August 12 extending the ban on marshals serving residential evictions until October 1, following an executive order issued by Gov. Andrew Cuomo last week that extended it until September 4. Although no tenant can be physically forced out of their residence before October 1st, the new guidance from Chief Administrative Judge Lawrence Marks allows for residential eviction proceedings prior to March 17th to proceed, provided another hearing is held before a judge to exhaust all options before an eviction is carried out. Eviction cases filed after March 17th are still suspended, according to Marks's memo. The new guidance requires judges to "address a range of subjects related to the case and COVID-19 concerns" before a warrant can be sent to city marshals for enforcement, the memo reads.

[Rev_Ev_8_12.pdf](#)

- Mayor de Blasio launched the city’s first-ever online [portal](#), created through the Mayor’s Office to Protect Tenants (MOPT), the Mayor’s Public Engagement Unit (PEU), and the Department of Information Technology and Telecommunications
(DoITT), to help renters navigate free public and private resources to avoid eviction and stabilize their housing situations. The free portal is accessible to all residential tenants.

- Tenants will respond to a series of questions about their unique circumstances and be directed to the most relevant resources, such as help navigating an illegal lockout or eviction. The portal also has up-to-date information on the general status of evictions in New York City Housing Court. Tenants who do not have access to the internet can call 311 and ask for the “Tenant Helpline,” which was launched in partnership with 311 and HRA’s Office of Civil Justice (OCJ) in April of this year, where they will be connected to a PEU Tenant Support Specialist to receive free, individualized assistance. See: Press Release (August 10)

- The following is the Office of Rent Administration’s Borough and District Rent Offices new procedural guidance for office visits:
  - Service will be provided to visitors to the office **BY APPOINTMENT ONLY**. If you cannot come alone, please minimize the number of guests accompanying you.
  - Appointments must be scheduled at least one day in advance, and no more than two weeks in advance.
  - To schedule an appointment or to receive assistance over the phone, please contact:
    - Lower Manhattan: 212-480-6238
    - Upper Manhattan: 212-961-8930
    - Westchester: 914-948-4434
    - Queens: 718-482-4041
    - Brooklyn: 718-722-4778
    - Bronx: 718-430-0880
  - All visitors will be required to wear face masks. Information will be provided at our service window. Visitors with an illness or fever are being directed to seek service over the phone or by email.
Visitors are required to bring: proof of identity and proof of tenancy or ownership, any orders, notices or documents they want to review and discuss.

Maximum length of time for an appointment is 30 minutes. Visitors who arrive after their 30-minute allotted time frame will need to reschedule. Please arrive early, as extra time will be needed to clear building security and elevator passenger limits.

- For details on the new Procedures for Office Visits and related guidance please see: Notice

Renters who have been impacted by the coronavirus pandemic can apply for rental assistance from $100 million in federal funds, set aside by the state, in the form of a one-time rental subsidy paid directly to landlords, the Times Union reports. Tenants are not required to repay this assistance. The program is administered by New York State Homes and Community Renewal (HCR) and access to program applications will be available here, starting July 16. HCR will prioritize households with greatest economic and social need, accounting for income, rent burden, percent of income lost and risk of homelessness. See: Press Release

- The deadline to apply for the COVID Rent Relief Program has been extended to August 6th. The following is a list of resources available to you for help with the application process:

  - The website – www.hcr.ny.gov/RRP – provides the application, FAQs and other documents in six different languages to ensure New Yorkers with limited English proficiency have proper access to the application and program tools.

  - HCR has created a dedicated call center to provide residents, including those with limited English proficiency, with help Monday through Saturday, 8 a.m. until 7 p.m. Call the COVID Rent Relief Program Call Center at 1-833-499-0318 or email at covidrentrelief@hcr.ny.gov
- There is also a list of community-based organizations in each region of the State who are available to assist non-English-speaking residents with their application. The New York State Office for New Americans can also help.

- Residents may also authorize a caseworker, attorney or other personal representative to apply for the COVID Rent Relief Program on their behalf. The Authorized Representative Release Form is available and can be downloaded from the Rent Relief Program website [https://hcr.ny.gov/RRP#application](https://hcr.ny.gov/RRP#application)

  - The Mayor along with the Racial Inclusion & Equity Taskforce announced a new program to increase housing security to tenants across the City who may be facing hardship due to the COVID-19 pandemic. Starting immediately, the Citywide Landlord-Tenant Mediation Project will serve hundreds of New Yorkers each month by addressing rent-related issues in a mediation setting, outside of the housing court system, with a focus on hardest hit communities.

    - Through this project, non-profit Community Dispute Resolution Centers (CDRCs) will assist tenants and small landlords in finding solutions to rental issues due to the COVID-19 pandemic. The goal is to resolve cases before they reach litigation and avoid the long-term effects of an eviction proceeding which can lead to displacement for vulnerable tenants and limit future housing options. The Mediation Project will handle cases in a setting where both parties feel safe, and priority will be given to tenants and small landlords who do not have legal representation. See: [Press Release](https://hcr.ny.gov/RRP#application) (July 21)

- **Education/Child Care**

  - Parents of NYC Public School students will have only one chance to choose the option of Blended Learning for the remainder of the school year.
- Parents will have a window from **November 2 - November 15** to switch their kids from purely online classes to Blended Learning. This is a change from previous plans to allow parents to opt-in on a quarterly basis.
- Registration for blended learning will happen online [here](#).
- To learn more click [here](#).

  - Mayor de Blasio announced that **school COVID-19 testing data** will be made available to parents and communities who want to know the status of schools throughout all 5 boroughs. Data will be made available on the DOE's website, which can be accessed by clicking [here](#). A complete daily COVID case map will be made available also, click [here](#) to access.

  - The New York City DOE’s [Daily COVID Case Map](#) shows closed public school classrooms and entire school buildings due to COVID cases.

- Gov. Cuomo announced on September 8 a new executive order that will require local school districts, laboratories and health departments to collect COVID testing data from children and report to the state Department of Health, which is creating a new “report card” to monitor the spread of the coronavirus in public schools. As schools reopen and districts, local health departments, and labs begin reporting this data to the NYS Dept. of Health, the COVID-19 Report Card will be live at: [https://schoolcovidreportcard.health.ny.gov/](https://schoolcovidreportcard.health.ny.gov/).

- **New York City schools will not fully reopen on Monday as planned,** Mayor Bill de Blasio announced on Sept. 17, that only pre-kindergarten, early education classes for 3-year-olds, and special education classes will open in person on Monday, Sept. 21. Elementary schools and K-8 schools will now open on Tuesday, Sept. 29. Middle and high schools will open on Thursday, Oct. 1. See: Press Release

- Mayor Bill de Blasio announced on September 14 the launch of a COVID Response Situation Room for city schools that will field reports of positive cases from school administrators, get individuals isolated as needed and coordinate contact tracing. See: Press Release
Mayor de Blasio announced on Sept. 14 that an additional 2,000 educators will be deployed to schools immediately. This list will comprise of redeployed central staff, long-term substitutes, and temporary staff.

On September 8, Mayor de Blasio and the Department of Education announced plans for in-person students who will be using school buses to attend classes.

- Buses will operate at 25% capacity;
- Face masks will be required;
- Students will be seated next to the window in every other row;
- Only siblings will be allowed to sit together; and
- Buses will be disinfected every day. To learn more, visit here.

On September 8 Mayor de Blasio announced a new program called Learning Bridges, which is designed to help working class parents with children in Pre-K to 8th grade go back to work. The program will accept 30,000 students. For more information click here.

- For any parent wishing to switch their child to fully remote learning, NYC Department of Education has created a means to do so online by clicking here.
- Parents can also view the reopening update from DOE Chancellor Carranza by clicking here.

The Dept. of Education released the 2020-2021 school year calendar, which lists fully remote days, closures and parent-teacher conferences.

NYC school families can join The New School’s InsideSchools+ to help navigate the school system and this year’s challenges. The website offers discussion forums and classes, such as “How to Support Online Learning at Home,” which is free and open for enrollment now.

As in-person school instruction resumes, GetFoodNYC Grab and Go meal locations will continue Monday - Friday at 200 schools in high-need areas starting Sept. 21. To view locations later this month, see the GetFoodNYC map. Some will be dedicated kosher sites, and others will serve halal options.
- Students learning in-person at a public school will receive both breakfast and lunch in school, and students at Learning Bridges locations will also receive breakfast and lunch on site.
- Families of students learning remotely can pick up free Grab and Go meals from any of the 200 schools, 9 am - 12 pm. Adults can pick up meals from 3 - 5pm.
  - On September 7, 2020, SUNY posted a real Time COVID-19 Case tracker dashboard to monitor, respond to, track testing and quarantine and isolation space availability across the University’s 64 campuses to contain the virus. See: [Press Release, SUNY Case Tracker](#)
  - New York State will allow “low-risk” school sports like tennis, soccer, cross country, field hockey and swimming to start up again on Sept. 21, Governor Cuomo announced on Monday, August 24. See: [Press Release](#)
  - **The Mayor announced the NYC teachers will report to schools on Sept. 8 and virtual learning will begin on Sept. 16, with in-person instruction starting for some on Sept. 21** under the plan, which will also require the city to test a percentage of students, teachers and staff in each public school each month for the coronavirus.
  - New York City Mayor Bill de Blasio announced at a press conference on August 25 that city inspectors will examine the ventilation systems in every classroom within the week as part of city efforts to reopen schools in mid-September. “School ventilation action teams” deployed by the Department of Education and the School Construction Authority will lead the effort to ensure that fresh air limits the spread of the coronavirus in classrooms this fall. See: [Press Release](#)
  - New York City Mayor Bill de Blasio announced new plans Monday, August 25 to allow public schools to hold classes in outdoor areas as criticism mounts over their upcoming reopening. Individual schools will have to apply by Aug. 28 to the city Department of Education for approval of any plans to hold classes in parks, schoolyards or other outdoor spaces. Schools in areas hardest-hit by COVID-19 with no outdoor space will receive priority for the program. The neighborhoods are:
- **Brooklyn**: Bed Stuy; Brighton Beach; Brownsville; Bushwick; Canarsie; East Flatbush; East New York and Starrett City; Sunset Park
- **Bronx**: East Tremont; Highbridge; Longwood and Hunts Point; Morris Heights; Morrisania and Crotona; Mott Haven and Melrose; Soundview and Soundview Bruckner; Van Cortlandt Park and Jerome Park
- **Manhattan**: Central Harlem; East Harlem; Hamilton Heights and Morningside Heights; Lower East Side and Chinatown; Washington Heights and Inwood
- **Queens**: Briarwood; Corona; Jamaica; Queensbridge; Rockaway and Far Rockaway

Staten Island: Stapleton-St. George

See: Press Release

- **DOE Back to School Guidance and Information Sessions.** Recently, the DOE issued plans for a blended learning model. Blended learning means students will be taught on-site in school for part of the week, and will attend school remotely on the other days of the week. Any family can also choose all-remote learning, for any reason. **The DOE will be hosting virtual citywide Information sessions for students and families from 6:30-8:00 PM on the following dates:**
  - Wednesday, August 12, 2020
  - Thursday, August 27, 2020
  - For more information on back to school guidance and to register for the information sessions, please click here!

- The Health + Hospitals Corporation will work with the Department of Education to ensure that every school will have a **certified nurse** this upcoming school year. See: Press Release

- The mayor announced that schools will be sanitized using **electrolyte** cleaning daily. This method will allow custodial staff to clean classrooms in two minutes or less. **DOE Chancellor Richard Carranza** announced that every classroom will have hand sanitizer and disinfectant available. Students will also be required to wear face coverings. Face coverings will be provided to students who do not have one.

- The mayor announced that students will eat breakfast and lunch in their classrooms. Read more [here](#) (August 13)

- **The mayor and Schools Chancellor Richard A. Carranza announced health and safety protocols**, including guidance for testing and tracing, for
schools for the start of the 2020-21 school year. These plans were submitted to the state for review to meet the Governor’s deadline. The protocols will apply to all school communities and will help prevent the spread of COVID-19.

- **In preparation for the start of school, the DOE is purchasing large orders of hygiene supplies on behalf of schools.** These supplies include, but are not limited, to, facial coverings for students, teachers, and staff; disinfectant; hand sanitizer; and electrostatic sprayers. School leadership and facilities staff in every school are reviewing school space and making necessary repairs and adjustments to ensure safe conditions for in-person student learning this fall.

- **All staff members will be asked to take a COVID-19 test in the days before the first day of school.** School staff will have priority access for free testing at 34 city-run testing locations, with tests provided with expedited results. This testing is also available for families citywide.

- **When school buildings reopen, all schools will be required to institute precautions to prevent, identify, and address the spread of COVID-19.** Daily precautions include:
  - An isolation room for students with symptoms with a dedicated staff member or health professional,
  - Physical distancing and required facial coverings,
  - Cleaning throughout the day and nightly disinfecting, and
  - Clear communication with families and school community.

- **If a student or teacher is feeling sick, they are required to stay home and, if their symptoms are consistent with COVID-19, are asked to get tested.** If a student begins experiencing symptoms in school, they will be isolated and monitored by a dedicated staff member until they are picked up by their parents or guardians. Staff members who become symptomatic at school are asked to immediately leave the building.
- **Whether symptoms begin at home or in school, there will be a clear flow of information to facilitate fast action and prevent spread.** A positive case can be reported to a school by a staff member, a parent, or a student. A positive confirmed case will trigger an investigation by the NYC Test + Trace Corps and DOHMH to determine close contacts within the school. Schools will communicate to all families and students within school any time a case is laboratory confirmed.

- **The DOE is working in concert with DOHMH and the NYC Test + Trace Corps to identify, isolate, and prevent spread of COVID-19.** In the event that there is a laboratory-confirmed case in a school, all students and teachers in that class are assumed close contacts and will be instructed to self-quarantine for 14 days since their last exposure to that case. Additionally, DOHMH and NYC Test + Trace Corps will begin an investigation into the risk of exposure to the school community and work with the DOE to issue clear guidance and decisions for next steps based on the outcome.

- **For the potential investigative conclusions outlined below,** all decisions to quarantine classrooms or close schools will depend on the facts of each investigation.

<table>

- **Whenever a student is isolating or quarantining at home**, the expectation is that they continue engaging with learning remotely if they are feeling well enough. If a school is closed, the school will communicate by 6 P.M. on the night before about the status of opening the next morning, based on the status of the
A school building will not reopen without confirmation from public health experts that it is safe.

- The City will continue to closely monitor health conditions, and if community transmission begins to rise across the boroughs, a decision may be made to close all schools and switch to full-time remote learning. New coronavirus cases will have to remain under 3% for New York City schools to physically open in September — and stay under that threshold for the school system to continue operating throughout the year, Mayor de Blasio said Friday. The guideline is stricter than the 5% threshold recommended by the Centers for Disease Control and Gov. Cuomo as necessary for reopening schools, a move the Mayor attributed in part to how densely packed the city is and the trauma its residents have felt. See: Press Release

- New York City's Board of Health approved a plan to reopen 3,000 child care centers citywide starting July 13. See: Press Release

- **The Mayor with the education Chancellor announced preliminary reopening plans for schools for fall 2020.** The plans provide for staggered schedules, a mix of in-person and remote learning. Families will also have the option to do online learning full time if they don’t feel safe returning to school in person. The DOE will host a series of Family & Student Information Sessions to answer any questions or concerns that families may have. The first session will be held on July 16, and additional sessions will be announced in the coming weeks. Schedules will be distributed in August. For more information, see: Press Release.

- The NYC Department of Education launched a process allowing parents to opt out of in-person instruction this fall in favor of remote learning. Families can opt-out at this website or by calling 311. Parents’ decisions could have an enormous effect on schools, which will allow most students to return to school buildings for one to three days each week.

- Governor Cuomo announced initial plans and data-driven guidance that will determine when k-12 secular and non-secular schools can reopen in the fall, and when schools might close again if infections surge. School districts must submit their reopening plans to the state by the end of the month, and the state will make its final
decisions during the first week of August. Schools in a region can reopen if that region is in Phase IV of reopening and if its daily infection rate remains below 5 percent or lower using a 14-day average. New York State, the Reimagine Education Advisory Council and the Department of Health released finalized guidance and guiding principles for reopening schools, which are available here. The DOH and Governor's Reimagine Council are working closely with the Department of Education as it releases education guidance. Schools will have to factor in social distancing, screening of anyone entering and demonstrate tracing capabilities, among other conditions in order to reopen. Face coverings will also be required anytime social distancing is not permitted and strongly encouraged all other times, except during meals and short breaks. In each of the 10 state’s regions, if the infection rate exceeds 9% on a seven-day average, then schools would have to close for in-person classes.

• Libraries
  o The city’s library systems will reopen a limited number of branches on July 13 for “grab and go” service, where patrons can pick up books they order in advance. NYPL, Brooklyn, and Queens library systems are looking to reopen physical locations in July on a limited basis. Working with partners in government and safety experts, and putting the health and safety of patrons and staff first. The New York Public Library is planning to:
    ▪ To start, the first two branches will be open Monday, Tuesday, and Thursday from 11 am – 6 pm; Wednesday from 12 – 7 pm; and Friday and Saturday: 11 am – 5 pm.
    ▪ The Epiphany Library (228 E 23rd St.),
    ▪ George Bruce Library (518 W 125th St.), and
    ▪ Stavros Niarchos Foundation Libraries (the old Mid-Manhattan Library, 455 Fifth Ave. at 40th St., M-F 10 am – 6 pm, Sat. 11 am – 6 pm).
    ▪ Patrons may start placing holds via the online catalog starting Monday, July 6 in advance of the reopening, or via phone starting July 13; upon arrival, they will be able to access a small area of each branch to pick up and return reserved materials while wearing masks and observing proper social distancing. (Research libraries, including the Fifth Avenue flagship,
will remain closed; but researchers will soon be able to request scans of materials.)

- **Queens Public Library (QPL)**
  - Queens Public Library is beginning to open with limited “to-go” service and book returns six days a week, which started on Monday, July 13th, 2020. Individuals can request materials to pick up online, through the QPL app, or by phone. For more information including related to the hours and locations of the grab-and-go sites, click [here](#).

- **Brooklyn Public Library (BPL)**
  - Lobby Service is now open at seven Brooklyn Public Library locations. Through Lobby Service, patrons can pick up holds in one of those seven branch lobbies and return books to bins in the lobbies. For more information and to find out the hours and locations of the grab-and-go sites, click [here](#).
  - Learn about grab-and-go branches in The Bronx and Staten Island at the [NYPL’s Coronavirus page](#). (The Queens and Brooklyn libraries are also starting grab-and-go services at limited branches on July 13.)
  - The staff and public will be required to wear face coverings, and maintain appropriate physical distance; the libraries will also employ special cleaning protocols to lower the risk of COVID-19
  - After an evaluation, additional branches will be added, and when safe, the system will open more branches for increased on-site use (computer use and browsing, for example)
  - At research centers (where most materials cannot be checked out), the system will focus on expanded and enhanced digital delivery of on-site materials until they can welcome the public into the physical venue space
  - Continue to [check for updates](#) on website

- **Volunteer Opportunities**
o NYU Langone Health Center is recruiting adults age 18+ to participate in a COVID-19 vaccine trial, especially those who are more likely to be exposed and vulnerable, including people with underlying medical conditions, seniors, those who could be exposed in their workplace (including elder-care facility residents or workers, and jail or prison workers) and Black, Latinx and Native American adults. Sign up at NYU Langone’s online registry at is.gd/nyucovidvaccinetrial. For more information about COVID-19 vaccine clinical trials in general, visit coronaviruspreventionnetwork.org

o Blood Donation
  ▪ **New York Blood Center Issued Urgent Call For Healthy Donors As Blood Supply Drops To Dangerously Low Levels:** [Call for Donation](#)
  ▪ New York State is working with blood banks to ensure safe social distancing protocols are being followed. Learn how and where you can donate at [ny.gov/donateblood](http://ny.gov/donateblood).
  ▪ New Yorkers who have recovered from COVID-19 and had a positive test BEFORE March 7 should visit [www.mountsinai.org](http://www.mountsinai.org) to help save another New Yorker by donating plasma.

o **The Marlene Meyerson JCC Manhattan is recruiting virtual tutors** for one or more 40-minute sessions each week (at various times each day) with students performing below grade level in grades K-12; tutors can be 14 or older and are vetted by the Dept. of Education.

o **New York Cares** is seeking volunteers in many capacities, on-the-ground service, or virtual opportunities. Please see more than [250 projects currently in need of volunteer support](#).

o The nonprofit West Side Federation for Senior & Supportive Housing has launched a drive for everything from volunteer support, to potential vendor connections, to donated foodstuffs, activity books, and technology. [Click here](#) to learn more and lend a hand.
o The Hunter College NYC Food Policy Center is recruiting volunteer callers to help update their 59 Coronavirus NYC Neighborhood Food Resource Guides. These guides are essential to helping keep communities informed on everything from soup kitchens to farmers markets to available resources for families depending on the SNAP and WIC programs. If you are interested in volunteering, please email info@nycfoodpolicy.org with the subject line: “Volunteer for Food Resource Guides.”

o Sign up as a volunteer for the Friendly Visiting Program at 212-244-6469. Please click here and complete the DFTA Volunteer Interest Form

o In It Together NYC is a city-wide volunteer initiative that connects healthy, eligible New Yorkers who seek to assist food pantries at risk of closing.

o iMentor, a nonprofit matching high school student to college-educated mentors, is seeking new mentors to work with students starting this fall (many of whom will need all the help they can get to recover academically from this pause). Interested applicants can learn more and apply here, or email sjoseph@imentor.org with questions.

o SAGE has a volunteer program that connects volunteers with LGBTQ+ seniors to help combat social isolation.

o Volunteer at the Metropolitan Museum of Art, no prior art history background required. Email volunteers@metmuseum.org to learn more.

• Recreation in NYC

o Mayor de Blasio announced that indoor pools are permitted to open at 33 percent capacity starting Sept. 30 allowing opportunities for residents to exercise. To learn more click here.

o Several museums and recreational sites are offering free or discounted admission to school children and caretakers before school begins: announcement

o Mayor Bill de Blasio announced on August 28 that NYC Parks can resume permitting its athletic fields across the city for outdoor youth sports. Supportive of children’s physical and mental health, lower and moderate-risk youth play on permitted fields will resume Tuesday, September 15. Permitted sports will
include baseball, softball and soccer. Indoor sports, including swimming, will not be permitted. Leagues must enforce public health guidelines, including wearing of masks and limitations on spectators. See: Press Release

- The Mayor announced that 8 public pools are open starting July 23 with additional pools opening in the future. The pools open: Mullaly in The Bronx; Liberty and Fisher in Queens; Sunset and Kosciusko in Brooklyn; Wagner in Manhattan; and Tottenville and Lyons on Staten Island.
- The Mayor indicated that playgrounds have opened in phase II.
- To keep kids cool this summer, The City is expanding it's Cool It! program by restaurants activating 250 new cooling elements and proactively adding spray caps to 320 fire hydrants. In addition, the City is installing air conditioners for low-income seniors, with over 18,000 units already installed. To see if you're eligible to receive a free air conditioner, click here.
- Mayor de Blasio announced that select Open Streets will become “Cool Streets,” -in neighborhoods vulnerable to heat-related health risks-- with spray caps on fire hydrants, water fountains, and trees for shade cover. Find your nearest sprinkler hydrant, fountain, or tree-friendly street here; Manhattan will have four Cool Streets:
  - East 101st Street, from Park to Third Ave.
  - West 117th Street, from Morningside to Fifth Ave.
  - West 138th Street, from Lenox Ave. to Adam Clayton Powell, Jr. Boulevard
  - Edgecombe Avenue, from St. Nicholas Place to West 145th St.
- NYC cancelled large street festivals, fairs and parades at least through September prioritizing city space for public use, social distancing and outdoor dining.
- The mayor announced an expansion of the outdoor dining program: Press Release and announced that outdoor dining on city streets will be back next summer, even if the coronavirus is under control. The Open Restaurants program will be back on June 1, 2021, or maybe even sooner if the weather cooperates. The program will run this year through at least Halloween, and the mayor claimed it has saved 80,000 jobs by allowing restaurants that might have been closed during the pandemic to keep serving diners outdoors.
Mayor Bill de Blasio announced that day camps that depend on city parks will be allowed to operate this summer.

The Mayor announced that public beaches for swimming will open July 1. Lifeguards will be on duty daily from 10:00 a.m. to 6:00 p.m. Swimming is unsafe and strictly prohibited at all other times. See: Press Release

The High Line in New York City will reopen July 16th. The elevated park will open with reduced capacity and free time-entry reservations.

The city’s zoos and aquariums plan to open on July 24 at limited capacity, assuming New York City is in phase four by then. Proper safety protocols will be implemented. Reopening guidelines and the list of facilities set to open can be found here.

The Mayor added another 23 miles to New York City’s nation-leading Open Streets program, bringing the citywide total to 67 miles – two-thirds of the way to the 100-mile goal laid out in late April. The new Open Streets, which are located primarily in neighborhoods hit hard by the COVID-19 crisis, include nine miles of temporary protected bike lanes. The Open Streets hours will be from 8am - 8pm. You can find the list of Open Streets here.

- The nine new miles of bike corridors, like the first nine miles of temporary lanes announced in May, will be phased in throughout the summer using markings, barrels, signage, and other barriers, to implement both permanent and temporary projects along with critical connectors from already-established protected lanes. During the rollout of these bike lanes, DOT will also be implementing new Green Wave signal timing in various corridors.

Celebrations, Programs & Events

- Mayor de Blasio extended Executive Order 148, which sets limitations on event permits through December 31, 2020. The Executive Order restricts the types of outdoor events permitted by the Department of Parks and Recreation, the Police Department, and the Street Activity Permit Office in order to minimize crowding, facilitate COVID testing and treatment sites, and to allow for use of streets and parks for recreation, learning and dining. Currently, there are over 475 outdoor learning sites in city parks and streets, in addition to 10,200 Open Restaurants and 79 miles of Open Streets. Safe, creative arrangements will be made for community celebrations, performances, and activations to continue in the city. Planned events include alternate celebrations for signature events, including the Macy’s Thanksgiving Day Parade and New Year’s Eve in Times Square, in addition to a spooky walk through the West Village for Halloween, and ceremonial motorcycle procession for Veteran's Day, among other virtual and socially distanced in-person activities.

- The CDC has released new guidelines and an interactive map to help families prepare for Halloween. To help families prepare, the CDC issued new guidance and a color-coded map to help families plan safe activities.

- The 2020 New Year's Eve ball drop in Times Square will be held virtually. The owner of One Times Square has designed the famous Times Square space virtually and built a broadcast app so that everyone, regardless of where they are, can enjoy the iconic ball drop safely. In previous years, as many as one million people have gathered in the Times Square area to celebrate the new year.

- Growing Up NYC has compiled a list of free or low-cost summer programs for students. Due to the COVID-19 Pandemic, some summer programs will be held
virtually. Individuals can find information regarding virtual programs through Growing Up NYC's website.

- **Generation NYC** has created a **fun at home guide** for teens and young adults. Activities include art workshops, virtual science fairs, and more.

- Registration is now open for the **Harlem Summer Arts Experience** virtual summer camp for kids ages 5-18. For a complete list of classes, and to register, click [here](#).

- **New York Public Library Summer Reading Program**
  The [New York Public Library](#) has launched its Summer Reading Program. For more information and to see all the Summer Reading Program has to offer, click [here](#).

- **Queens Public Library Summer Reading Program**
  [Queens Public Library](#) is offering a virtual Summer Reading Program. Children can earn badges, play games, and track their progress through the Queens Public Library [website](#).

- **Brooklyn Public Library Summer Reading Program**
  [Brooklyn Public Library](#) is once again offering a summer reading program. Families can access virtual programming, including story times, games, arts and crafts, and performances. For more information on their summer reading program, click [here](#).

- Although **El Museo del Barrio** is temporarily closed, you are invited to explore their website to learn about Latino art and culture through online resources. Click [here](#) to access upcoming exhibitions and past exhibitions offered by El Museo del Barrio.

- **The Jewish Museum** is offering mobile tours, programs, and an online collection spanning 4,000 years of history.

- The **Bryant Park Yoga Series** goes virtual every Tuesday and Wednesday on [Instagram](#), where you can practice with your favorite yoga instructors. Click [here](#) to join the Instagram class at or just before 10:00 AM, and tap or click the profile picture (circle on top left corner) to view the live video. You can watch live videos on the Instagram app or on Instagram.com.
The Bronx Council on the Arts is presenting their virtual exhibit, entitled Confidence in the Future. This exhibit highlights paintings, sculptures, and installations by eight young artists of color.

The SOOP (Seat-Of-Our-Pants) Theatre Company has re-imagined its summer program. All classes will be online and hosted via zoom. Students will sing, dance, and imagine costumes and sets, and use some artistic skills to develop a backdrop for their character straight from their home using materials they already have. Each age level will record their singing (with a grownup for help) on a very easy to navigate website. All acting and scene work will be recorded during class time and put together for a final presentation you can keep for years to come. What a great time to use the imagination and create something fun! Click here to see the summer workshops, and to register.

NYC & Co. in conjunction with city agencies offers an opportunity to explore the best of the City virtually, by rounding up online resources from museums, galleries, comedy clubs, theaters, and other venues in one, easy-to-click location. Click here for hundreds of ways to connect with your favorite NYC attractions from across the five boroughs—or discover new ones—from home.

New York State offers many opportunities for travelers with accessibility needs. Hundreds of attractions across the state offer accessibility features, with some even providing specialty programming like sensory-friendly museum days and adaptive skiing and snowboarding. A new I Love NY hub has all the details.

This year, the Great New York State Fair will be held virtually. The in-person fair has been canceled this year due to COVID, but the State Fair is hosting a whole slate of virtual events so New Yorkers can still experience the Fair safely. For example, the annual Butter Sculpture—an 800-pound sculpture carved out of butter—will be unveiled on September 1st.

The mayor announced that the West Indian Day Parade is cancelled this year and will be held virtually.

STATEWIDE INFORMATION
Governor Cuomo signed an **executive order** which exempts people who receive unemployment benefits from having to report part-time income received from the New York State Board of Elections or local board of election. Income must not exceed **$504**. Read more [here](#).

Unemployment Update: The New York State Department of Labor announced that the second and final round of Lost Wages Assistance (LWA) payments will be distributed over several days. Depending on your eligibility, you may receive one, two, or three payments of $300 during the week of September 22. Payments are for the benefit weeks ending August 23, Aug. 30 and September 6. See: [Press Release](#)

- **If you have been told you are pre-qualified for LWA benefits, the DOL will release your payments on the following days (please note that payments should appear in your DOL payment history on the date below – as with all benefit payments, it will then take 1-2 days for the money to reach your bank account):**
  - Tues. 9/22: $300 payment for the benefit week ending Aug. 23
  - Wed. 9/23: $300 payment for the benefit week ending Aug. 30
  - Thurs. 9/24: $300 payment for the benefit week ending Sept. 6

- **If you were informed that you must submit an additional certification to receive LWA benefits, your payments will be released as follows (please note that payments should appear in your DOL payment history on the date below – as with all benefit payments, it will then take 1-2 days for the money to reach your bank account):**
  - If you submit your certification via DocuSign or by calling 833-491-0632 before Tuesday, September 22 at 5 pm: DOL will release all LWA payments you are eligible for – up to three payments of $300 – on Thursday, September 24.
• If you submit your certification after 5 pm on Tues., Sept. 22: DOL will release all LWA benefits you are eligible for on a rolling basis starting Friday, Sept. 25.

- Under federal guidelines, benefits are only available to individuals who are unemployed as a result of the COVID-19 pandemic. If you received a pre-qualification email and/or text, you do not need to take any additional action to receive these funds. If you received a DocuSign email or did not receive a pre-qualification email and/or text message, you must submit a certification to receive these funds. To certify, sign and submit the DocuSign form sent to you via email or call the DOL’s automated phone system at 833-491-0632.

- At the present time, the federal government has only made funding available for a total of six weeks – representing the benefit weeks ending August 2, 9, 16, 23, and 30 and September 6. Eligible New Yorkers will receive $300 for each of those weeks that they were unemployed and received unemployment benefits. If the federal government makes funding available for additional weeks, we will notify you.

  - The NYS Department of Labor announced that those unemployed due to the pandemic may begin receiving an additional $300/week in federal unemployment benefits-- for just three weeks-- from the NYS Dept. of Labor’s UI and PUA program (under the Lost Wages Assistance Program as established by the Trump Administration). The payments are retroactive to 8/2, 8/9 and 8/16 and will be sent in three individual weekly payments of $300. (NY State has applied for an additional three weeks of payments beyond those retroactive to 8/16, but it’s unclear if the federal government will approve the application.)

    - Some applicants will automatically receive the extra $900 total and those who must certify with the NYS Dept. of Labor to receive the payments. Both groups should have received an email last Friday (9/11) from the
NYS Dept. of Labor about their status-- whether they must take action or if no action is needed

- The Port Authority of New York and New Jersey and regional airports will now require out-of-state visitors or returning New Yorkers at airports to provide contact information (via forms distributed by airlines) upon arrival at airports as part of a new effort to enforce the state’s 14-day quarantine of people coming from states with high levels of infections. A forthcoming executive order will outline a hearing process that would determine whether people who refuse to provide such information could be placed into a mandatory quarantine – in addition to facing a $2,000 fine. See: Press Release

As part of the enforcement operation, enforcement teams will be stationed at airports statewide to meet arriving aircrafts at gates and greet disembarking passengers to request proof of completion of the State Department of Health traveler form, which is being distributed to passengers by airlines prior to, and upon boarding or disembarking flights to New York State. A new electronic version of the DOH traveler form is now also available, making it easier and more efficient for travelers to complete the form.

State DOH has also issued an emergency health order mandating that all out-of-state travelers from designated states complete the DOH traveler form upon entering New York. Travelers who leave the airport without completing the form will be subject to a $2,000 fine and may be brought to a hearing and ordered to complete mandatory quarantine. Airlines have all pledged to help make passengers aware of the new requirement using pre-flight emails, pre-flight announcements, in-flight announcements and other methods. Additionally, travelers coming to New York from designated states through other means of transport, including trains and cars, must fill out the DOH traveler form online.

- Mayor Bill de Blasio announced on Wednesday August 5 that the City will establish COVID-19 traveler registration checkpoints at key entry points into New York City to ensure compliance with New York State quarantine requirements
and further the containment of COVID-19. The new checkpoints at bridges and tunnels will stop cars and seek to enforce quarantine orders imposed by New York State, which require people coming from 34 states and Puerto Rico to self-isolate for up to 14 days to avoid spreading Covid-19. The city Sheriff’s Office, in association with other law enforcement agencies, will oversee the checkpoints and stop a random sampling of cars entering the city, reminding drivers of the quarantine order and requiring them to complete a registration form if they’re coming from a high-risk state. People violating the quarantine — which applies to both residents of the high-risk states and New Yorkers returning from visits — can be subject to fines up to $10,000. Individuals who refuse to fill out the New York State Department of Health travel form are subject to a $2,000 fine. See: Press Release

- Governor Cuomo along with Govs. Phil Murphy of New Jersey and Ned Lamont of Connecticut announced that all travelers from states that meet specific health metrics must immediately enter a 14-day quarantine upon arrival in any of the three states. In NYS, the order will take the form of a travel advisory and took effect on June 25. It will apply to states with infection rates that exceed 10 people per 100,000 on a seven-day rolling average, or if 10 percent of the total population tests positive on a seven-day rolling average.
  - For the Week of October 27, California has been added to New York’s Travel Advisory. Individuals traveling to New York from California must quarantine for 14 days upon arrival in NY. Massachusetts meets the criteria for the travel advisory but due to the region’s interconnectedness, quarantine is not practically viable. As such, New York highly discourages non-essential travel between Massachusetts and New York to the extent practical. See more info here.
  - For the week of October 20, 43 states are on New York State’s travel advisory list. Arizona and Maryland were added onto the list. And non-essential travel between New Jersey, Connecticut and Pennsylvania is discouraged given the rising infection rate. See: Press Release
For the week of October 13, Ohio, Michigan and Virginia were added to New York State’s travel advisory list. See: Press Release

For the week of October 6, the State of New Mexico was added to New York State’s travel advisory list. See: Press Release

For the week of Sept 29, Governor Cuomo announced that Colorado has been added to New York State's COVID-19 travel advisory. Arizona and Virginia have been removed. See: Press Release

For the week of Sept. 22, five states have been added to the list of places from where travelers arriving in New York, New Jersey and Connecticut are supposed to quarantine, according to updates released by the governor’s office on Tuesday. Arizona, Minnesota, Nevada, Rhode Island and Wyoming have been added to the tri-state list, which now includes 33 states, Puerto Rico and Guam. No states were removed this week. See: Press Release

For the week of Sept. 15, the tri-state travel advisory includes 30 states and territories. California, the country’s most populous state, Maryland, Ohio, Nevada, Hawaii, Minnesota and the Northern Mariana Islands have been removed from the quarantine list. Puerto Rico was re-added after being removed last week. See: Press Release

Governor Andrew M. Cuomo announced on September 8 that four additional states—Delaware, Maryland, Ohio and West Virginia—meet the metrics to qualify for New York State's COVID-19 travel advisory. Puerto Rico and the United States Virgin Islands have been removed.

On September 1, Alaska and Montana were added back on the travel advisory list given the test rate positivity.

On August 25, 5 states were removed from the travel advisory/quarantine list: Alaska, Arizona, Delaware, Maryland and Montana; Guam was added Press Release

Alaska and Delaware were placed back on a list of states that require a mandatory 14-day quarantine for travelers entering New York. (August 18) Press Release
• Travelers from Hawaii, South Dakota and the U.S. Virgin Islands were added to the state quarantine list, Gov. Andrew Cuomo announced Tuesday. The overall number of states and U.S. territories subject to the quarantine has gone down with the removal of Rhode Island, Ohio, New Mexico and Alaska from what is now a 31-state and two-territory list. Washington state was also removed from the quarantine list. (August 11)

• Travelers from 34 states will need to self-quarantine for two weeks upon arriving in New York, New Jersey or Connecticut after Rhode Island was added to the tri-state list on Tuesday and Delaware was removed by the Governor. Washington, D.C., was also removed from the quarantine advisory on Tuesday after being added last week. Puerto Rico was added last week and remains subject to the order. The list of affected states and jurisdictions is updated weekly. (Aug. 4) See: Press Release

• Governor Cuomo on Tuesday, July 28 added Illinois, Kentucky, Minnesota were to the ever-growing list as Covid-19 infection rates continue to spike in much of the country, bringing the total number of affected states to 34. Washington, D.C. and Puerto Rico were also included.

• Gov. Andrew Cuomo on Tuesday, July 21 added 10 states and removed one from a list that requires travelers from those states to quarantine for 14 days after arriving in New York. The 10 states added to the list are Alaska, Delaware, Indiana, Maryland, Missouri, Montana, North Dakota, Nebraska, Virginia and Washington. The list now includes 31 states, after Minnesota was removed: Alaska, Alabama, Arkansas, Arizona, California, Delaware, Florida, Georgia, Iowa, Idaho, Indiana, Kansas, Louisiana, Maryland, Missouri, Mississippi, Montana, North Carolina, North Dakota, Nebraska, New Mexico, Nevada, Ohio, Oklahoma, South Carolina, Tennessee, Texas, Utah, Virginia, Washington and Wisconsin. See Press Release (July 21)

• On Wednesday, June 25, Governor Andrew M. Cuomo added Alabama, Arkansas, Arizona, Florida, North Carolina, South Carolina,
Washington, Utah and Texas, to the quarantine list. Anyone found out of compliance will be subject to a judicial order and a mandatory quarantine, Cuomo said. Fines can range from $2,000 to $10,000 depending on whether it is the first offense and if harm is caused. The advisory not only applies to out-of-state residents. Any New Yorker who leaves to visit those states would be subject to quarantine upon their return. The tri-state initiative will use uniform parameters and messaging on highways, airports, websites and social media across the three states. The three states will also ask hotels to communicate the 14-day quarantine to guests who have traveled from one of the impacted states. See: Press Release (June 25)

- Governor Andrew M. Cuomo announced that eight additional states meet the metrics to qualify for the travel advisory requiring individuals who have traveled to New York from those states, all of which have significant community spread, to quarantine for 14 days. The newly-added states are: California, Georgia, Iowa, Idaho, Louisiana, Mississippi, Nevada and Tennessee. The quarantine applies to any person arriving from a state with a positive test rate higher than 10 per 100,000 residents over a 7-day rolling average or a state with a 10% or higher positivity rate over a 7-day rolling average. (June 30)

- New York State added three additional states to the travel advisory: Delaware, Kansas and Oklahoma (July 7) See: Press Release

- On Tuesday, New York, New Jersey and Connecticut have added another four states to the list of places from which incoming visitors must quarantine for two weeks when they arrive in the tri-state region. The newly-added states are Minnesota, New Mexico, Ohio and Wisconsin. Delaware has been removed. See: Press Release (July 14)

- Governor Cuomo announced that the metrics of success in the state's fight against COVID-19 will change. Now, state officials will report on the percentage of people who test positive for the coronavirus.
Currently, about 1% of people are testing positive for the coronavirus across the state.

You can view the new state dashboard here.

- **State Metrics for Reopening by the region:** Guide for Reopening New York and NYForwardGuide
- **NYS Reopening Tracker - Regions and Counties:** Tracker Spreadsheet
- **New State early warning dashboard** that aggregates the state's expansive data collection efforts for New Yorkers, government officials and experts to monitor and review how the virus is being contained on an ongoing basis has been posted. It tracks new infections and their severity, hospital capacity by region, and other metrics. The early warning system dashboard was developed in consultation with internationally-known experts who have been advising New York State. The early warning dashboard can be found here.

  - The State has released a New York Forward Business Reopening Web Tool, which helps small businesses determine if they have met the criteria for reopening.
  
  - Employers must read their relevant industry guidance, complete this affirmation form to indicate compliance with guidelines, and develop a safety plan to be posted where employees can see it at the place of business.

- **Chief Judge Janet DiFiore Delivers OPENING Message on COVID-19 and the New York State Courts:** Opening Message and for a transcript of the Chief Judge’s message, please follow this link: www.nycourts.gov

  - In-person hearings for people with desk appearance tickets will resume across New York City on Sept. 8 along with bench trials in Manhattan and Queens Housing Court – and on Sept. 15, bench trials will resume in Bronx Housing Court, the Daily News reports.

- The governor announced that air conditioning filters with a Minimum Efficiency Reporting Value (MERV) rating capable of filtering COVID-19 particles or similar air exchange measures will be mandatory for large mall reopening. A COVID-19 particle is approximately 0.125 microns in diameter. Filters with a high MERV, such as High
Efficiency Particulate Air (HEPA) filters, have been shown to help reduce the presence of COVID-19 in air filtration systems. (June 29)

- **Regions in New York in phase four of reopening:** Central New York, the Finger Lakes, the Mohawk Valley, the North Country, Western New York, Capital District, the Southern Tier, Mid-Hudson, Long Island and New York City (with additional restrictions)
- **Phase 4 Guidance:** [Here](#) (Higher education, Professional sports without fans, Arts and entertainment—low risk, Film and TV production)
  - Will Permit Social Gatherings of 50 People and Indoor Religious Gatherings at 33 Percent Capacity
  - The Governor approved the reopening of indoor shopping malls outside New York City starting Friday, July 10 provided the establishments have installed new air filters that remove coronavirus particles from the air.
  - New York City reached phase 4 of reopening with some modifications to further restrict risk for community spread. Malls and museums will not reopen out of abundance of caution. No additional indoor activity will open due to concerns about spread of the virus. See: [AP News](#)
  - New York Forward guidance for **malls in New York City** has been posted on the New York City - Phase 4 website, which can be accessed at [here](#).
  - New York Forward guidance for personal **care** has been amended to permit services that require a customer to remove their face covering. The updated detailed guidance can be found at [here](#).

- **New York State Forward guidance for phase two** reopening can be found [here](#)

- **Health Care Institutions/Nursing Homes**
New York nursing homes that have gone 14 days without a coronavirus case can reopen for limited visitation, the state Department of Health announced, down from a 28-day threshold. Visitors are required to present a verified negative test result within the last seven days and nursing homes are required to adhere to other guidelines. See: Press Release

New York state health officials on September 9 updated visitation rules for pediatric nursing homes and adult care facilities. The new guidance allows for visitors at adult care facilities if they have been COVID-19 free for 14 days, reduced from 28 days. The revised guidance for pediatric nursing homes and adult care facilities still place limitations on the number and age of guests for patients and the facilities must have adequate staffing and screening protocols for staff and visitors. The updated guidance does not affect adult nursing homes.

The New York State Department of Financial Services has issued new guidance to New York health insurers to ensure that patients are not charged personal protective equipment fees by healthcare providers that participate in their insurer's network. DFS has received consumer complaints about healthcare providers, particularly dental providers, improperly charging their patients fees for PPE or other charges related to increased costs due to COVID-19, which fees are being passed to their insurers and go beyond the insured patient's applicable cost-sharing. See: Press Release and Circular Letter to Insurance Industry (August 5)

The New York State Department of Financial Services has issued new guidance to New York health insurers to ensure that patients are not charged personal protective equipment fees by healthcare providers that participate in their insurer's network. DFS has received consumer complaints about healthcare providers, particularly dental providers, improperly charging their patients fees for PPE or other charges related to increased costs due to...
COVID-19, which fees are being passed to their insurers and go beyond the insured patient’s applicable cost-sharing. See: Press Release and Circular Letter to Insurance Industry (August 5)

- The State Department of Financial Services has extended its emergency regulation requiring NY health insurers to waive out-of-pocket costs, including cost-sharing, deductibles, copays and coinsurance, for in-network mental health services for New York's frontline essential workers until November 27. See: Governor Transcript (Sept. 30)

- The state will begin allowing hospital visitations, but the visitors must wear masks, limit their time in the hospital and be subject to having their temperature taken as they enter. Visitations will be at the discretion of the hospital. Visitations to nursing homes remain suspended.

- **State Department of Health Commissioner Dr. Howard Zucker announced nursing homes and long term care facilities in New York will be allowed to resume limited visitations** for facilities that have been without COVID-19 for at least 28 days, a threshold set by the federal Centers for Medicare & Medicaid Services. Residents in these facilities will be allowed two visitors at a time, and the visitors must undergo temperature checks, wear face coverings and socially distance during the visit. At least one of the two visitors must be at least 18 years of age or older. For each facility, only 10 percent of the residents can be allowed visitors at any time; for example, in a 100-bed facility no more than 10 residents can have visitors per day in order to maintain proper social distancing and ensure safe compliance. Nursing Homes accepting visitors will be required to send their visitation plan to NYSDOH and affirmatively attest that they are following the guidance outlined here

- **The Health Commissioner also announced the resumption of on-site visitation for the state’s Long-Term Care Ombudsman program**, which provides additional support to residents of nursing homes and long-term care facilities, effective July 15, 2020. Ombudsman staff must utilize appropriate PPE for the duration of the visit, and must be screened as if they were a staff person of such nursing home, including
having to present a verified negative test result to the nursing home within the past week. See: Press Release

- The Department of Health will adjust the visitation policy as appropriate based on facts and data following this initial phase to ensure the health and safety of residents, staff and visitors. View State DOH guidance for resumption of limited visitation at nursing homes, adult care facilities and pediatric skilled nursing facilities.

- Reopening of Establishments
  - Scheduled
    - Movie theaters outside New York City and not within a COVID cluster zone can resume showings Oct. 23 at 25 percent capacity, with a maximum of 50 people per screen, according to the governor. See: Press Release
    - Ski resorts can reopen in New York beginning November 6, Gov. Andrew Cuomo announced on October 18. The resorts must operate at 50-percent capacity. Face masks will be required at all times except when eating and drinking. Ski lessons are limited to no more than 10 people. Gondolas and lifts will be limited to people in the same party. Capacity on mountains must be reduced by 25 percent during peak times. See: Press Release
    - Indoor malls in New York City are permitted to reopen starting September 9 with a 50 percent occupancy limit. All malls that choose to reopen will be subject to strict safety protocols, including strict enforcement of face coverings, social distancing, additional staff to control occupancy, traffic flow and seating to avoid crowding and enhanced cleaning and disinfection protocols. Malls must also have enhanced air filtration, ventilation and purification standards in place in order to open. See: Press Release
    - Gov. Cuomo announced on Sept. 3 that casinos and video lottery terminal facilities will be allowed to reopen starting September 9 with
a 25 percent occupancy limit. All venues that choose to reopen will be subject to strict safety protocols, including strict enforcement of face coverings except when eating or drinking, social distancing, additional staff to control occupancy, traffic flow and seating to avoid crowding, and enhanced cleaning and disinfection protocols. Casinos must also have enhanced air filtration, ventilation and purification standards in place in order to open. See: Press Release

- **Summer day camps** and child care may open statewide on June 29. See: State Guidance on how they should operate

- New York will allow **libraries** to open for curbside service in Phase 1 of a region’s reopening and allow limited in-person pickup in Phases 2/3. Libraries received guidance in recent days on how they can proceed with providing services to residents in their communities as regions reopen

- Governor Cuomo announced that **places of worship** will be permitted to reopen with 25% occupancy during Phase Two, accelerating plans to reopen.
  - Service goers will still have to maintain social distance.
  - The Governor announced that low-risk youth sports, with two spectators for each child, can resume starting July 6 in phase three of the opening process Press Release
  - All group homes certified by the Office for People with Developmental Disabilities can begin visitations on Friday, June 19 as long as they notify the state and follow state guidelines. (June 16)

- **Approved to reopen**
  - Lower-risk school sports (e.g. Tennis, Golf) are able to start on September 21 statewide but teams won’t be able to practice or play outside of their region until October 19. See: Press Release and Public Health Guidance
Bowling alleys throughout New York will be allowed to reopen starting Monday, August 17 with strict safety protocols. Bowling alleys will be able to operate at a 50 percent occupancy, and face coverings and social distancing will be required at all times. Every other lane must be closed and patrons need to stay with the party at their assigned lane. Additionally, thorough cleaning and disinfection of shared or rented equipment between each use will be required. Read more here.

Gyms and fitness centers in New York can open on Aug. 24, Gov. Andrew Cuomo announced on August 17. Facilities will be allowed to operate at 33 percent capacity and all occupants must be wearing masks during their workouts. The buildings must be equipped with MERV 13 filters for ventilation. Gyms must have a sign-in form to assist with contact-tracing efforts. See: Press Release

- Local elected officials may choose to delay the reopening of gyms and fitness centers until September 2 to, in part, provide time for required local health department inspections, and may also choose to delay the reopening of indoor fitness classes until a date beyond September 2.
- In New York City, the Mayor will determine whether gyms and fitness centers should postpone reopening. Outside of New York City, the county's chief executive - county executive, administrator, manager, or chair of the local elected legislative body - will determine whether gym reopening needs to be postponed.

- Dental Offices
- Veterinary Offices with limitations
- Landscaping and Gardening, Drive-In Theaters
- The Governor announced that outdoor, socially distanced graduation ceremonies will be allowed starting on June 26, the governor announced Sunday. No more than 150 people can take part in each ceremony, however – a condition that suggests that all but the smallest schools will
have to break up their festivities into multiple gatherings. See: Press Release (June 7)

- The Governor approved the reopening of indoor shopping malls outside New York City starting Friday, July 10 provided the establishments have installed new air filters that remove coronavirus particles from the air.
- Governors Island is reopening starting July 8 with early access ferry tickets are available for reservation. Seniors, young people (under 12), NYCHA residents and IDNYC cardholders ride free, instead of paying $3. Socially-distanced ferries will start running again next Wednesday (7/15) at 10 am, and Manhattan ferries will run daily from the Battery Maritime Building at 10 South Street.
- DMV Licensed Driving Schools are permitted to conduct distance-learning pre-license courses Press Release (July 29)

- Financial Assistance
  - Replacement of Food Purchased with SNAP Benefits Due to Power Outages - Extension: In response to a request by the city and state, the US Department of Agriculture’s Food and Nutrition Service (FNS) has granted an extension of the time period for submitting a request for replacement of food purchased with SNAP benefits that cannot be used because of the recent power outages. The 10-day time period from the date of outage has been extended as follows:
    - Reporting loss of food has been extended through the close of business on September 4, 2020.
    - Supporting documentation of the loss can be submitted through September 14, 2020. Proof of loss of food can be submitting using a form LDSS-2291 or a signed affidavit of loss. Any signed submission attesting to the loss will be accepted.
  - The Governor announced that more than $2.3 million has been awarded to support 61 businesses and residential landlords with COVID-19 related costs and expenses through the New York Forward
Loan Fund. Fifty-four of these loans were provided to minority- and women-owned businesses. Applications are still being accepted and businesses from qualifying industries, including agriculture, construction, food services, retail, education services, manufacturing and transportation, are encouraged to apply. Applications are available [here](#). See: Press Release

- **Workplace information**
  - The governor signed an executive order to extend the state’s moratorium on COVID-related **commercial evictions** and **mortgage foreclosure** until January 1, 2021. See: Press Release
  - The governor issued an executive order allowing commercial buildings to conduct temperature checks on people entering. Read the order [here](#).
  - The U.S. Centers for Disease Control has released [a new set of guidelines](#) for how the risk of coronavirus can be mitigated in the workplace. Temperature checks for employees, plastic shields between desks and wearing face coverings at all times are among the recommendations. The CDC also recommends employees drive to work by themselves.

- **Child Care**
  - Governor Andrew Cuomo announced that $65 million in federal CARES Act funding is available for child care providers statewide through the New York Forward Child Care Expansion Incentive program. The funding available includes:
    - $20 million to assist childcare program with reopening and expansion of capacity by providing materials to support a more socially distant model, and for supplies and activities associated with reopening and expansion. This may include partitions, short term rental of space, etc.
    - $45 million in childcare Reopening and Expansion Incentive funds to pay for 50% of the cost of a newly opened classroom (maximum grant amount of $6,000) as an incentivize to open the classroom. The
temporary funds will phase out over the second and third months as more parents bring their children back into childcare.

- To be eligible for reopening funds, child care programs must have either been closed as of June 15 and have a plan to reopen within two weeks of applying or currently operating below their licensed capacity and would like to expand. The grants will be pro-rated as programs reach capacity. Programs must submit a detailed plan for use of funds and must remain open at least through the end of the year.

- The maximum awards for the $20 million in Reopening and Restructuring Incentives depend on the size of the program and range from $300 to $1,600 one-time grants. Child care programs may apply to OCFS through July 15.

**Retail**

- New York City announced on October 28 the launch of the new Open Storefronts program — modeled on the city's popular outdoor dining initiative — which will allow 40,000 businesses to set up open air operations. De Blasio signed an executive order Wednesday to create the program, which will start Friday and go at least through Dec. 31. Shops can use outdoor space after filling out an online application. The city is hoping the outdoor stores will boost business during the holiday season, which many shops rely on for 70 percent of their sales. See: Press Release

**Restaurants**

- The Governor announced indoor dining in New York City will be allowed to resume beginning September 30th with a 25 percent occupancy limit. All restaurants that choose to reopen will be subject to strict
safety protocols, including temperature checks, contact information for tracing, face coverings when patrons are not seated, spaced seating and other protocols. Bar service will not be permitted, and restaurants will close at midnight. Guidelines will be reassessed based on the data by November 1. If the infection rate does not increase, restaurants may be permitted to increase to 50 percent capacity; the State will monitor any positivity increase on an ongoing basis and potentially reassess if necessary. Business guidance for indoor dining in New York City is available [here](#).

- **The City of New York will provide a team of 400 enforcement personnel to work with the State Police Task Force** to ensure compliance. Restaurants must publicly post their 25 percent indoor dining capacity and the phone number and text number to report violations. Patrons who observe violations can report issues by calling 833-208-4160, or by texting 'VIOLATION' to 855-904-5036.

  - The State Liquor Authority will be able to immediately suspend a liquor license if businesses do not enforce social distancing rules and be subject to an "immediate shutdown order."

  - Bars and restaurants will also be responsible for the areas outside their establishments, such as on the sidewalks.

  - **Governor Cuomo amended an Executive Order (EO) to provide updated guidance for food and beverage establishments effective immediately.** Under this EO, businesses selling or serving alcohol to be consumed at the business or elsewhere must ensure that everyone within 100 feet of their business is:

    - In compliance with open-container, social-distancing, and face-covering rules; and

      - Following all existing rules, regulations, and laws.
• Businesses that cannot follow these guidelines must stop selling alcohol until they can. Patrons can also be fined for breaking open container or social distancing rules.

• Violations could result in having a license suspended or revoked, with fines up to $10,000 per violation. See: Executive Order

• The State Liquor authority continues to suspend licenses of establishments in violation of public health regulations. See: Press Release (July 29) and additional activity Press Release (August 3)

  ‧ Governor Cuomo announced that bars and restaurants across the state will no longer provide walk-up bar service or serve alcohol to people who aren’t purchasing food. AP News (July 16). The governor announced a new “three strikes” policy that will require bars and restaurants to close after they receive three citations for failing to follow rules, including mask-wearing and keeping people 6 feet (2 meters) apart. See: Press Release

• Recreation
  o If college sports resume in the fall, no fans will be allowed. Just like with professional sports, college athletics can resume but no fans or spectators will be permitted at stadiums.
  o The Governor issued an Executive Order allowing low-risk, outdoor recreational activities and businesses providing such activities to open in regions that have met the public health and safety metrics required for phase one. (June 2)
    ‧ Includes tennis, golf and driving ranges (not miniature/mini golf) with food and retail services subject to the restrictions that are currently in effect within the region, and non-motorized boat use and rentals, such as row boats, kayaks, and canoes.
  o Governor Cuomo announced that decisions on the reopening of public pools and playgrounds would be at the discretion of local governments. (June 11)
- State outdoor pools across New York opened for swimming starting on the July 4 weekend under the standard operating schedule of the New York State Office of Parks, Recreation and Historic Preservation. See: Guidance
  - Visitors will be asked to sign-in with contact information to enable potential contact tracing measures.
  - Pool capacity will be limited to 50 percent to help maintain 6-feet of distance in the water between swimmers who are not members of the same household or family unit.
  - Lounge chairs, benches and picnic tables will be kept 10-feet apart from others.
  - Face coverings or masks must be worn at all times in interior building spaces, including partially enclosed or covered outdoor areas; and at times outside (except in the pool) if social distancing cannot or is unlikely to be maintained.
  - No group gatherings of 10 people or more will be allowed.
  - A listing of State parks with swimming pools can be found on the here

- According to the NYS Department of Health, concessions are permitted to reopen with restrictions at state ocean and lakefront beaches beginning Sunday, July 12th. This includes concessions at popular destinations such as Jones Beach, Robert Moses, Sunken Meadow, and Lake Welch in Harriman State Park. We made this decision based on facts and science, and in recognition that these concessions are largely outdoors and are similar to other businesses we have allowed to open with precautions as part of NY Forward. As always, New Yorkers and visitors must adhere to social distancing guidelines and wear face masks as appropriate, and local governments will be actively monitoring to ensure compliance.

- The Governor announced that low-risk youth sports, with two spectators for each child, can resume starting July 6 in regions in the phase three of the opening process Press Release (June 13)
  - Please see more detailed guidance which applies to non-professional, non-collegiate sports conducted by gyms/fitness centers and training facilities.
The U.S. Open will be held in Queens without fans from August 31st to September 13th. The USTA will take extraordinary precautions to protect players and staff, including robust testing, additional cleaning, extra locker room space and dedicated housing and transportation.

The 2020 MTV Video Music Awards to Be Held with Limited to No Audience at Barclays Center in Brooklyn on Sunday, August 30.

The New York State Office of Parks, Recreation and Historic Preservation (State Parks) marked the start of summer by launching a new, user-friendly mobile app for smart devices to provide visitors and prospective visitors useful information about the destinations and activities at the state’s parks and historic sites. Users can learn more about destinations with rotating curated content, and will enjoy quick access to park information, including directions, hours, amenities, fees and rates, trail maps, helpful know-before-you-go details, and the ability to receive important updates and alerts. Visitors can link directly to online camping reservations and easily access select State Parks’ social media channels.

The Governor announced that the U.S. Open Championship will be held at Winged Foot Golf Club in Mamaroneck from September 14th to September 20th without fans and spectators. The USGA will put protocols in place to protect players and staff, including rigorous protocols for testing, cleaning, use of face coverings and social distancing. (July 29)

FEDERAL INFORMATION

- The Centers for Disease Control and Prevention (CDC) has released several new resources to help prevent the spread of and treat COVID-19:
  - The CDC released a report on characteristics associated with adults remembering to wash hands in multiple situations before and during the COVID-19 pandemic. The report noted that less than 75 percent of survey respondents remember to wash their hands after sneezing or coughing, before
eating in a restaurant, and before eating at home. Men, young adults, and white adults are the least likely populations to remember to wash their hands.

- The CDC released a report on community mitigation measures to help slow the spread of COVID-19. In particular, the report examined actions taken by Arizona. When the state implemented and enforced measures such as mask wearing, case numbers stabilized and decreased.

- The CDC has identified several cases of multisystem inflammatory syndrome (MIS-C) in adults. MIS-C is a rare but severe complication of COVID-19, and more commonly reported in children and adolescents than adults.

- The CDC updated its guidance on people with certain underlying medical conditions who are at high risk for severe illness from COVID-19. This list now includes those who have obesity, are overweight, or smoke or have a history of smoking.

- The CDC noted that there is evidence that under certain conditions, people with COVID-19 may infect others who are more than six feet away. These transmissions occurred within enclosed spaces that had inadequate ventilation, especially if the infected person was breathing heavily (e.g., singing or exercising).

- The CDC issued an update for people with asthma, including recommendations to reduce a chance of an asthma attack while using a disinfectant to prevent COVID-19.

- The CDC updated its guidance on limiting workplace violence associated with COVID-19. The resource is intended for employers and employees in retail, services, and other customer-based businesses. It offers strategies to limit violence toward workers that may occur when businesses put into place policies and practices to help minimize the spread of COVID-19 among employees and customers.

- The CDC and the Centers for Medicare and Medicaid Services (CMS) announced that payments are available to health care providers for counseling patients at the time of COVID-19 testing about the importance of self-isolation after they are tested and prior to the onset of symptoms.
o Individuals with HIV may have questions or concerns regarding their risk of serious illness from COVID-19. The CDC answers some of those questions [here](#).

o Long-standing systemic health and social inequities have placed many individuals from racial and ethnic minority groups at increased risk of severe illness from COVID-19. Learn about some of the factors contributing to risk and what can be done [here](#).

o The CDC has several guidance and planning documents available for people with disabilities [here](#).

o If you are considering traveling to another country, you can review the CDC’s travel health notices [here](#).

o If you have or think you might have COVID-19, the CDC has information on [when it is safe to be around others](#). In particular, the CDC recommends limiting contact with other people until:
  - 10 days have passed since symptoms first appeared; and
  - 24 hours have passed with no fever and without the use of fever-reducing medications; and
  - COVID-19 symptoms have improved (e.g., cough, shortness of breath).

o If you are [returning to work](#), the CDC provides a list of factors to consider in preparation, including whether there are ways in which you can minimize the number of people with whom you interact.

o If you are considering using transportation, including public transit, rideshares and taxis, micro-mobility devices, and personal vehicles, the CDC has recommendations to reduce the risk of COVID-19.

o The CDC updated its [guidance on traveling during the COVID-19 PHE](#). If you are thinking about traveling, the CDC recommends that you consider factors such as whether
  - COVID-19 is spreading at your destination;
  - You or someone you live with might be more likely to get very ill from COVID-19; and
  - Your destination has requirements or restrictions for travelers.
If you are considering traveling abroad, you can find information on health threats in destinations around the world through the CDC’s Travel Health Notices (THNs). The CDC also has an interactive world map containing the agency’s COVID-19 travel recommendations by country.

The CDC also has information about returning from international travel, including what to do if you participated in activities that are considered higher risk.

- **Department of Health and Human Services (HHS)**
  - Beginning October 1, 2020, American hospitals can purchase remdesivir directly from the drug’s distributor. Remdesivir is an antiviral drug currently authorized for emergency use by healthcare providers to treat hospitalized adult and pediatric patients with suspected or laboratory-confirmed COVID-19.
  - The administration announced the national distribution plan for the BinaxNOW Ag Card rapid test to assist governors’ efforts to continue to safely reopen their states. BinaxNOW may be offered to K-12 teachers and students, higher education, critical infrastructure, first responders, and others. The BinaxNOW rapid test produces COVID-19 test results within 15 minutes.
  - HHS and the Department of Defense (DoD) announced agreements with Sanofi and GlaxoSmithKline to support advanced development, including clinical trials and large-scale manufacturing, of 100 million doses of a COVID-19 investigational adjuvanted vaccine. By funding the manufacturing effort, the federal government will own the doses that result from the demonstration project. The adjuvanted vaccine doses could be used in clinical trials or, if the U.S. Food and Drug Administration (FDA) authorizes use, as outlined in agency guidance, the doses would be distributed as part of a COVID-19 vaccination campaign.
HHS released a series of public service announcements (PSAs) and announced over $8 million in digital, radio, and out-of-home advertisements to support a broader effort imploring Americans to donate their plasma and help save lives. The PSA campaign seeks to dramatically increase donations of convalescent plasma by the end of August.

HHS, the Department of Energy (DOE), and the Department of Veterans Affairs (VA) announced the formation of the COVID-19 Insights Partnership, an initiative to coordinate and share health data as well as research and expertise regarding COVID-19. The COVID-19 Insights Partnership creates a framework for HHS and the VA to utilize DOE’s world-leading high-performance computing and artificial intelligence resources to conduct COVID-19 research and analyze health data that would otherwise not be possible.

HHS also released a new report showing a significant increase in utilization trends of telehealth services for primary care delivery in Fee-for-Service (FFS) Medicare in the early days of the COVID-19 pandemic. Providers in both rural and urban counties saw increases in telehealth adoption and utilization; however, providers in rural counties saw a smaller growth in telehealth visits as a proportion of all primary care visits in March and April, with a decrease again in May. By contrast, providers in urban counties saw greater telehealth use in March and April and smaller declines in May.

**Food and Drug Administration (FDA)**

On October 22, 2020, the FDA approved the first antiviral drug (remdesivir) for use in adult and pediatric patients 12 years of age and older for the treatment of COVID-19 requiring hospitalization. The drug was originally approved under an Emergency Use Authorization (EUA) on May 1, 2020.

The FDA regulates hand sanitizer as an over-the-counter drug available without a prescription. The agency has discovered serious safety concerns with some hand sanitizers during recent testing, including:
- Contamination with potentially toxic types of alcohol
- Not enough active ingredient (ethyl alcohol or isopropyl alcohol)
- Labels with false, misleading, or unproven claims

Some hand sanitizers have been recalled and there are more than 150 hand sanitizers the FDA recommends you stop using right away. Before you buy hand sanitizer or use hand sanitizer you have at home, the FDA recommends checking our do-not-use list at www.fda.gov/handsanitizerlist.

The FDA has issued an emergency use authorization for the first antigen test where results can be read directly from the testing card, a similar design to some pregnancy tests. This simple design is fast and efficient for healthcare providers and patients and does not need the use of an analyzer.

The FDA issued a letter to health care providers and facilities alerting them of the potential that passive protective barriers (those without negative pressure) pose an increased health risk to patients and providers when treating patients who are known or suspected to have COVID-19.

FDA issued an emergency use authorization for investigational convalescent plasma for the treatment of COVID-19 in hospitalized patients. Based on scientific evidence available, the FDA concluded, as outlined in its decision memorandum, this product may be effective in treating COVID-19 and that the known and potential benefits of the product outweigh the known and potential risks of the product.

The FDA updated its “Food Safety and the Coronavirus Disease” webpage by adding information on what U.S. exporters of FDA-regulated food products need to consider related to COVID-19. The FDA states that, at this time, there is no evidence of transmission of the COVID-19 virus through food or food packaging, and the FDA does not anticipate that foods will need to be recalled or withdrawn from the market because of COVID-19.

The FDA also posted frequently asked questions for patients and consumers about antibody (serology) testing during the COVID-19 PHE. It
explains what antibodies are, that the test cannot be used to diagnose COVID-19, that a positive result means that a person likely recently or previously had COVID-19, and that a positive result does not necessarily mean that someone is immune to COVID-19, among other information.

- The FDA issued a warning letter to Eskbiochem S.A. de C.V., regarding the distribution of products labeled as manufactured at its facilities with undeclared methanol, misleading claims (e.g., incorrectly stating that the FDA approved the products), and improper manufacturing practices.
- Researchers are testing an experimental drug, a monoclonal antibody, to address the surge of nursing home COVID-19 updates. Read more here.
- The FDA granted emergency use authorization to a coronavirus antigen test that gives results in about 12 minutes. Read more here.

**US Small Business Administration**

- On October 8, 2020, the U.S. Small Business Administration, in consultation with the Treasury Department, released a simpler loan forgiveness application for Paycheck Protection Program (PPP) loans of $50,000 or less. This action streamlines the PPP forgiveness process to provide financial and administrative relief to America’s smallest businesses while also ensuring sound stewardship of taxpayer dollars. Instructions for completing the simpler loan forgiveness application (here) Interim Final Rule on the simpler forgiveness process for loans of $50,000 or less (here)

**CMS**

- On October 15, 2020, CMS announced new actions to pay for expedited COVID-19 test results. Starting January 1, 2021, Medicare will pay $100 only to laboratories that complete high throughput COVID-19 diagnostic tests within two calendar days of the specimen being collected. Also, effective January 1, 2021, Medicare will pay a rate of $75 for laboratories that take longer than two days to complete these tests. CMS is working to ensure that
patients who test positive for the virus are alerted quickly so they can self-isolate and receive medical treatment.

- CMS **expanded** the list of telehealth services that Medicare Fee-For-Service will pay for during the COVID-19 PHE. CMS is also providing additional support to state Medicaid and Children’s Health Insurance Program (CHIP) agencies in their efforts to expand access to telehealth.
