Title: Coming Out 101: Empower Yourself with a Script and Strategy

Date: October 11, 2021

Time: 1:40 pm – 2:40 pm

Workshop Description: You were taught math, history, and chemistry, but you definitely were not taught "How to Come Out." And you need it! Because "Mom and Dad, I'm Bisexual!" or "Bestie, I'm Nonbinary!" isn't always the most effective way of being heard and accepted.

You will learn: What to say to increase the odds of being accepted: a "Coming Out Script" that can be adapted to your situation, how to come out to Homophobes, how to decide if it's safe, and if you're ready, to come out, how to deal with someone who tells you "it's just a phase!", Coming out as a Gender Identity vs. Sexual Orientation

Important Note Before Class from Josh: Coming out is inherently unfair. You should not be in a position where you, as an LGBTQ+ person, have to do this. But society built a structure that forced us into a lie we never signed up for and life isn't fair. This class is meant to empower you and remind you: you are worthy whether you're in, or out, of the closet. Coming out often makes us stronger and happier, but there are many risks you need to balance. Only you can best evaluate your unique circumstances. And because I don't think you hear this enough, I want you to know: I'm really proud of you.

Title: Queer Survivorhoods: Supporting LGBTQ+ Folx

Date: October 19, 2021

Time: 1:40 pm – 2:40 pm

Workshop Description: When we think about sexual violence, stalking, dating violence, etc...it is almost always understood within a heteronormative context. Not only is this incredibly narrow, but it contributes to the invisibilization of some of the most historically marginalized and excluded groups in our country. Violence is experienced at a higher rate within the LGBTQ_ community as compared to the heterosexual community. This workshop will delve into what violence looks like within the queer community, the complexities that are unique to it, how to recognize warning signs, and the unique barriers that may be present when attempting to access services.

Title: Why Pronouns Matter

Date: October 27, 2021

Time: 1:40 pm – 2:40 pm

Workshop Description: This session will look at what non-binary pronouns are and how to use them. We will explore why someone might identify with a pronoun outside of the gender binary. We will explore the array of pronoun options that exist, why for some people three options: "they" "she" and "he" aren't enough. Additionally, the workshop will touch on the idea that pronouns like identity can be fluid and change over the course of a person's lifetime.
