

Internship Information

JJC Career Learning Lab (CLL)

<https://www.jjay.cuny.edu/student-life/career-building-job-search/career-learning-lab>

The following services are provided by the CLL:

- CLL conducts an Employment and Internship Open House every semester.
- They use the Handshake platform that lists internship and job opportunities.
- They serve as a liaison with the NYPD laboratory for forensic science internships.

International Students

Some laboratories will not accept international students for internship positions. Please meet with the FOS 401 Coordinator to discuss your options.

New York Police Department Laboratory

The NYPD Laboratory is located in Jamaica, Queens and serves the public with multidisciplinary testing on criminal cases. The largest section of the laboratory works with controlled substances.

Students must have a minimum 3.0 GPA and have taken CHE 220, CHE 320, and CHE 321. Students may apply while they are completing CHE 321.

Please note that while paid internships are available, they are NOT eligible for FOS 401 course credit.

NYPD does not accept international students for their internship positions.

Each semester, eligible students will be notified by the Forensic Science Internship Coordinator who will provide an official application form and specify the deadline. Interested applicants can return the completed application along with a resume and a current unofficial transcript to FOS401@jjay.cuny.edu. Applicants will receive a certified PDF file with the signature of the Forensic Science Internship Coordinator. They will upload this file to the appropriate listing on Handshake before the application deadline.

<https://jjaycuny.joinhandshake.com/login>

Westchester County Forensic Laboratory

The Department of Laboratories and Research is the behind-the-scenes agency that conducts scientific tests in matters ranging from criminal evidence to public health concerns. The laboratory is called Division of Forensic Science and is located in Valhalla, NY.

Here is the link to the internship program for Westchester County: <http://labs.westchestergov.com/internship-programs>. Here students will find the application form and everything they need to do to apply for an internship. Any correspondence to their internship coordinator can be sent to finc@westchestergov.com

U.S. Department of Justice – Drug Enforcement Administration

*The DEA has announced that their internship program has restarted and is taking applications for summer 2026 (**another government shutdown could delay or even terminate this program**)*

The mission of the Drug Enforcement Administration (DEA) is to enforce the controlled substances laws and regulations of the United States and bring to the criminal and civil justice system of the United States, or any other competent jurisdiction, those organizations and principal members of organizations, involved in the growing, manufacture, or distribution of controlled substances appearing in or destined for illicit traffic in the United States. The DEA Northeast laboratory is in downtown Manhattan. Any interested individuals must be US citizens. There is an application package that needs to be completed, and they also request a resume, current student copy of transcript, and a letter of enrollment stating that the student is in good standing as well as the student's anticipated graduation date. For applicants who pass the initial screening, there will be a background investigation (e.g., criminal history, drug use, etc.) which may take several months to complete.

SEMESTER	Applications Due to Laboratory
Fall (Starting in August)	March 1 st
Spring (Starting in March)	October 1 st
Summer I (Starting in May)	November 1 st
Summer II (Starting in July)	February 1 st
Winter (Starting in December)	July 1 st

Contact information (to request application package):

John W. McIlroy, Ph. D.

Laboratory Quality Assurance Manager/ Supervisory Chemist

Drug Enforcement Administration

Northeast Laboratory

Email: John.W.McIlroy@dea.gov

Northeast Laboratory

99 10th Avenue, Suite 721

New York, NY 10011

Department of Homeland Security – U. S. Customs & Border Protection

The mission of Customs & Border Protection (CBP) is to protect the American people, safeguard our borders, and enhance the nation's economic prosperity. The New York (NY) Laboratory, located in Newark, New Jersey (NJ), provides scientific and forensic testing that helps CBP enforce trade and narcotics laws, detect and intercept weapons of mass destruction (WMD) and other hazardous materials, and protect intellectual property rights. The lab is organized into seven branches including Textile, Inorganic, Special Products, Food/Organics, Forensics, WMD/Mobile Operations, and Mission Support. Scientific services include analysis of a full range of commodities from inorganics, organic chemicals and products, food, petroleum, textiles, footwear, raw sugar, polymers, plastics, and paper. Forensic services include controlled substance analysis, latent fingerprint examination and processing, and digital forensics from data collection of electronics devices.

For more information about CBP's Laboratory and Scientific Services please visit this website: <https://www.cbp.gov/about/labs-scientific-svcs>

Any interested individuals **must be US citizens**; potential candidates will be interviewed by laboratory management. Selected applicants will be required to undergo a background investigation (e.g., criminal history, drug use, etc.) which may take several weeks to complete.

Internship Semester	Applications Due to Laboratory
Summer (starting in June)	<i>March 1st</i>
Fall (starting in September)	<i>May 15th</i>
Spring (starting in January)	<i>October 1st</i>

Each semester, eligible students, who are currently completing 300- and 400-level FOS curriculum requirements, will be notified by the Forensic Science Internship Coordinator who will provide an official application form. All of the required application documents, specified on the application, must be sent in a single email message to:

Contact Information:

Myong Yi – Chemist

Email: myong.s.yi@cbp.dhs.gov

CBP New York Laboratory

1100 Raymond Blvd, Suite 550

Newark, NJ 07102

Suffolk County Forensic Laboratory & Medical Examiner's Office

The Office of the Suffolk County Medical Examiner Department is an 85,000 square foot facility physically located in Hauppauge in the North County Complex off Veterans Memorial Highway. The Division is comprised of the Medical Forensic, Toxicology, and Crime Laboratory Sections. The Public and Environmental Health Laboratory is housed in the same facility, but under the administration of the Division of Environmental Quality.

Student must be enrolled in a science curriculum and will be subject to a background investigation by the local police department.

Interns are generally accepted for the summer months and schedules can be worked out. Acceptance is based upon availability.

Internship Link: <https://www.suffolkcountyny.gov/Departments/Medical-Examiner/Internship-Information>

Internship Coordinators:

Crime Lab: Evee Villalobos - Egda.Villalobos@suffolkcountyny.gov

Toxicology Lab: Edward Minden - Edward.Minden@suffolkcountyny.gov

Office of the Chief Medical Examiner (OCME)

The Office of Chief Medical Examiner is located in mid-town Manhattan. The medical examiner section investigates cases of persons who die within New York City from criminal violence, by accident, by suicide, suddenly when in apparent health, when unattended by a physician, in a correctional facility or in any suspicious or unusual manner. NYC OCME has a toxicology section working on post mortem samples and drug induced rape cases. The department of Forensic Biology covers all serology and DNA testing for NYC cases and works on the identification of unknown remains.

For the Forensic Toxicology department, students can contact Dr. Gail Cooper.

Dr. Gail Cooper BSc(Hons), MSc, PhD CChem FRSC FHEA

Director, Forensic Toxicology Laboratory, Office of Chief Medical Examiner

[520 First Avenue](#)

[New York, NY 10016](#)

Email: FTox_Internship@ocme.nyc.gov

Students must include a cover letter as to why they are interested in working within the forensic toxicology laboratory and attach a copy of their resume/CV.

Only students in the toxicology track will be considered.

For general questions about internships in Histology or Forensic Biology, students may contact internship coordinator, Maribel Sansone: msansone@ocme.nyc.gov

To apply for internships in Histology and Forensic Biology, students should email a resume and cover letter to Donna Patris

at: FBiology_Internship@ocme.nyc.gov

Bergen County Medical Examiner's Office

The Bergen County Medical Examiner's Office (BCME) is looking for highly motivated interns eager to learn about forensic death investigations, forensic pathology and forensic photography. The BCME Internship Program allows interns to take an active role in the death investigation processes of the office. Under the supervision of the investigations unit, the intern will gain knowledge of forensics by working closely with medicolegal death investigators, forensic pathologists, and forensic morgue technicians.

Duties may vary, depending upon case load and current project needs of the office. Examples of duties include assisting the investigations unit with medical record and police report requests, assist with projects involving data entry/analysis, destruction of records and other administrative tasks, and observe/provide support to medicolegal death investigators during investigations (including scene investigations) and forensic morgue technicians during external examinations and autopsies.

To qualify applicants must: have completed their third year of math/science coursework at an accredited college or university prior to the start date of the internship; must be able to pass a background check and drug test; commit to 10 hours per week; be available a minimum of 2 days per week and start no later than 9:00 a.m.

BCME accepts internship applications for fall/spring/summer sessions. More information can be requested from the Forensic Science Internship Coordinator.

Nassau County Medical Examiner's Office: Division of Forensic Services

The mission of the NCOME DFS is to supply the criminal justice system and community of Nassau County with a state-of-the-art forensic testing facility. The laboratory is located in East Meadow NY. The laboratory covers scientific analysis on evidence related to criminal and civil investigations within the scope of the laboratory's accreditation. To comply with the laboratory's mission, the DFS will ensure accurate and reliable results through its quality assurance program.

Interested students should send cover letter, CV and unofficial transcripts to crimelab_info@nassaucountyny.gov with "Internship Request" in the subject field.

Director: Pat Buffolino

Union County Sheriff's Office

The Union County Sheriff's Office is located in Elizabeth NJ and offers internship opportunities in fall/spring/summer. Specify your interest in forensic science and crime scene processing.

Applicants must have a minimum 3.0 GPA; preference is given to residents of Union County. Internship calendars, application deadlines, and application links can be found at the following website:

<https://ucnj.org/sheriff/functions/college-intern-programs/>

Union County Prosecutor's Office Forensic Laboratory

The Union County Prosecutor's Office Forensic Laboratory is located in Westfield NJ and offers summer internships. Send a cover letter and resume to the lab director, Britton Morin, at britton.morin@ucpo.org. The cover letter should indicate if the student is interested in a Forensic Biology, Forensic Chemistry, and/or General internship. The deadline for the summer internship application is January 31st. A thorough background check (which can take 4-6 weeks) is conducted for suitable applicants.

New Jersey State Police Office of Forensic Sciences

The Office of Forensic Sciences (NJSPOFS@GW.NJSP.ORG) is a section within the New Jersey State Police Investigation Branch. The four regional crime laboratories and the DNA laboratory within the Office of Forensic Sciences are internationally accredited under ISO 17025 standards by the The American Society of Crime Laboratory Directors-Lab Accreditation Board (ASCLD/LAB). The Laboratories cover all forensic disciplines.

Labs are located:

North Lab, Little Falls, NJ- Drugs, Toxicology

East Lab, Sea Girt, NJ- Drugs, Toxicology, Arson

South Lab, Hammonton, NJ- Drugs Toxicology, Arson

Technology Complex, Hamilton, NJ- Anthropology, DNA, Serology, Drugs, Toxicology, Trace including Arson.

Application information:

Interns must commit to a minimum of 280 hours and must be earning college credit for their internship. All the internships are unpaid. No housing is provided.

Interns request an application packet from

Stephen Marotta, QA Assistant – Internship Program,

(609) 584-5054 extension 5727, Stephen.Marotta@njsp.gov

NJSPOFS@gw.njsp.org

Interns usually apply after the first of the year and applications are accepted until the deadline in mid-March.

State of New Jersey - State Toxicology Laboratory

Edwin H. Albano Institute of Forensic Science

New York State Police Forensic Laboratory Internship Program

The New York State Police Crime Laboratory System's Forensic Laboratory Internship Program (NYSP-FLIP) (**in Albany**) is designed to provide students and graduates with opportunities to prepare for employment in the forensic science field. Therefore, this internship opportunity is intended for students interested in forensic science who are planning a career in the field.

Interns must be supervised when within the NYSP laboratory facility and may assist with non-evidentiary tasks associated with:

- Collecting, documenting and testing of assigned materials.
- Establishing and searching databases.
- Testing and validating new methods.

Applications are accepted September 1st through December 31st each year for the following **summer** term.

Apply at <https://troopers.ny.gov/forensic-laboratory-internship-program>

Department of Emergency Services and Public Protection: Division of Scientific Services

The Connecticut Forensic Science Laboratory is responsible for all forensic examinations for the State of Connecticut. This laboratory is located in **Meriden CT**. Students should consider whether it is feasible to commute there. Interested students can request a brochure from FOS401@jjay.cuny.edu

Cold Spring Harbor Laboratory: The DNA Learning Center NYC

This educational learning center is a collaboration of Cold Spring Harbor Laboratory and the City University of New York. They offer paid internships throughout the year at their location in **downtown Brooklyn** at the New York City College of Technology. <https://dnalc.cshl.edu/about/dnalc-nyc/>

For information on how to apply:

<https://www.schooljobs.com/careers/cshl/jobs/4728017/intern-dnalc-nyc-college>

EMSL Analytical, Inc. (Summer Internship)

EMSL has been accepting student interns from the John Jay College Forensic Science Program for many years and has locations in Long Island City and Carle Place in Long Island.

Laboratory internship is within the microbiology department and involves preparing samples for legionella, asbestos & lead analysis.

Interns will learn the following duties, including but not limited to:

- Receive and catalog consumables.
- Run QC media checks
- Run QC lot checks on consumables
- Organize and prep samples under supervision
- General laboratory housekeeping
- Interpret and understand scientific methods and SOPs

Student must be registered for FOS 401 in order to begin an internship there.

Email jobopportunities@emsl.com and include "John Jay Internship Opportunity" in Subject line.

Museum of Modern Art - The David Booth Conservation Department

Work with art conservation specialists in their conservation laboratory.

MoMA offers “What is Art Conservation?” workshops each January.

Students must register for the workshop and space is limited. Registration typically occurs in the previous November. Only students who have attended the 2-day workshop can apply for the summer internship.

For information about this internship, please contact the FOS 401 Coordinator.

American Museum of Natural History North American Archaeology Research Laboratory

This internship is specifically for students who have an interest in pursuing a career in anthropology.

This program accepts interns for the fall, spring, and summer sessions. The program as well as the application form can be found at this site:

<https://www.amnh.org/our-research/anthropology/fellowships-internships/internship-program>

NYC Department of Environmental Protection

The NYC DEP offers internships to students who are interested in preserving and protecting NYC’s water supply and making New York City more sustainable.

More information can be found at:

https://www1.nyc.gov/html/dep/html/job_opportunities/internships.shtml

Click on the [Current Internship opportunities at DEP](#) link at the bottom of that page and look for science/technical opportunities.

Science Undergraduate Laboratory Internships (SULI)

This is a government-sponsored internship program with a competitive application process. If accepted, interns are paid a stipend and are placed in a Department of Energy research laboratory. It is NOT a forensic science internship but qualifies for the FOS 401 internship. Applicants are considered for 10-week summer and 16-week fall or spring semester internships. Please note that application deadlines are months in advance of the targeted semester. Please go to the following websites for eligibility requirements, application deadlines, and other important information:

BNL info page: <https://www.bnl.gov/education/programs/program.php?q=188>

WDTS SULI application: <https://science.osti.gov/wdts/suli>

The LifeSci NYC Internship Program

This program offers highly competitive paid internships during the summer term. The application process for LifeSci NYC internships begins in September, when interested students can begin to apply for the program for the summer of the following year. Students are encouraged to apply early to improve their chances of being accepted into the program. If accepted, LifeSci NYC acts as an intermediary to connect students with host laboratories; students can learn more at this website:

<https://www.lifesci.nyc/lifesci-nyc-internship-program>

LifeSci NYC also has a Meetup group for applicants to the LifeSci NYC Internship Program, whether or not they are ultimately placed in an internship through the program. They welcome students and recent graduates with an interest in the life sciences, particularly in and around New York City:

<https://www.meetup.com/LifeSci-NYC-Internship-Program-Meetup/>

PLEASE NOTE THAT SOME HOSTING LABORATORIES MAY NOT ALLOW THE INTERN TO DO A PAID INTERNSHIP WHILE RECEIVING COLLEGE CREDIT. Please make sure to inquire whether the targeted internship can be done for college credit.

OPPORTUNITIES OUTSIDE OF THE TRI-STATE AREA

Department of Forensic Sciences, Washington DC

The DC Department of Forensic Sciences offers unpaid internships for the fall, spring and summer sessions. Students who are accepted into this internship program must pay for their own housing and transportation to do this internship since it is located in Washington DC. More information, including application and timelines, can be found at: <https://dfs.dc.gov/page/internships-dfs>

USPS Forensic Laboratory Services

Contact: Lisa Tolli

Manager Laboratory Operations & Quality Assurance

DNA Coordinator

22433 Randolph Drive

Dulles, VA 20104-1000

LETolli@uspis.gov

National Institute of Standards and Technology (NIST)

Summer Undergraduate Research Fellowship (SURF) **PAID INTERNSHIPS**

About the program: <https://www.nist.gov/surf>

SURF Program Research Opportunities are located in Gaithersburg, Maryland.

The **SURF Gaithersburg host laboratories and offices** are listed at this site: <https://www.nist.gov/surf/surf-gaithersburg/research-programs#MML>

Please read the instructions provided at the above websites.

Deadline is typically in January for the summer SURF program.

Due to the multi-disciplinary nature of NIST's research, applicants should explore all NIST laboratories and SURF research opportunities. For example, a computer science student may find opportunities in labs other than the logical choice of the Information Technology Laboratory (ITL). Similar opportunities may exist for other disciplines. Some opportunities are in person, others are virtual, and some have options for format.

Center for Statistics and Applications in Forensic Evidence (CSAFE)

CSAFE offers a summer research experience for undergraduate students (REU). During the 10-week, immersive internship program, students will discover how statistical and computational concepts apply to CSAFE's key research areas in pattern or digital evidence. They will work on interdisciplinary teams with faculty, graduate students and post-doctoral researchers.

Students chosen for the CSAFE REU program are expected to participate in program activities for approximately 40 hours each week and join in team meetings plus any other scheduled events. Students will present their research findings at the end-of-program poster session.

Applications for the REU will be accepted until all available spaces have been filled. To guarantee an application is reviewed, please apply by March 1.

For more information or to apply, visit <https://forensicstats.org/reu/>.

From CSAFE Administrator:

Room and Board Question

- CSAFE covers travel, room, board, IAI conference admission, and a participation stipend for all interns selected for the program.

Application Resume Question

- If perfecting a resume for this position is a barrier, please share with your students that I'm more interested in the answers to the open-ended questions on the application than I am in a resume. It remains a requirement for the application process, but it doesn't need to be perfected.

ATF Laboratory Internship

ATF is a unique law enforcement agency in the United State Department of Justice that protects our communities from violent criminals, criminal organizations, the illegal use and trafficking of firearms, the illegal use and storage of explosives, acts of arson and bombings, acts of terrorism, and the illegal diversion of alcohol and tobacco products. They partner with communities, industries, law enforcement, and public safety agencies to safeguard the public they serve through information sharing, training, research and use of technology.

The Bureau of Alcohol, Tobacco, Firearms and Explosives Laboratory (ATF), may also take summer interns. Please note this lab is in Ammendale, MD.

Any interested individuals must be US citizens; there will be a background investigation (e.g. criminal history, drug use, etc.).

Interested individuals must send a cover letter, resume and days/hours available to Todd W. Bille: Todd.W.Bille@usdoj.gov

Contact: Todd W. Bille - DNA Technical Leader - National Laboratory Center, Bureau of Alcohol, Tobacco, Firearms and Explosives

On the following two pages is a very old scan of an internship list that has been passed down to me – it is very outdated, but it can at least give you a sense of the many places where students have done internships and provide a starting point to research other laboratories not on the current list:

<i>Lab</i>	<i>Address</i>	<i>City</i>	<i>State</i>	<i>Zip</i>	<i>Phone</i>
