

Psychology & Law @ John Jay College Comprehensive Doctoral Activities Form

Student's Name Print: _____

Advisor's Name Print: _____

- Rationale

The purpose of the Comprehensive Doctoral Activities is for students to engage successfully in a number of professional activities that are intimately associated with the creation, communication, and dissemination of scholarship in psychology and law, which are key scholarly competencies. Although not a requirement of the Graduate Center, all students will be required to complete the Comprehensive Doctoral Activities to complete the Psychology and Law Program.

- Requirements

To successfully complete the comprehensive doctoral activities, students are required to complete all of the following activities while in the Program (**Make sure each requirement is checked before submission**):

Submit a first-authored manuscript to a peer-reviewed journal and complete any necessary follow-up "revise and resubmit" procedures. The process of publishing the manuscript should allow students to develop skills of responding to an editor and peer reviews (either directly via a revise and resubmit OR via a new submission to a different journal). The manuscript could be based on the student's first-doc research project, an alternative project with the student's faculty advisor, or a project with another faculty member (in Psychology and Law, or from outside). The peer-reviewed journal to which the article is submitted is subject to the approval of the student's faculty advisor.

Present a poster or paper at a relevant regional, national, or international conference. The student should be the first author on the presentation.

Attend **two** regional, national, and/or international conferences, with each conference being hosted by a different organization. (**This can include the conference from #2 above**)

- Evaluation

Students must obtain approval from their faculty advisor prior to engaging in each of the comprehensive tasks to ensure the activity meets the standards of the Program. In addition, successful completion of the Comprehensive Doctoral Activities Milestone will be subject to the approval of the **student's faculty advisor** and **training area program head**.

- Timing

Students are required to complete all the Comprehensive Doctoral Activities prior to their dissertation oral defense. It is expected, however, that students will attempt to complete all activities by the end of their first three-years in the program.

* Student must fully review and submit all supported documentation where applicable with their advisor and program director before submission to program administrator.
