

**Graduating Student Survey  
Class of 2016**

Office of Institutional Research  
August 2016  
OIR 16-06

## **Graduating Student Survey Class of 2016**

The Graduating Student Survey was administered May-July 2016 to the class of 2016 via a Web link sent by email in the invitation to participate. It was launched two weeks before graduation, June 3, 2016. After several reminders, the survey closed the third week of July.

This report summarizes responses to questions on students' perceptions of their educational experiences at John Jay. There are questions on faculty and advising, personal and intellectual development, and current employment as well as future plans for employment or continuing education. Two items on military service were added so that veterans in our graduating class could be quantified.

Administration of this survey preceded the availability of the names and contact information in the IRDB, this office's database. Therefore, we relied on the registrar's office to provide us with the list of students in the graduating class. Their list contained 3352 students: 142 certificate or associates degree recipients, 2667 bachelor's degree recipients, and 543 master's degree recipients. Those responding to the survey were 7 certificate or associate award recipients, 471 bachelor's degree recipients, and 121 master's degree recipients. Data for graduates from dual (BA/MA) degree programs were counted twice; once with the bachelor's degree graduates and once with master's degree graduates.

Table's 1 – 11 show graduating students' responses separately by degree earned.

### **Key Findings:**

- **Certificate/Associate Degree Graduates:**
  - 0% of graduates report they completed a capstone experience.
  - 33% of graduates report they were accepted into a program for further study. Among these graduates, 67% report they were accepted into a bachelor's degree program.
  - 50% of graduates applied to programs related to their major.
  - 67% of graduates highly rate their overall experience at John Jay, and 66% would choose to attend it again.
  
- **Bachelor's Degree Graduates:**
  - 70% of graduates report they completed a capstone experience. Of these graduates, 76% report they completed a thesis or final paper.
  - 53% of graduates report they were accepted into a program for further study. Among these graduates, 22% report they were accepted into a master's degree program.
  - 20% of graduates applied to programs related to their major.
  - 88% of graduates highly rate their overall experience at John Jay, and 87% would choose to attend it again.

- Master's Degree Graduates:
  - 70% of graduates report they completed a capstone experience. Among these graduates 51% report they completed a thesis or final paper.
  - 44% of graduates report they were accepted into a program for further study. Among these graduates, 44% report they were accepted into a doctoral degree program.
  - 16% of graduates applied to programs related to their major.
  - 78% of graduates highly rate their overall experience at John Jay, and 77% would choose to attend it again.

The class of 2016 reports a very high percent of overall satisfaction with their John Jay College experience, and state that they would 'definitely' or 'probably' choose to attend the college again in the future.
