

HSI Faculty Working Group

This working group, composed of 16 faculty members contributing their time and efforts, began meeting in September 2018 following their common experience in the Spring and Fall 2018 HSI Faculty Seminar. Participants have met monthly this year to share individual and shared projects and to discuss ongoing concerns about raising HSI awareness at John Jay and teaching our Latinx student population more empathetically and effectively. A list of several working group projects with descriptions can be found here [[hyperlink “here” to appropriate page](#)].
