## PROFILE

Hi! My name is Alejandra Lopez but I go by Alex. I'm an international student from Venezuela majoring in Forensic Science with a concentration in Molecular Biology, and a minor in Biology. I've always loved the sciences and I actually used to be a Physics major in my home country before I applied to John Jay. I'll be focusing on tutoring some of the introductory biology courses for now, which are always kind of hard because of all the memorization, but hopefully, I can help pique your interest in each subject so that it doesn't feel like such a task. I'm also happy to help if you have any problems understanding or translating specific science terms you might know in Spanish but can't quite grasp in English yet. It's ok, it happens to everyone.

When I'm not working or buried under a pile of classwork, I play for the League of Legends Esports Team at JJ and I'm an avid movie and board game collector.
