FALL 2015

WORKSHOPS & SEMINARS

The Center for Private Security and Safety is dedicated to the professionalization of the private security industry offering short-term segment training in both resident and online formats. By having the invaluable link between our academic resources and private security industries, the Center also publishes a peer-reviewed journal, produces relevant white papers, monitors and advises on changes to particular state industry mandates and contributes to the development of best practices for the private security industry at the local, state, national and international levels.
