### Office for Student Research and Creativity
**Awards and Scholarship Opportunities**

**Deadline March 16**

The Office for Student Research and Creativity (OSRC) is offering 2020 opportunities for faculty and students alike!

In 2020, the OSRC will award two Outstanding Scholarly Mentoring Awards to recognize faculty members who have provided exceptional student mentoring by engaging undergraduates in scholarly research or creative work. The awards will be distributed as follows: **One award will be given to a faculty member from the Psychology or Sciences disciplines; and one award will be given to a faculty member from other academic departments.**

_for more information about OSRC Awards please see page 29._

---

**Proposal Submissions:**

**Easy as 1-2-3 Weeks!**
**Thinking about submitting a proposal?**

**Our Office is here to help!**
Please contact us as soon as you find a grant opportunity for which you want to apply. Please notify Sponsored Programs of your intent to apply at least three weeks in advance of the deadline.

You may contact us at 212-237-8448 or sponsoredprograms@jjay.cuny.edu.
RFCUNY Enhances its Proposal Peer Review Service

The Office of Award Pre-Proposal Support (APPS) at the Research Foundation of CUNY (RFCUNY) provides a Proposal Peer Review service to the University’s grantseeking community. This is an opportunity for CUNY faculty to receive constructive feedback on the competitiveness of their external grant proposals from colleagues in their own academic field. Reviewers are recruited from inside the CUNY community, across the nation, and worldwide.

This initiative first launched as a limited pilot in 2016 and accommodated all NSF and some NIH grants. Now, APPS is excited to announce that Proposal Peer Review has been upgraded and expanded, and welcomes proposals from all different academic disciplines, for all different funder types. This new service particularly emphasizes support for developing grants to all NSF programs, all NIH programs, and all Department of Education (DoE) programs that make awards to individual faculty. But federal agencies are not the only focus—applications to private foundations, corporations, and state/local government programs are also encouraged. In addition, the new Proposal Peer Review features a more streamlined, user-friendly interface with fewer steps to quickly submit your proposal or provide reviewer critiques.

Visit [https://cunyproposalreview.fluidreview.com/](https://cunyproposalreview.fluidreview.com/) to submit your grant proposal for peer feedback, or to sign up as a reviewer. If you previously participated in this initiative (prior to 4/15/19) you’ll need to kindly re-register. If you have any questions or concerns, please reach out to [apps@rfcuny.org](mailto:apps@rfcuny.org).

John Jay College’s Office for the Advancement of Research also offers a Proposal Pre-Review program: [http://www.jjay.cuny.edu/oar-funding-opportunities#proposal_pre_review](http://www.jjay.cuny.edu/oar-funding-opportunities#proposal_pre_review).

Quantitative Research Consulting at the CUNY Graduate Center

The Quantitative Research Consulting Center (QRCC) ([https://www.gc.cuny.edu/About-the-GC/Provosts-Office/QRCC/index](https://www.gc.cuny.edu/About-the-GC/Provosts-Office/QRCC/index)) provides members of the Graduate Center community (Faculty, MA and PhD Students, Post-docs) from any program greater resources for statistical support in quantitative and empirical research. The QRCC provides support for researchers at any stage of research in four main areas: (1) project/research planning, (2) statistical data analysis, (3) statistical software programming, and (4) statistical interpreting, writing, and reporting.

The QRCC will be kicking off the fall semester with the following quantitative research consultation slots:

- **Tuesdays** (75 minute slots): 12 PM, 1:30 PM, and 4 PM
- **Wednesdays** (45 minute slots): 11 AM and 12 PM
- **Office Hours**: Wednesdays 1 PM - 3 PM

You can view their calendar at [https://goo.gl/PGVpZD](https://goo.gl/PGVpZD) to look for available time slots. If a time is available on the calendar, nothing is listed for that slot. In order to make an appointment, please email them at [QRCC@gc.cuny.edu](mailto:QRCC@gc.cuny.edu).
E- Onboarding for RF Employees is Here!

Trainings on the E-Onboarding system will be held on Friday, 2/28/2020 via Go To Meeting Webinar. Please see the Events page (pg.4) for detailed times and be on the look out for emails regarding trainings and the E-Onboarding process.

The system is designed to make all hire paperwork electronic for submission. This includes New Hires and Rehires with a break in service of 120 days or more. The overall hire process will remain the same. Please see the revised Hire Process below for RF employees effective 2/28/2020.

1. PI/Preparer contacts OSP at least 2 weeks prior to the employee’s start date with employee’s name, date of birth, email address, account number and expected start date.
   - OSP will send an email to PI/Preparer and employee with steps on completing hire process and link to the onboarding system (RF user ID & Password will be required).
   - OSP will send I-9 invitation to employee (if a NEW I-9 is required) to complete BEFORE or ON their start date. OSP will still have 3 days after the indicated start date to I-9/E-verify the employee. Yes, OSP will need to see the employee in person with their original, unexpired documents if a NEW I-9 is required.

2. PI/Preparer initiates onboarding via RF website. All information that would have been required to be completed in paper form will now be completed electronically, including signatures.
   - PI/Preparer submits hire packet and it is sent to the employee for their portion to be completed.
   - PI ensures that employee contacts OSP to be I-9’d & E-verified if they have not done so already.
   - Employee receives an email with their RF employee ID and a temporary password to access the system and complete their portion of the paperwork.
   - Employee submits Hire packet to RF HR for processing.

3. RF HR reviews the hire packet and approves.
   - The e-paf is automatically created and submitted to the RF Project Administrator for approval.
   - Once the e-paf has been approved, timesheets will be available in the Time and Leave System for submission and approval according to the RF Payroll Calendar.

If you have any questions, please contact Cherryanne Ward at 212-621-3718 or cward@jjay.cuny.edu.
SAVE THE DATE!

E-Onboarding Training for PI’s/Authorized Signatories & E-PAF Preparers

**February 28, 2020**
10:30 am – 12:00 pm,
12:30 pm – 2:00 pm, or
2:30 pm – 4:00 pm

All trainings will be held via Go To Meeting so you can attend from the comfort of your desk, laptop or phone. Please be on the look-out for emails from our Office and/or the Research Foundation for information on the upcoming training sessions. If you are responsible for RF hires in your department and do not have PI/Authorized Signatory or E-PAF Preparer access, please contact Cherryanne Ward at 212-621-3718 or cward@jjay.cuny.edu.

Please note it is important that you attend this training as the E-Onboarding system will go live as of 2/28/2020 and paper hire/re-hire packets will no longer be accepted. You will still need to contact the Office of Sponsored Programs before starting the e-onboarding hiring process (see page 3 for the revised process).

---

RFCUNY E-PAF and E-Timesheet Orientation

The Research Foundation of CUNY Offers this training which **John Jay College requires** for its PIs, Authorized Signatories and Timekeepers.

Learn how to access RF web-based E-PAF and Time and Leave systems for processing employee appointments and creating/submitting timesheets

Training sessions will be held at
The Research Foundation of CUNY,
230 West 41st Street, 7th Floor, on:

- **Monday, March 23, 2020**
  - 2:00 pm to 4:00 pm
- **Monday, April 6, 2020**
  - 2:00 pm to 4:00 pm
- **Monday, May 4, 2020**
  - 2:00 pm to 4:00 pm

Anyone responsible for approving RF timesheets and/or PAFs or with timekeeping responsibilities will benefit from this training. If you have not already completed this training, please do so ASAP.

To enroll, please send an email to Sacheen_McWatt@rfcuny.org to register.

Future sessions will be scheduled on a monthly or as needed basis.

**WWW.RFCUNY.ORG**
Events

Responsible Conduct of Research (RCR) Workshop Spring 2020

The Office of Research’s Annual RCR Workshop for postdocs and graduate students will be held on
Thursday, March 12, 2020
9:30am - 12:00pm
CUNY Graduate Center

Interested individuals may register at https://www.surveymonkey.com/r/QLCSY5R.
Registration and a light breakfast will begin at 8:30AM.
Please note: This training is required for all CUNY post-docs.

Book Talks: Every year the Office for the Advancement of Research sponsors several book talks by our various faculty members as well as external authors. The book talks draw in students, faculty, and staff of John Jay as well as members of the community.

Dr. David Brotherton
Immigration Policy in the Age of Punishment

Wednesday, February 19, 2020
4:30 – 5:45 pm
Moot Court—6.68NB

Dr. Verónica Michel
Prosecutorial Accountability and Victims’ Rights in Latin America

Thursday, March 19, 2020
4:30 – 5:45 pm
Moot Court—6.68NB

All are welcome. RSVP: oar@jjay.cuny.edu
Have you completed REQUIRED training in **Responsible Conduct of Research**?

**WHO:** All CUNY faculty, staff, postdoctoral scholars, graduate students and undergraduate students involved in research are required to complete training in Responsible Conduct of Research (RCR).

**WHAT:** Responsible Conduct of Research training covers topic such as:

- Research misconduct
- Mentor/trainee responsibilities
- Peer review
- Publication practices
- Responsible authorship
- Data management
- Data sharing and ownership
- Conflict of interest and commitment
- Collaborative science
- Protection of human subjects
- Animal welfare and biosafety
- Export control

**WHEN/WHERE:**

**All researchers** must complete online RCR training at [www.citiprogram.org](http://www.citiprogram.org). The initial online training is good for four years. More info: [https://www.cuny.edu/research/research-compliance/training-education/citi-training/](https://www.cuny.edu/research/research-compliance/training-education/citi-training/)

**Postdoctoral scholars** must also complete in-person training within 12 months of completing the online training. CUNY’s Office of Research offers a half-day RCR training workshop once each academic year.

---

**The Office of Research’s Annual RCR Workshop** for postdocs and graduate students will be held on **Thursday, March 12, 2020** from **9:30am - 12:00pm** at the CUNY Graduate Center.

Register here: [https://www.surveymonkey.com/r/QLCSY5R](https://www.surveymonkey.com/r/QLCSY5R)

Registration and a light breakfast will begin at 8:30AM.

---

Additional training is provided for the John Jay community at the request of researchers and faculty, or as scheduled by the Office for the Advancement of Research.

**WHY:** RCR covers norms, principles, regulations and rules governing the practice of research, and is increasingly viewed as an essential component of training. RCR training is required by CUNY policy. The National Science Foundation (NSF) expects institutions to be able to verify that students and postdoctoral researchers who receive NSF funds will obtain RCR training. The National Institutes of Health (NIH) requires that all trainees, fellows, participants, and scholars receiving support through any NIH training, career development award, research education grant, and dissertation research grant must receive instruction in responsible conduct of research.

For questions, guidance and training requests, contact:
Lynda Mules, MLA, CIP, Director of Research Compliance and Integrity, [lmules@jjay.cuny.edu](mailto:lmules@jjay.cuny.edu)/212-237-8914

The Office for the Advancement of Research (OAR) oversees research compliance activities and provides education, training and support on Responsible Conduct of Research, the Human Research Protection Program, Conflict of Interest, Research Agreements and Export Control. [http://www.jjay.cuny.edu/research-compliance](http://www.jjay.cuny.edu/research-compliance)
Dr. Marie-Helen Maras, Associate Professor, Department of Security, Fire, and Emergency Management

Dr. Marie-Helen Maras is an Associate Professor in the Department of Security, Fire, and Emergency Management. She holds a DPhil in Law and an MPhil and MSc in Criminology and Criminal Justice from the University of Oxford, as well as graduate and undergraduate degrees from the University of New Haven and UMUC. Her academic background and research cover cyberlaw, transnational crime (e.g., cybercrime and trafficking in persons and drugs), transnational security issues (e.g., war, disinformation, and terrorism), cybersecurity, and cybercrime investigations (including Clearnet and Darknet). Dr. Maras is the author of numerous peer-reviewed academic journal articles and books, the most recent of which is Cybercriminology, published by Oxford University Press. She is currently working on books on Cyberlaw and Cyberliberties, Transnational Crime, and Human Trafficking Today (the latter two books focus on the evolution of these crimes and the facilitation of these crimes by the Internet and digital technology), as well as other projects with Oxford University Press. Dr. Maras and her co-Principal Investigators Dr. Jana Arsovska (Associate Professor, Sociology) and Adam Scott Wandt (Assistant Professor, Public Management) were recently awarded a $598,637 grant by the National Institute of Justice to conduct research on one form of transnational crime facilitated by the Internet and digital technology – namely, fentanyl trafficking.

Fentanyl and its illicit analogues (hereafter fentanyl) play a prominent role in the American opioid epidemic. Fentanyl’s widespread availability as well as its potency explains the high death toll associated with its use. The sheer size of the Internet makes it easy for fentanyl listings and buyers and sellers of fentanyl to hide in plain sight. Additionally, illicit Darknet sites have lowered the barriers for entry into the fentanyl trade by making it easier for buyers and sellers to participate in the drug trade. Darknet drug markets involving fentanyl are in a constant state of flux. The rate of this change often exceeds current law enforcement capabilities to keep up with these changes – at least without the aid of research and technology. To fill this need, the Principal Investigators, along with research associates, Dr. Melanie Knieps and Kenji Logie, are conducting research on Darknet fentanyl drug markets titled “Detecting Fentanyl and Major Players in Darknet Drug Markets by Analyzing Drug Networks and Developing a Threat Assessment Tool.”

Using a mixed methods approach, this research project will identify and map the structure of Darknet fentanyl drug markets and interactions between buyers and sellers of fentanyl (and its analogues), as well as assess the power and trustworthiness of sellers within these markets. Following the identification, mapping, and assessment of Darknet fentanyl drug markets and networks, a Darknet threat assessment tool will be developed. This tool will proactively identify the structure of and interactions within Darknet fentanyl drug networks, and the power and trustworthiness of sellers within these markets. The ultimate aim of the tool is to assess the credibility and seriousness of the threat posed by Darknet fentanyl sellers to public health and safety.

Dr. Arsovska is an expert in the areas of Organized Crime, Human Trafficking, Drug trafficking, Corruption, and Balkan criminality. Mr. Wandt’s primary research interests include technology law and policy, information security, surveillance technologies, academic technology, social engineering, and UCR crime data.
Interested in these or any other funding opportunities?

Contact the Office of Sponsored Programs (OSP) early in your proposal development—ideally at least three weeks before the application is due. There are lots of details to discuss and review, such as:

- Budget and allowable costs
- Space usage on campus
- Cost sharing restrictions
- Institutional letters of support
- Research compliance (i.e. Human Subjects and/or Animal Research, Responsible Conduct of Research, Conflict of Interest)
- …And much more!

National Institute of Justice — Funding Opportunities

Research into Immigration and Crime

**Deadline:** April 1, 2020

**Description:** With this solicitation, NIJ seeks proposals for research projects that increase the understanding of the relationship between immigration — both legal and illegal — and crime. Applicants should propose research projects that have clear implications for criminal justice policy and practice in the United States. NIJ encourages applicants to submit proposals for innovative approaches to advance the field’s rigor and methodology in understanding the relationship between immigration and crime.

**Amount:** Up to $2 million to be awarded under this solicitation.

**Link:** [https://nij.ojp.gov/funding/opportunities/nij-2020-17310](https://nij.ojp.gov/funding/opportunities/nij-2020-17310)

Research and Evaluation of Domestic Terrorism Prevention

**Deadline:** April 1, 2020

**Description:** This solicitation seeks to build knowledge and evidence related to strategies for effective prevention of terrorism in the United States. Applicants should propose research projects that will primarily benefit — and have clear implications for — criminal justice agencies and their attendant communities at the state, local, and tribal levels. NIJ is particularly interested in research responding to the following areas:

1. Evaluations of programs and practices to prevent terrorism
2. Research to inform terrorism prevention efforts
3. Research on the reintegration of offenders to the community

Funded projects will apply an approach that engages researchers and practitioners in an active partnership to develop more effective solutions to specific problems, and to produce lessons and strategies that may be adapted to help other localities with similar problems.

**Amount:** Up to $5 million to be awarded under this solicitation.

**Link:** [https://nij.ojp.gov/funding/opportunities/nij-2020-17311](https://nij.ojp.gov/funding/opportunities/nij-2020-17311)
Research and Evaluation of Technology-Facilitated Abuse for Criminal Justice Purposes

Deadline: April 8, 2020

Description: With this solicitation, NIJ seeks proposals for research projects addressing the use of technologies such as texting, mobile applications, telecommunication networks, and social networking to bully, harass, stalk, or intimidate another person — including adolescents. Examples of technology-facilitated abuse include cyberstalking, sextortion, non-consensual pornography, doxing, or swatting. NIJ will support scientifically rigorous research projects that will advance understanding of these types of crime; and effective approaches for identifying, preventing, investigating, and prosecuting them. This solicitation supports the U.S. Department of Justice’s strategic goals associated with reducing crime, supporting prosecutors, and reducing victimization.

Amount: Up to $2 million to be awarded under this solicitation.

Link: https://nij.ojp.gov/funding/opportunities/nij-2020-17309

Research and Evaluation on Violence Against Women

Deadline: April 13, 2020

Description: NIJ strives to support objective and independent knowledge and validated tools to reduce violence against women (VAW) (including violence against American Indian and Alaska Native women and girls), promote justice for victims of crime, and enhance criminal justice responses. For that reason, this solicitation seeks applications for grant funding to conduct research and evaluation projects examining a broad range of topics, including the crimes of homicide, intimate partner and dating violence, rape and sexual assault, stalking, and trafficking; along with the associated criminal justice system response, procedures, and policies.

This solicitation supports DOJ Strategic Objective 3.1: Combat violent crime, promote safe communities, and uphold the rights of victims of crime.

This year, NIJ is particularly interested in research responding to the following two priority areas:

   1. Evaluation research on VAW programs.
   2. VAW research.

Amount: $2.5 million to be awarded under this solicitation.

Link: https://nij.ojp.gov/funding/opportunities/nij-2020-17331
Research and Evaluation on Policing

Deadline: April 13, 2020

Description: With this solicitation, NIJ seeks applications for funding for investigator-initiated, randomized controlled trial (RCT) studies of approaches to the challenges of policing in the United States that address the strategic priorities and objectives identified in NIJ’s Policing Strategic Research Plan, 2017-2022. On the title page of the application’s program narrative, applicants are required to identify the specific strategic priority and relevant objective(s) that their proposal addresses. Applications that do not address the priorities and objectives of NIJ’s Policing Strategic Research Plan 2017-2022 will not be considered for funding. Among other areas of interest, NIJ is interested in RCT studies examining the approaches that address the challenges of policing in rural communities.

This solicitation supports the U.S. Department of Justice priorities of reducing crime, and protecting and supporting law enforcement.

Amount: Up to $3 million to be awarded under this solicitation.

Link: [https://nij.ojp.gov/funding/opportunities/nij-2020-17297](https://nij.ojp.gov/funding/opportunities/nij-2020-17297)

NIJ—Graduate Research Fellowship (GRF) Program

Deadline: April 15, 2020

Description: The GRF program provides grants to accredited academic institutions to support outstanding doctoral students whose dissertation research is relevant to criminal justice.

NIJ is seeking applications for funding innovative doctoral dissertation research that is relevant to preventing and controlling crime, and ensuring the fair and impartial administration of criminal justice in the United States. This program furthers the Department’s mission by increasing the pool of researchers who are engaged in providing science-based solutions to problems relevant to criminal and juvenile justice policy and practice in the United States. This integrates into a single solicitation for two previously separate fellowship solicitations in Science, Technology, Engineering, and Mathematics, and Social and Behavior Sciences.

Applicant academic institutions are eligible to apply only if:

1. The student is currently enrolled in a Ph.D. program in the sciences or engineering; and
2. The student’s proposed dissertation research has demonstrable relevance to preventing and controlling crime, and/or ensuring the fair and impartial administration of criminal justice, in the United States.

Amount: Up to $3 million to be awarded under this solicitation. Each fellowship provides up to 3 years of support usable within a 5-year period. For each year of support, NIJ provides the degree-granting institution $35,000 for Salary and Fringe, up to $12,000 in Cost of Education Allowance, and up to $3,000 in Research Expenses.

Link: [https://nij.ojp.gov/funding/fellowships/graduate-research-fellowship-program](https://nij.ojp.gov/funding/fellowships/graduate-research-fellowship-program)
National Institute of Justice —Funding Opportunities (Cont’d)

Research and Evaluation on Drugs and Crime

**Deadline:** April 20, 2020

**Description:** NIJ’s Drugs and Crime Research Program supports rigorous applied research on evidence-based tools, protocols, and policies for state, tribal, and local law enforcement and other criminal justice agencies that address drug trafficking, drug markets, and drug-related violence. The program furthers DOJ’s mission to combat opioid and other drug abuse, support prosecutors in their efforts, and reduce violent and other drug-related crime. Research projects promote cost-efficient law enforcement, court, and corrections responses to illegal drug markets (including diversion of licit drugs). The focus of this research solicitation is narcotics-related criminal investigation, prosecution, drug intelligence, and community surveillance relevant to law enforcement and/or medicolegal death investigation. DOJ has identified the FY 2020 solicitation drug priorities as methamphetamine and other stimulants, including diverted pharmaceuticals, illicit drugs, and their analogues.

**Amount:** NIJ anticipates funding approximately 5 grants for research on multiple priorities, each ranging from $250,000 to $1 million. Total amount anticipated to be awarded under this solicitation is $3 million.

**Link:** [https://nij.ojp.gov/funding/opportunities/nij-2020-17275](https://nij.ojp.gov/funding/opportunities/nij-2020-17275)

Research and Evaluation on Trafficking in Persons

**Deadline:** April 20, 2020

**Description:** With this solicitation, NIJ continues to build upon its research and evaluation efforts to better understand, prevent, and respond to trafficking in persons in the United States. Applicants should propose research projects that — first and foremost — have clear implications for criminal justice policy and practice in the United States.

NIJ is interested in research projects addressing both sex and labor trafficking. NIJ is particularly interested in research responding to the following priority areas:
1. Labor trafficking research;
2. Demand reduction research;
3. Research to identify the health and wellness effects of trafficking victimization; and
4. Profiling recruitment tactics.

**Amount:** Up to $2.5 million to be awarded under this solicitation.

**Link:** [https://nij.ojp.gov/funding/opportunities/nij-2020-17324](https://nij.ojp.gov/funding/opportunities/nij-2020-17324)
National Institute of Justice —Funding Opportunities (Cont’d)

NIJ—Research and Evaluation on Promising Reentry Initiatives

**Deadline:** May 5, 2020

**Description:** With this solicitation, NIJ requests proposals for rigorous research to examine reentry initiatives that incorporate promising practices, strategies, or programs. NIJ is interested in supporting evaluations of innovative reentry initiatives that focus on offenders with a moderate-to-high-risk of reoffending. This solicitation supports DOJ Strategic Objective 3.1: Combat violent crime, promote safe communities, and uphold the rights of victims of crime.

The primary goal of this solicitation is to support the rigorous examination of innovative reentry initiatives, including those in rural communities. NIJ is particularly interested in proposals addressing reentry initiatives (either a program or plan) that begin in institutional settings and continue through release. NIJ will give preference in award decisions to proposals for evaluations of an innovative reentry initiative, across multiple sites, using randomized controlled trials (RCTs).

**Amount:** $6 million to be awarded under this solicitation.

**Link:** [https://nij.ojp.gov/funding/opportunities/nij-2020-17295](https://nij.ojp.gov/funding/opportunities/nij-2020-17295)

Office of Juvenile Justice and Delinquency Prevention — Funding Opportunities

National Gang Center

**Deadline:** March 23, 2020

**Description:** OJJDP will award a cooperative agreement to continue the activities of the National Gang Center (NGC), which provides training and technical assistance to OJP-funded programs and communities across the country to address the issues of youth gun and gang violence. NGC tracks current research and trends on gangs and maintains a database of comprehensive information on the development and implementation of effective gang prevention, intervention, and suppression strategies. Find more information at [www.nationalgangcenter.gov](http://www.nationalgangcenter.gov).

**Amount:** OJJDP will make a maximum of 1 award, estimated amount up to $850,000.

**Link:** [https://ojjdp.ojp.gov/funding/opportunities/ojjdp-2020-16991](https://ojjdp.ojp.gov/funding/opportunities/ojjdp-2020-16991)

Missing and Exploited Children Training and Technical Assistance Program

**Deadline:** March 23, 2020

**Description:** Through this program, OJJDP seeks to improve and expand the development and implementation of training and technical assistance on effective responses to missing and exploited children’s issues for multidisciplinary teams of prosecutors, state and local law enforcement, child protection personnel, medical providers, and other child-serving professionals. Additionally, this program will provide support for the implementation of all National Missing Children’s Day activities.

**Amount:** OJJDP will make a maximum of 1 award, estimated amount up to $1,800,000.

**Link:** [https://ojjdp.ojp.gov/funding/opportunities/ojjdp-2020-17351](https://ojjdp.ojp.gov/funding/opportunities/ojjdp-2020-17351)
<table>
<thead>
<tr>
<th>National Institutes of Health—Funding Opportunities</th>

</thead>
<tbody>
<tr>
<td><strong>NIH Research Project Grant (Parent R01)</strong></td>
</tr>
</tbody>
</table>
| **Deadlines:**  
  *For New applications:* June 5, October 5  
  *For Renewal, Resubmission, or Revision applications:* March 5, July 5, November 5  
  *For AIDS and AIDS-related applications:* May 7, September 7, January 7 |
| **Description:** The NIH Research Project Grant supports a discrete, specified, circumscribed project in scientific areas that represent the investigators’ specific interests and competencies and that fall within the mission of the participating NIH Institutes and Centers (ICs). The R01 is the original, and historically the oldest, grant mechanism used by the NIH to support health-related research and development. |
| There are three companion opportunities to this Parent Announcement:  
  NIH Research Project Grant (Parent R01 Basic Experimental Studies with Humans Required) **PA-19-091**  
  Research Project Grant (Parent R01 Clinical Trial Required) **PA-19-055**  
  Research Project Grant (Parent R01 Clinical Trial Not Allowed) **PA-19-056** |
| **Amount:** Application budgets are not limited but need to reflect the actual needs of the proposed project. The maximum project period is 5 years. |
| **Links:**  
| **NIH—Nutrition and Alcohol-Related Health Outcomes (R01)** |
| **Deadline:** June 5, 2020 |
| **Description:** This Funding Opportunity Announcement (FOA) encourages applications that propose to examine associations between nutrition and alcohol-related health outcomes in humans and animal models. The goal of this program announcement is to stimulate a broad range of research on the role of nutrition in the development, prevention, and treatment of a variety of alcohol-related health outcomes including alcohol use disorder and chronic disease. |
| **Amount:** The number of awards is contingent upon NIH appropriations and the submission of a sufficient number of meritorious applications. |
| **Link:** [https://grants.nih.gov/grants/guide/pa-files/PA-17-211.html](https://grants.nih.gov/grants/guide/pa-files/PA-17-211.html) |
| **NIH—International Research Collaboration on Drug Abuse and Addiction Research (R01)** |
| **Deadline:** June 5, 2020 |
| **Description:** This Funding Opportunity Announcement (FOA) invites applications for international collaborative research on drug abuse and drug addiction. Newly formed or well-established research teams consisting of investigators from U.S.-based institutions and researchers in other countries may propose state-of-the-science research that takes advantage of unique research opportunities in other countries, speeds scientific discovery, and advances U.S. health science. |
| **Amount:** Application budgets are not limited but need to reflect the actual needs of the proposed project. |
NIH—Support of Competitive Research (SCORE) (SC1/SC2/SC3)

**Deadline:** May 25, 2020; January 25, 2021; May 25, 2021; January 25, 2022; May 25, 2022

*(AIDS Application Due Dates: May 7, 2020; September 7, 2020; May 7, 2021; September 7, 2021; May 7, 2022 and September 7, 2022)*

**Description:** To achieve its mission of improving health, the National Institutes of Health must recruit and train outstanding individuals for the biomedical workforce. Underrepresentation of certain groups, e.g., from certain racial and ethnic groups, women, individuals with disabilities and individuals from disadvantaged backgrounds in science, technology and engineering fields increases throughout the training stages and it is more pronounced in the biomedical research workforce. In addition, it is particularly difficult for individuals from underrepresented groups to achieve success as PDs/PIs on NIH research grants (Ginther et al, 2012). A more recent analysis of NIH data showed that award probabilities are correlated with NIH-funding rank of the applicant’s institution and are a reflection of the infrastructure advantages enjoyed by the most research intensive institutions (ACD WGD). Therefore, there is a continued need to broaden opportunities for faculty research career enhancement at under-resourced institutions, including those that train and serve underrepresented groups in order to improve their research competitiveness and productivity, capitalize on their innovative ideas and distinct perspectives, enhance the diversity of the biomedical research workforce, and foster their long-term involvement in NIH-funded research and the research enterprise of the nation.

The SCORE program provides research capacity building support to under-resourced institutions with limited NIH R01 funding that have explicitly stated historical missions or track records within the previous 10 years focused on training and graduating students from backgrounds nationally underrepresented in biomedical research with B.S./B.A., M.S. or Ph.D. degrees in biomedically-related sciences. These institutions include those that have: 1) an explicitly stated historical mission or a demonstrated historical track record in educating students from underrepresented groups in biomedical research including underrepresented racial and ethnic groups (i.e., African Americans, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians and other natives of U.S. Pacific Islands), 2) an explicitly stated historical mission or a demonstrated historical track record of training and graduating substantial numbers of undergraduate students from financially disadvantaged backgrounds, and 3) an explicit mission or a demonstrated historical track record in educating students with disabilities.

The SCORE program offers opportunities for faculty research career enhancement, which are expected to increase their research competitiveness and productivity and enable their transition to non-SCORE support.

The SCORE program offers three distinct support mechanisms for individual investigator-initiated biomedical or behavioral research projects of different scope and for different program director/principal investigators (PD/PIs) developmental levels:

- **Research Advancement Award (SC1)** is for investigators with a track record of research activity who are seeking to enhance their research productivity in order to transition to non-SCORE support in a limited period of time.
  - **Budgets** may not exceed $250,000 direct costs/year. The maximum period of support is 4 years.

- **Pilot Project Award (SC2)** is for those who are at the beginning stages of a research career, applying for their first independent award, and who are interested in testing a new idea, or generating preliminary data.
  - **Budgets** may not exceed $100,000 direct costs/year. The maximum period of support is 3 years.

- **Research Continuance Award (SC3)** is for those investigators who have been engaged in scholarly research and published, and who seek to continue to conduct competitive research of limited scope to increase their publications and eventually transition to non-SCORE support.
  - **Budgets** may not exceed $75,000 direct costs/year. The maximum period of support is 4 years.
**Academic Research Enhancement Award for Undergraduate-Focused Institutions (AREA) – R15**

**Deadlines:** June 25, October 25

**Description:** NIH is continuing to make a special effort to stimulate research at educational institutions that provide baccalaureate and/or advanced degrees for a significant number of the Nation's research scientists, but that have not been major recipients of NIH support. AREA funds are intended to support new and renewal biomedical research projects proposed by faculty members of eligible institutions (see Part 2. Section III.1). The three objectives of this FOA are: (1) provide support for meritorious research at undergraduate-focused institutions or institutional components; (2) strengthen the research environment at these institutions/components; and (3) give undergraduate students an opportunity to gain significant biomedical research experience through active involvement in the research. For the purpose of this announcement, an undergraduate-focused institution/component is one in which the undergraduate enrollment is greater than the graduate enrollment.

The AREA program will enable qualified scientists to receive support for small-scale research projects. It is anticipated that investigators supported under the AREA program will benefit from the opportunity to conduct independent research; that the grantee institution will benefit from a research environment strengthened through AREA grants; and that students at recipient institutions will benefit from exposure to and participation in scientific research in the biomedical sciences so that they consider careers in biomedical research. This AREA FOA emphasizes the engagement and inclusion of undergraduates in research. The research project must involve undergraduate students and the research team must be composed primarily of undergraduate students. The AREA program is a research grant program, not a training or fellowship program, and, as such, applications should not include training plans such as didactic training or non-research activities relating to professional development. In all cases, the majority of students conducting research through the award must be undergraduates. Since diversity strengthens the research environment, AREA projects are encouraged to include students from diverse backgrounds, including those from groups underrepresented in the biomedical research workforce.

**Amount:** Applicants may request up to $300,000 in direct costs for the entire project period of up to 3 years. The maximum project period is 3 years.

**Links:**
**National Institutes of Health—Funding Opportunities (Cont’d)**

**NIH—Support for Conferences and Scientific Meetings**  
*(Parent R13)*

**Deadline:** April 12, 2020

**Description:** This opportunity supports high quality scientific conferences that are relevant to the NIH’s mission and to the public health. A conference is defined as a symposium, seminar, workshop, or any other organized and formal meeting, whether conducted face-to-face or via the internet, where individuals assemble (or meet virtually) for the primary purpose to exchange technical information and views or explore or clarify a defined subject, problem, or area of knowledge, whether or not a published report results from such meeting. The NIH recognizes the value to members of the research community and all other interested parties in supporting such forums.

A critical part of the application for NIH conference support is the documentation of appropriate representation of individuals from nationally underrepresented groups in the planning and implementation of, and participation in, the proposed conference. This includes selection of organizing committee members, speakers, and other invited participants, such as session chairs and panel discussants as well as general attendance. Underrepresented groups include individuals from nationally underrepresented racial and ethnic groups, individuals with disabilities, individuals from disadvantaged backgrounds, and women. "Appropriate representation" can be determined by reviewing the availability of scientists from nationally underrepresented groups known to be working in a particular field of biomedical or behavioral research to the anticipated geographic conference area. If the application does not reflect appropriate representation, no award will be issued until program staff members are assured of concerted, effective recruitment and outreach efforts.

**Amount:** Application budgets are not limited but need to reflect the actual needs of the proposed project. The appropriate NIH Conference Grant Contact should be consulted for guidance regarding any IC-specific budget limitations.

---

**National Endowment for the Humanities – Funding Opportunities**

**NEH—Awards for Faculty at Hispanic-Serving Institutions**

**Deadline:** April 8, 2020

**Description:** This program supports individual faculty or staff members at Hispanic-Serving Institutions pursuing research of value to humanities scholars, students, or general audiences. Awards are designed to be flexible, allowing applicants to define the audience, type of research, award periods, and administrative arrangements that best fit their projects.

Awards can be used for a wide range of projects that are based on humanities research. Eligible projects include pursuing research in primary and secondary materials and producing articles, monographs, books, digital materials, archaeological site reports, translations, editions, or other scholarly resources; conducting basic research leading to the improvement of an existing undergraduate course; or conducting basic research related to the goals and interests of the institution or community. Common to all applications—regardless of their outcome—must be humanities research supporting the goals of the project.

**Amount:** The maximum award is $60,000; $5,000 per month for 12 months of full-time work or the equivalent (for example, twenty-four months of half time work)

**Link:** [https://www.neh.gov/grants/research/awards-faculty-hispanic-serving-institutions](https://www.neh.gov/grants/research/awards-faculty-hispanic-serving-institutions) (updated guidelines will be available in early 2020)
### National Endowment for the Humanities – Funding Opportunities (Cont’d)

#### NEH—Summer Seminars and Institutes

**Deadline:** February 25, 2020

**Description:** NEH Summer Seminars and Institutes grants broaden and deepen understanding of the humanities in supporting professional development programs, specifically designed for a national audience of K-12 educators or college and university faculty. The programs provide one- to four-week opportunities for participants (NEH Summer Scholars) to explore a variety of topics relevant to K-12 or undergraduate education in the humanities.

NEH Summer Seminars and Institutes
- focus on the study and teaching of significant texts and other resources;
- provide models of excellent scholarship and teaching;
- contribute to the intellectual growth of the participants; and
- build lasting communities of inquiry.

An NEH Summer Seminar or Institute may be hosted by a college, university, learned society, center for advanced study, library or other repository, cultural or professional organization, or school or school system. The host site must provide facilities for collegial interaction and scholarship. The program must be held only in the United States and its territories.

**Amount:** Seminars: $125,000; Institutes: $200,000

**Link:** [https://www.neh.gov/grants/education/summer-seminars-and-institutes-higher-education-faculty](https://www.neh.gov/grants/education/summer-seminars-and-institutes-higher-education-faculty)

### National Science Foundation – Funding Opportunities

#### NSF—Developmental Sciences (DS)

**Deadline:** July 15, 2020 (July 15, annually thereafter); January 15, 2021 (January 15, annually thereafter)

**Description:** DS supports basic research that increases our understanding of cognitive, linguistic, social, cultural, and biological processes related to human development across the lifespan. Research supported by this program will add to our knowledge of the underlying developmental processes that support social, cognitive, and behavioral functioning, thereby illuminating ways for individuals to live productive lives as members of society.

DS supports research that addresses developmental processes within the domains of cognitive, social, emotional, and motor development across the lifespan by working with any appropriate populations for the topics of interest including infants, children, adolescents, adults, and non-human animals. The program also supports research investigating factors that affect developmental change including family, peers, school, community, culture, media, physical, genetic, and epigenetic influences. Additional priorities include research that: incorporates multidisciplinary, multi-method, microgenetic, and longitudinal approaches; develops new methods, models, and theories for studying development; includes participants from a range of ethnicities, socioeconomic backgrounds, and cultures; and integrates different processes (e.g., memory, emotion, perception, cognition), levels of analysis (e.g., behavioral, social, neural), and time scales.

**Amount:** A typical project funded through the DS program is approximately 3 years in duration with a total cost, including both direct and indirect costs, between $100,000 and $200,000 per year.

### NSF—Social Psychology

**Deadline:** July 15, 2020 (July 15, annually thereafter); January 15, 2021 (January 15, annually thereafter)

**Description:** The Social Psychology Program at NSF supports basic research on human social behavior, including cultural differences and development over the life span. Among the many research topics supported are: attitude formation and change, social cognition, personality processes, interpersonal relations and group processes, the self, emotion, social comparison and social influence, and the psychophysiological and neurophysiological bases of social behavior.

The scientific merit of a proposal depends on four important factors: (1) The problems investigated must be theoretically grounded. (2) The research should be based on empirical observation or be subject to empirical validation. (3) The research design must be appropriate to the questions asked. (4) The proposed research must advance basic understanding of social behavior.

**Amount:** Award amounts vary based on the scope of the proposed projects.

**Link:** [https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5712](https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5712)

### NSF—Faculty Early Career Development Program (CAREER)

Includes the description of NSF Presidential Early Career Awards for Scientists and Engineers (PECASE)

**Deadline:** July 27, 2020, Fourth Monday in July, Annually Thereafter

**Description:** The CAREER Program is a Foundation-wide activity that offers the National Science Foundation's most prestigious awards in support of early-career faculty who have the potential to serve as academic role models in research and education and to lead advances in the mission of their department or organization. Activities pursued by early-career faculty (i.e. Assistant Professors) should build a firm foundation for a lifetime of leadership in integrating education and research. NSF encourages submission of CAREER proposals from early-career faculty at all CAREER-eligible organizations and especially encourages women, members of underrepresented minority groups, and persons with disabilities to apply.

All CAREER proposals should describe an integrated path that will lead to a successful career as an outstanding researcher and educator. NSF recognizes that there is no single approach to an integrated research and education plan, but encourages all applicants to think creatively about the reciprocal relationship between the proposed research and education activities and how they may inform each other in their career development as both outstanding researchers and educators. These plans should reflect the proposer's own disciplinary and educational interests and goals, as well as the needs and context of his or her organization. Because there may be different expectations within different disciplinary fields and/or different organizations, a wide range of research and education activities may be appropriate for the CAREER program.

**Amount:** Awards, including indirect costs, are expected to total a minimum of $400,000 for the 5-year duration, with the following exceptions: Awards for proposals to the Directorate for Biological Sciences (BIO), the Directorate for Engineering (ENG), or the Office of Polar Programs (OPP) are expected to total a minimum of $500,000 for the 5-year duration.

**Link:** [https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=503214](https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=503214)
NSF—CyberCorps® Scholarship for Service (SFS)

**Deadline:** July 31, 2020

**Description:** Cyberspace has transformed the daily lives of people. Society’s overwhelming reliance on cyberspace, however, has exposed its fragility and vulnerabilities: corporations, agencies, national infrastructure and individuals continue to suffer cyber-attacks. Achieving a truly secure cyberspace requires addressing both challenging scientific and engineering problems involving many components of a system, and vulnerabilities that stem from human behaviors and choices. Examining the fundamentals of security and privacy as a multidisciplinary subject can lead to fundamentally new ways to design, build and operate cyber systems, protect existing infrastructure, and motivate and educate individuals about cybersecurity.

The goals of the CyberCorps®: Scholarship for Service (SFS) program are aligned with the U.S. National Cyber Strategy to develop a superior cybersecurity workforce. The SFS program provides funds to institutions of higher education for student scholarships in support of education in areas relevant to cybersecurity. Each scholarship recipient, as a condition of receiving a scholarship under the SFS program, enters into an agreement under which the recipient, upon receipt of academic degree, agrees to work for a period equal to the duration of the scholarship in the cybersecurity mission of an executive agency.

**Amount:** Award amounts vary based on the number of student participants.

**Link:** [https://nsf.gov/funding/pgm_summ.jsp?pims_id=504991](https://nsf.gov/funding/pgm_summ.jsp?pims_id=504991)

---

NSF—Law & Science (LS)
Formerly Law & Social Sciences

**Deadline:** August 3, 2020 (August 1 annually thereafter); January 15, 2021 (January 15 annually thereafter)

**Description:** The Law & Science Program considers proposals that address social scientific studies of law and law-like systems of rules. The Program is inherently interdisciplinary and multi-methodological. Successful proposals describe research that advances scientific theory and understanding of the connections between human behavior and law, legal institutions, or legal processes; or the interactions of law and basic sciences, including biology, computer and information sciences, STEM education, engineering, geosciences, and math and physical sciences. Scientific studies of law often approach law as dynamic, interacting with multiple arenas, and with the participation of multiple actors. Fields of study include many disciplines, and often address problems including, though not limited to:

2. Cyberspace
3. Economic Issues
4. Environmental Science
5. Evidentiary Issues

**Amount:** Award amounts vary based on the scope of the proposed project.

**Link:** [https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505704&org=NSF&sel_org=SBE&from=fund](https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505704&org=NSF&sel_org=SBE&from=fund)
# National Science Foundation – Funding Opportunities (Cont’d)

## NSF—Perception, Action & Cognition (PAC)

**Deadline:** August 3, 2020 (August 1, annually thereafter); February 1, 2021 (February 1 annually thereafter)

**Description:** The PAC program funds theoretically motivated research on a wide-range of topic areas related to typical human behavior with particular focus on perceptual, motor, and cognitive processes and their interactions. Central research topics for consideration by the program include (but are not limited to) vision, audition, haptics, attention, memory, written and spoken language, spatial cognition, motor control, categorization, reasoning, and concept formation. Of particular interest are emerging areas, such as the interaction of sleep or emotion with cognitive or perceptual processes, epigenetics of cognition, computational models of cognition, and cross-modal and multimodal processing. The program welcomes a wide range of perspectives, such as individual differences, symbolic and neural-inspired computation, ecological approaches, genetics and epigenetics, nonlinear dynamics and complex systems, and a variety of methodologies spanning the range of experimentation and modeling. The PAC program is open to co-review of proposals submitted to other programs both within the Social, Behavioral, and Economic Sciences Directorate and across other directorates.

**Amount:** Award amounts vary based on the scope of the project.

**Link:** [https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5686&org=NSF&sel_org=SBE&from=fund](https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5686&org=NSF&sel_org=SBE&from=fund)

## NSF—Sociology

**Deadline:** August 17, 2020 (August 15 annually thereafter); January 15, 2021 (January 15 annually thereafter)

**Description:** The Sociology Program supports basic research on all forms of human social organization -- societies, institutions, groups and demography -- and processes of individual and institutional change. The Program encourages theoretically focused empirical investigations aimed at improving the explanation of fundamental social processes. Included is research on organizations and organizational behavior, population dynamics, social movements, social groups, labor force participation, stratification and mobility, family, social networks, socialization, gender, race and the sociology of science and technology. The Program supports both original data collections and secondary data analysis that use the full range of quantitative and qualitative methodological tools. Theoretically grounded projects that offer methodological innovations and improvements for data collection and analysis are also welcomed.

The Sociology Program also funds doctoral dissertation research to defray direct costs associated with conducting research, for example, dataset acquisition, additional statistical or methodological training, meeting with scholars associated with original datasets, and fieldwork away from the student's home campus. See the [Sociology Program Doctoral Dissertation Improvement Awards Solicitation](https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5369&org=NSF&sel_org=SBE&from=fund) for more information on this opportunity.

**Amount:** Varies across disciplinary research programs

**Link:** [https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5369&org=NSF&sel_org=SBE&from=fund](https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5369&org=NSF&sel_org=SBE&from=fund)
# National Science Foundation – Funding Opportunities (Cont’d)

## NSF—Economics

**Deadline:** August 18, 2020 (August 18 annually thereafter); January 21, 2021 (January 18 annually thereafter);

**Description:** The Economics program supports research designed to improve the understanding of the processes and institutions of the U.S. economy and of the world system of which it is a part. This program also strengthens both empirical and theoretical economic analysis as well as the methods for rigorous research on economic behavior. It supports research in almost every area of economics, including econometrics, economic history, environmental economics, finance, industrial organization, international economics, labor economics, macroeconomics, mathematical economics, and public finance.

The Economics program welcomes proposals for individual or multi-investigator research projects, doctoral dissertation improvement awards, conferences, symposia, experimental research, data collection and dissemination, computer equipment and other instrumentation, and research experience for undergraduates. The program places a high priority on interdisciplinary research. Investigators are encouraged to submit proposals of joint interest to the Economics Program and other NSF programs and NSF initiative areas. The program places a high priority on broadening participation and encourages proposals from junior faculty, women, other underrepresented minorities, Research Undergraduate Institutions, and EPSCoR states. The program also funds conferences and interdisciplinary research that strengthens links among economics and the other social and behavioral sciences as well as mathematics and statistics.

**Amount:** Varies across disciplinary research programs.

## NSF—Research Experiences for Undergraduates (REU)

**Deadline:** August 26, 2020 (Fourth Wednesday in August, Annually Thereafter)

**Description:** The Research Experiences for Undergraduates (REU) program supports active research participation by undergraduate students in any of the areas of research funded by the National Science Foundation. REU projects involve students in meaningful ways in ongoing research programs or in research projects specifically designed for the REU program. This solicitation features two mechanisms for support of student research: (1) REU Sites are based on independent proposals to initiate and conduct projects that engage a number of students in research. REU Sites may be based in a single discipline or academic department or may offer interdisciplinary or multi-department research opportunities with a coherent intellectual theme. Proposals with an international dimension are welcome. (2) REU Supplements may be included as a component of proposals for new or renewal NSF grants or cooperative agreements or may be requested for ongoing NSF-funded research projects.

Undergraduate student participants in either REU Sites or REU Supplements must be U.S. citizens, U.S. nationals, or permanent residents of the United States.

**Amount:** Three years is the typical duration for REU Site awards in most NSF directorates; however, a duration of up to five years may be allowed in some cases. The typical REU Site hosts 8-10 students per year. The typical funding amount is $70,000-$120,000 per year, although NSF does not dictate a firm upper (or lower) limit for the amount, which depends on the number of students hosted and the number of weeks.

**Link:** [https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5517](https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5517)
Current Funding Opportunities from Various Sponsors

**The Spencer Foundation—Small Research Grants**

**Deadlines:** March 3, July 1

**Description:** The Small Research Grants Program supports education research projects that will contribute to the improvement of education, broadly conceived, with budgets up to $50,000 for projects ranging from one to five years.

This program is “field-initiated” in that proposal submissions are not in response to a specific request for a particular research topic, discipline, design, method, or location. The goal for this program is to support rigorous, intellectually ambitious and technically sound research that is relevant to the most pressing questions and compelling opportunities in education.

**Amount:** Up to $50,000.

**Link:** [http://www.spencer.org/small-research-grants](http://www.spencer.org/small-research-grants)

---

**National Collaborative on Gun Violence Research - Second Request for Proposals**

**Deadline:** LOIs are due by 8:00 p.m. EST on February 4, 2020. Full proposals will be invited and are due approximately 30 days after applicants are notified. Questions related to this RFP due 8pm EST Jan 23, 2020.

**Description:** The mission of the National Collaborative on Gun Violence Research (NCGVR) is to fund and disseminate nonpartisan scientific research that offers the public and policymakers a factual basis for developing fair and effective gun policies. NCGVR seeks to fund research that will produce scientific knowledge that can be used to save lives and reduce injuries due to gun violence while minimizing harms to gun owners and other stakeholders. The NCGVR Research Advisory Committee has drawn on research priorities suggested from testimony it received from multiple organizations and in the findings of earlier studies of where critical gaps in knowledge exist and in the many suggestions offered to the committee by gun policy researchers. **Priority Research Categories:** For this RFP, NCGVR will fund two categories of studies:

1. Descriptive or basic research studies (improve our understanding of the characteristics of various aspects of firearm violence. Under this category, five main areas of interest are prioritized: urban gun violence, domestic gun violence, mass shootings, gun suicides, and officer-involved shootings)

2. Applied or policy research studies. (will inform effective interventions or strategies for reducing gun violence, including interventions that are implemented by or involve the community, law enforcement, schools or other service system organizations. This category also involves the analysis of existing and potential gun regulations at the local, state, and federal levels; evaluation of organizational policies, such as police use of force policies or training standards; and other types of policy analysis.)

**Amount:** NCGVR expects to issue up to $9.5 million (including $1.5 million set aside for Missouri-relevant research) to fund 10 to 25 research grant awards, 6+ dissertation awards, and 2+ postdoctoral fellowship awards. Dissertation awards are $25,000. Postdoctoral research fellowship awards are $50,000.

**Link:** [https://www.ncgvr.org/content/dam/ncgvr/rfp/NCGVR_RFP_2020.pdf](https://www.ncgvr.org/content/dam/ncgvr/rfp/NCGVR_RFP_2020.pdf)
**The Dr. Scholl Foundation**

**Deadline:** March 1, October 1

**Description:** The Dr. Scholl Foundation was established by William M. Scholl, M.D. in 1947, almost 40 years after he founded the foot care company. It is a private, independent grant-making foundation for charitable purposes.

Applications for grants are considered in the following areas:
- Education
- Social Service
- Healthcare
- Civic and Cultural
- Environmental

The categories above are not intended to limit the interest of the Foundation from considering other worthwhile projects. In general, the Foundation guidelines are broad to give flexibility in providing grants. The majority of grants are made in the U.S. However, the Foundation recognizes the need for a global outlook. Non-U.S. grants are given to organizations where directors have knowledge of the grantee.

**Amount:** On average, grants range from $5,000 to $25,000

**Link:** [https://www.drschollfoundation.com/](https://www.drschollfoundation.com/)

---

**Tinker Foundation Incorporated**

**Institutional Grants**

**Deadline:** Letters of Inquiry will be accepted January 13, 2020 to January 31, 2020 for the March 18 full proposal deadline. (Full proposals will be due March 18.)

**Description:** The Foundation's Institutional Grants program has the goal of creating the conditions for the development of effective policy changes that improve the lives of Latin Americans. The Foundation's funding is directed to three program areas in which focused, expert research and innovation have the potential to make significant, positive impact. Click on the links below to learn more about grants in each program area.

- [Democratic Governance](#)
- [Education](#)
- [Sustainable Resource Management](#)

Successful proposals have a strong public policy component, offer innovative solutions to problems facing these regions, and incorporate new mechanisms for addressing these programmatic areas. Activities may include, but are not restricted to, research projects, workshops, and conferences related to the Foundation's areas of interest. The Foundation encourages collaboration among organizations in the United States and Latin America and prefers to fund institutions that are actively engaged with a broad array of stakeholders impacted by the identified challenge. Funding for general support may be considered on a limited basis.

Henry Luce Foundation—Higher Education Program

Deadline: Letters of inquiry can be submitted at any time through the Foundation’s online portal. Should you have questions in advance of completing the Letter of Inquiry, you may e-mail them to Mr. Sean Buffington, Program Director for Higher Education at buffington@hluce.org.

Description: The Higher Education Program welcomes excellent, innovative proposals from colleges and universities and the organizations that support them. The program encourages inquiries from institutions that are less well-resourced and/or that serve disadvantaged or marginalized communities.

- Higher education program grants have several characteristics:
  - They support projects in the humanities and qualitative social sciences. (There is one exception: projects that seek to support women or to increase the number of women in certain STEM fields are also eligible.)
  - They support projects aimed at faculty and doctoral students; in general, projects aimed primarily at undergraduates will not be supported.
  - They support team-based projects or institutional initiatives rather than purely individual research projects; such projects or initiatives will seek to have broader impact—on a field or on the sector.
  - The projects they support will not only produce new knowledge but will also model new approaches to the production, dissemination and application of knowledge.

Grants awarded to colleges and universities through the Higher Education Program should focus on at least one of the particular strategies described below:

- Encouraging new approaches to the dissemination of research outside of the academy—including to the general public or to particular communities of interest, like policymakers or practitioners
- Facilitating collaboration, dialogue, or another kind of exchange or partnership between scholars and practitioners or policymakers
- Facilitating and nurturing trans-disciplinary and trans-national research and training, especially across institutional boundaries and barriers of various kinds
- Supporting innovation in doctoral education, especially in ways that empower graduate students and equip them to thrive personally and professionally in the more challenging contemporary context
- Supporting women in the professoriate and administration, especially in the physical sciences, engineering, and mathematics
- Supporting dialogue and collaboration between US and non-US institutions about higher education goals and strategies

Links: https://www.hluce.org/programs/higher-education/ (you can read more about the Foundation’s other programs at https://www.hluce.org/programs/).
Current Funding Opportunities from Various Sponsors (Cont’d)

**Oak Foundation—Grants**

**Deadline:** Letters of inquiry are accepted at anytime.

**Description:** We fund a variety of time-bound projects, core costs, technical assistance and collaborative activities. Each program has its own funding criteria, geographic scope and requirements. While each program has its own areas of focus, as a whole, we adhere to seven funding principles. These include funding initiatives that:

- target root causes of problems
- are replicable either within a sector or across geographical locations
- include plans for long-term sustainability
- strive to collaborate with like-minded organizations
- demonstrate good financial and organizational management
- value the participation of people (including children) and communities and
- have secured co-funding.

**Amount:** $25,000

---

**The Nathan Cummings Foundation**

**Deadline:** Letter of inquiries are accepted on a rolling basis and are reviewed by NCF staff within 60 days.

**Description:** In order to address inequality, the Foundation will invest in work with strong potential to create pathways to economic opportunity, particularly for women and people of color, and that takes seriously the need to: improve quality of life for the poor; move toward greater equality of opportunity, meaning that where someone is born on the income distribution would not limit their chances to move up; and challenge structures and ideas that allow a vastly disproportionate share of the nation’s wealth to be concentrated in the hands of a few.

The Foundation will address climate change as a consequence of progress in human development and economic prosperity, and will fund promising work that helps activate American ingenuity in pursuit of three interrelated goals: increasing access to modern energy for the world’s poor; stabilizing greenhouse gas concentrations in the atmosphere at a low level; and improving resilience for those most vulnerable to the negative consequences of climate variability and change.

**Amount:** Award amounts vary based on the scope of the proposed project.

**Link:** [http://ncf.org/how-apply](http://ncf.org/how-apply)
**Alfred P. Sloan Foundation—Major Program Areas Grants**

**Deadline:** Letters of inquiry are accepted at anytime.

**Description:** The Alfred P. Sloan Foundation makes grants in nine broad subject matters, known within the Foundation as major program areas. (1) **Sloan Research Fellowships** - Annual awards to 126 of the most promising early-career scholars in eight scientific and technical fields. (2) **STEM Research** - Grants to support original, high-quality research in the natural sciences, engineering, and mathematics. (3) **STEM Higher Education** - Grants to improve the quality and diversity of higher education in science, technology, engineering and mathematics. (4) **Public Understanding of Science, Technology, & Economics** - Grants to expand the public understanding of science and technology through the use of books, radio, film, television, theater, and new media. (5) **Digital Information Technology** - Grants to advance the creation, dissemination, and democratization of access to knowledge through the use of new developments in digital information technology. (6) **Economics** - Grants to support original, high quality research and programs to enhance U.S. economic performance and the quality of American life. (7) **Energy and Environment** - Grants to advance our understanding of the economic, environmental, security, and policy trade-offs associated with the increased deployment of low- and no-carbon resources and technologies and the resulting impacts on the quality of American life. (8) **Select Issues** - Grants that support unique opportunities or projects that advance a significant interest related to the Foundation’s mission but not directly covered by other Foundation grant making programs. (9) **Civic Initiatives** - Grants for projects that benefit the New York City metropolitan area in ways consonant with the Foundation’s mission.

**Amount:** Award sizes vary by program area.

---

**CUNY/RFCUNY—Funding Opportunities**

**Faculty Travel for Grant Development**

**Deadline:** FY2020 applications will be accepted after July 1, 2019.

**Description:** The Faculty Travel for Grant Development program financially supports CUNY researchers and scholars pursuing new grant proposals that require out-of-town travel. All travel for grant development should pertain to meetings with proposal collaborators and/or representatives of external funders, such as federal agency officers or private foundation program officers. Applicants should provide evidence that an idea intended for grant funding is fully thought-out and ready for advanced planning and discussion.

Applicants must also justify in-person travel as key to grant proposal development. Consider what could be accomplished through in-person meetings that cannot be achieved through a phone call or video conference. This program does not support attendance at conferences, workshops, or presentation engagements unrelated to grant development purposes.

This program is not designed to fund the totality of travel expenses, but rather, to assist by defraying a significant portion of the costs. Recipients are also expected to explore and utilize other mechanisms to fund their trips. Eligibility is limited to tenured and tenure-track faculty or full-time researchers. Applicants are eligible for one award in a given fiscal year period.

**Amount:** Recipients will be reimbursed up to a maximum of $750.

**Link:** [https://www.rfcuny.org/RFWebsite/principal-investigators/explore-pre-award-resources/travel-grants-for-research/](https://www.rfcuny.org/RFWebsite/principal-investigators/explore-pre-award-resources/travel-grants-for-research/)
Interdisciplinary Climate Crisis Research Grant

**Deadline:** February 24, 2020

**Description:** With vast expertise in a variety of research areas, strong ties to city and state agencies, and integration into every neighborhood in NYC, CUNY is poised to be the world leader for effective climate solutions for urban and coastal environments and to grow New York’s green economy. CUNY is investing a half million dollars toward this initiative.

Our best course of action for addressing the global climate crisis is through discoveries and innovations revealed by interdisciplinary collaborations. Global climate change has far reaching impacts that span every size organism and every ecological niche, in more ways than by elevating water levels and greenhouse gases in the atmosphere. Approaches to address our rapidly changing climate include mitigation and adaptation strategies, including human behavioral elements that address the complex domino effects of climate change on the environment and on health, water quality, agriculture and food production, economies, technology needs, housing, and more. Understanding and addressing the myriad impacts of climate change requires experts from different disciplines coming together to understand and address the issue from multiple angles.

This RFP encompasses the Interdisciplinary Research Grant program (IRG) and leverages additional funds to focus on the climate crisis. For this RFP, applications must combine expertise across disciplines (e.g., computer science, art, environmental science, public health, natural sciences, social and behavioral sciences, humanities), and should be geared toward providing a pathway to NEW external funding. This pathway should be clearly laid out in applications. There should be at least two investigators—the lead PI and at least one Co-PI must be from different disciplines (ideally from different CUNY institutions).

**Funding will support any of the following activities:**
- establishing new or expanded interdisciplinary research collaborations
- developing and convening interdisciplinary conferences or symposia
- funding the purchase of equipment or instrumentation necessary to conduct interdisciplinary research

**Amount:** CUNY is investing a half million dollars toward this initiative (from the Office of Research, the ASRC, and the PowerBridge NY program). Because of the spending requirements associated with these different funding sources, there will be four types of award

**Stefan Bernard Baumrin Travel Awards for Associate Professors (CUNY Academy)**

**Deadline:** March 15, 2020

**Description/Amount:** The CUNY Academy Stefan Bernard Baumrin [SBB] Travel Awards for Associate Professors was established in 2016, and provides grants of up to $500 to full-time CUNY Associate Professors. Award amounts range from $100 to $500 depending on distance traveled. This award is for presenting, chairing or moderating at a scholarly conference that takes place between July 1, 2019 and June 30, 2020.

**Link:** [https://cunyacademy.ws.gc.cuny.edu/awards/stefan-bernard-baumrin-awards/](https://cunyacademy.ws.gc.cuny.edu/awards/stefan-bernard-baumrin-awards/)
### CUNY/RFCUNY—Funding Opportunities (Cont’d)

#### The CUNY Academy Adjunct Faculty Travel Awards for National & International Conferences

**Deadline:** March 15, 2020

**Description/Amount:** The CUNY Adjunct Faculty Travel Award is for CUNY Adjunct Professors at any CUNY college, attending a scholarly conference to present, perform, chair or moderate. The Travel Award is any amount up to $500 maximum. Determination is heavily based on fund availability and relative distance traveled in comparison to all travelers, as such amount awarded to awardees may differ from cycle to cycle.

**Link:** [https://cunyacademy.ws.gc.cuny.edu/awards/william-stewart-travel-awards/](https://cunyacademy.ws.gc.cuny.edu/awards/william-stewart-travel-awards/)

#### William Stewart Travel Awards for Assistant Professors (CUNY Academy)

**Deadline:** March 15, 2020

**Description/Amount:** The William Stewart Travel Awards provide grants of up to $500 to full-time assistant professors who first took up the position of CUNY assistant professor after July 2013. The award is for presenting, chairing or moderating at a scholarly conference.

**Professor Stewart,** a groundbreaking linguist who was on the faculty of the Graduate Center for more than 25 years, passed away in 2002, the year the Stewart Awards were initiated. Previous award recipients who are otherwise eligible may apply but may get a lower award priority. Applications will be considered on a rolling basis and early applications get special consideration.

### Office of the Advancement of Research’s (OAR) Internal Funding Opportunities

#### Office for Student Research and Creativity (OSRC) Awards and Scholarship Opportunities

**Deadline:** March 16, 2020

**Description:** The Office for Student Research and Creativity is offering 2020 opportunities for faculty and students alike!

In 2020, the OSRC will award two Outstanding Scholarly Mentoring Awards to recognize faculty members who have provided exceptional student mentoring by engaging undergraduates in scholarly research or creative work. The awards will be distributed as follows: **One award will be given to a faculty member from the Psychology or Sciences disciplines; and one award will be given to a faculty member from other academic departments.**

**Amount:** Awards are in the amount of $1,500

**Link:** [http://www.jjay.cuny.edu/outstanding-scholarly-mentor-award](http://www.jjay.cuny.edu/outstanding-scholarly-mentor-award)
Office of the Advancement of Research’s (OAR) Internal Funding Opportunities

NOTE: The Office for the Advancement of Research (OAR) is dedicated to working with faculty in the pursuit of their research and scholarly goals, and is available to assist faculty in grant-seeking and publication activities. Faculty members are encouraged to consult with OAR on any aspect of these processes. OAR promotes faculty success through several funding programs. Applications to all programs are accepted on a rolling basis (with the exception of the Senior Scholar Release Program, for which applications are accepted between Feb 15th and March 30th). Applications are reviewed during the first full week of each calendar month, with decisions returned to applicants by the second Thursday of each calendar month. Funding is offered through the following programs listed below:

For more information on Internal Funding, please visit us at: http://www.jjay.cuny.edu/oar-funding-opportunities

Seed Money Requests

Description: Funds are available to support pilot or preliminary work necessary to pursue a major grant application to an external funding agency. Funds may be requested to undertake a pilot study to gather background data toward supporting a major proposal. Funds may also be requested to conduct planning activities or support the writing of a major proposal. Funds are limited to $2,000 per request. Faculty requesting Seed Money will need to submit to an external funding program within one (1) year of receiving funding, and must revise and resubmit the proposal at least one time (to the same or an alternative external funding program) if the original proposal is not funded. To make a request to the Seed Money program, faculty must submit a two-page project summary to OAR. This summary should justify the seed request, detail the funding agency being targeted and the nature of the planned proposal, and provide a detailed budget. Requests should be submitted in electronic form to OAR (oar@jjay.cuny.edu) with Seed Money clearly indicated in the subject line.

Open-Access Publication Funding

Description: Funds are available to faculty who wish to publish articles in open-access format in major, peer-reviewed, scholarly journals. Once a manuscript is accepted for publication, faculty must submit a request to OAR with the journal name, a copy of the acceptance letter, and a brief description of the journal quality and reach. Requests should be submitted in electronic form to OAR (oar@jjay.cuny.edu) with Open-Access Publication clearly indicated in the subject line. Funding is limited to $1,000 per request.

Faculty Scholarship Funding

Description: Funds are available to support efforts related to the publication of a significant work of scholarship or the mounting of a creative work such as a performance, art exhibition, musical composition, etc. Funds are limited to $1,500 per request, and can be used for the purpose of travel to libraries, archives, or other sites for data collection; purchase of software or equipment required for analysis; costs related to the mounting of creative works, etc. Funds are not intended to support release time or conference travel. Faculty requesting Faculty Scholarship Funding must publish (as a book or in a peer-reviewed journal) or produce the results of the funded work within one (1) year of receiving funding. To make a request to the Seed Money program, faculty must submit a two-page project summary to OAR. This summary should justify the need for funding, describe the intended scholarly outcome, and provide a detailed budget. Requests should be submitted in electronic form to OAR (oar@jjay.cuny.edu) with Scholarly Output Funding clearly indicated in the subject line.

Proposal Pre-Review

Description: To improve the quality of external grant proposals and their likelihood of success, OAR makes funds available for faculty to obtain external reviews of grant proposals, prior to their submission to an agency or funding organization. Requests must be made in writing to OAR (oar@jjay.cuny.edu) with Proposal Pre-Review clearly indicated in the subject line. Please include a summary of the grant application to be reviewed, along with a potential reviewer’s name, title, affiliation(s), and a brief (one sentence) description of her qualifications. Faculty are responsible for identifying and handling all communications with the peer reviewer, and the request must be sent at least five weeks before the grant deadline in order to be considered. OAR will provide an honorarium of $250 (limited to one review per grant application), which will be paid directly to the peer reviewer to incentivize her work. The PI must submit a copy of the external review to OAR at least two weeks prior to the grant application deadline in order for the honorarium to be paid.

Book Publication Funding

Description: The Office for the Advancement of Research wishes to support faculty authors who are in the process of publishing books (as a single-author/editor or first-author/editor) with high-quality, reputable presses. OAR will reimburse the author up to $1,000 to pay page fees, indexing fees, image rights, etc. Once a book proposal is accepted for publication, faculty must submit a request to OAR with (1) the original proposal, (2) a copy of the publication contract, (3) a brief description of the publisher’s quality and reach, and (4) copies of receipts or invoices for the services to be funded. Applications will not be considered in the absence of receipts or invoices totaling the full amount of funding requested. Please note that contracts in which the author receives an advance of any amount are not eligible for this funding program. Requests should be submitted in electronic form to OAR (oar@jjay.cuny.edu) with Book Publication clearly indicated in the subject line.
The Office for the Advancement of Research’s Internal Funding Programs Cont’d

Community Event Funding

Description: The OAR will fund scholarly or creative events to be held at John Jay College that are free of charge and open to faculty or the John Jay Community as a whole. Faculty requesting funding should submit a 2-3 page proposal in electronic form to OAR (oar@jjay.cuny.edu) with Collaborative and Community Project Funding clearly indicated in the subject line. Successful requests will include either (1) a description of the collaborative project, planned scholarly outcomes and external funding applications, and a detailed budget with justifications for why funding is needed; or (2) a detailed description of the planned events or opportunities, along with a budget and a clear rationale for how the John Jay community stands to benefit. Average funding is expected to range from $1,000 to $1,500.

Enhanced Travel Funding

Description: The OAR will fund major travel opportunities with the potential to have a significant impact on a faculty scholar's trajectory. Examples include personally invited talks, special workshops or trainings, keynote addresses at major conferences, etc. Travel to present papers accepted as part of a public call or invitation to a standard academic conference is not eligible. Requests are limited to $1,000 per faculty member. In order to apply, please submit requests in electronic form to OAR (oar@jjay.cuny.edu) with Enhanced Travel Funding clearly indicated in the subject line. Successful requests will include (1) a justification for the funding need that clearly differentiates the travel opportunity from the general round of academic conferences in your discipline; (2) a personal letter of invitation detailing the expected parameters of your participation; and (3) an accompanying explanation from your department chair as to why they are unable to fund the opportunity through the departmental travel allocation.

Emergency Fund Program

Description: Support is available for research or other scholarly activities that specifically address a need that is urgent and/or time sensitive in nature. This may include support for research on disasters or other unanticipated events for which a rapid response is critical. Emergency funds may also be requested for events that could not be anticipated in the normal course of research, for example, new legislative funding priorities that are time-sensitive in nature, cuts to a grant budget that may severely impact performance, etc. Emergency Funds are not appropriate for needs that could have been anticipated in the normal course of research. To make a request to the Emergency Fund, faculty must submit a one-page project summary electronically to OAR (oar@jjay.cuny.edu, with Emergency Funds clearly indicated in the subject line) detailing the nature of the research planned and reason the project qualifies for emergency funds, including a detailed budget. Average funding is expected to be $3,000.

Senior Scholar Release Program

Description: This program is intended for tenured Associate and full Professors who are working toward a major scholarly outcome or creative project and have no other sources of course release. The fund provides 1-2 courses of release time to be used in the subsequent academic year (or, in the case of Fall applications, the following semester). Applications for release during the 2018-19 Academic Year are due March 30, 2018; if any courses of release time remain unallocated, an additional round of applications for Spring 2018 will be accepted during the Summer with a deadline of September 30, 2018. These funds cannot be used for Summer Salary or any support other than course release time during the semester designated in the original application. Faculty must submit a two- to five-page project summary to the Office for the Advancement of Research, detailing the nature of the scholarship planned and the reason the project requires the requested amount of course release time. Requests should be submitted in electronic form to OAR (oar@jjay.cuny.edu) with Scholar Release Program clearly indicated in the subject line.

Funds in each category listed above are limited and available on a first-come, first-serve basis. The Office for the Advancement of Research will try to post, in an ongoing manner, what program budgets have been exhausted for an academic year. However, faculty are advised to consult our webpage or send an inquiry email to oar@jjay.cuny.edu before writing a proposal to confirm that a specific program is still accepting invitations.

In addition to these funding programs, OAR also has several competitive Award programs that recognize faculty scholarship and fund competitive research proposals, including: the Faculty Scholarly Excellence Award Program, the Collaborative Research Award Program, the Faculty Mid-Career Research Support Program, and the Donal EJ MacNamara Junior Faculty Award. To find out more about these Award programs please visit the Research page on the John Jay.
OSP Tip of the Month: Effort Reporting for Fall 2019

The Effort Reporting requirement is a federal and University policy, and certification must be completed for any faculty or staff member for which Fall released/reassigned time was charged on a sponsored project. Principal Investigators certify for themselves as well as other faculty and staff on the project.

Fall 2019 Release (For Faculty & 12 Month JJ Employees)

The Online Effort Reporting module for Fall 2019 is open. Please follow these instructions and the links below to certify your effort.

1. Sign on to www.rfcuny.org webpage → click on the E-services tab → choose Effort Reporting from the dropdown menu or go to https://www.rfcuny.org/EffortReporting/certification.
2. Choose Semester Fall 2019 and the Employee name.
3. Choose “Agree” next to the effort percentage. (These amounts are taken directly from the staff effort notices you submitted.)
4. Instructional is the default for the remainder of faculty effort - You may adjust the percentages to the appropriate section if not accurate (Instruction, Department Administration, Other Institutional Activity or University Research).
5. Click Process and then Confirm in the pop up window.

Please contact Manelle Pyronneau (OSP) at mpyronneau@jjay.cuny.edu or 646-557-4867, if you have any questions or for further assistance.
