PHILOSOPHY (BACHELORS OF ARTS)

Philosophy involves a critical examination of our most fundamental beliefs about truth and reality, right and wrong. In this major, students study the traditional answers to the basic question in Western philosophy and also the important critiques of that dominant tradition. They will explore ethical and justice issues which are crucial to contemporary legal, political, and public policy debates. Philosophy majors learn sophisticated forms of reasoning and textual analysis, and deepen their understanding of basic human problems and possibilities.
