Dear Student,

On August 4, 2021, Chancellor Matos Rodriguez shared an email which updates the previously shared Covid Vaccination policy sent on July 12, 2021. Students who previously submitted vaccination verification information to the Health Office, will need to resubmit this information in CUNYfirst to ensure that your campus access is approved. For instructions on how to upload your vaccination information please use this link: Student Guide to Vaccination Verification.

**Medical Exemptions:**
Students requesting medical exemptions must submit a COVID-19 Vaccine.

- The Exemption Requests will be verified by the campus Location Vaccine Authority, the office responsible for implementing the COVID-19 Vaccination Program on campus
- Exemptions and exceptions are evaluated on a case-by-case basis and are not automatically granted

**Vaccination Deadlines:**
In order to be fully vaccinated by September 14, you will need to get:

- the first Moderna shot by August 3;
- the first Pfizer shot by August 10; or
- the single shot of Johnson & Johnson, by August 31.

For a visual step-by-step guide on submitting information to CUNYfirst, please visit here. Please visit our VaxUpCUNY page for additional information on how to get the vaccine.

As always, I welcome your questions and concerns at maclarke@jjay.cuny.edu or healthoffice@jjay.cuny.edu.

In Health,
Malaine Clarke
Health Services Director
