Graduate Studies
Thesis Workshop Series
Get Help as You Prepare Your Thesis

All graduate students are invited to participate in this unique workshop designed to help students with thesis preparation. By breaking up the thesis into sections, and tackling one section at a time, a master's thesis becomes more manageable and less daunting. The workshop series (6 sessions) will include:

- An overview of requirements for all master’s thesis
- introduction
- literature review
- methods
- results
- APA documentation (for your references and citations)
- coding qualitative research
- and related discussion.
