## PROFILE

Hello! My name is Kimberly Nuñez and I'm a junior majoring in Cell and Molecular Biology with a double minor in Chemistry and Environmental Justice. I've been tutoring at the MSRC since March 2020 and cover BIO 101/102/103/104 and CHE 101/102/103/104. My interest in biology lies in ecology and how climate change is affecting interactions between species, and I hope to be a conservation ecologist in the future.

During my free time, you will most likely catch me reading a book or watching YouTube videos. I look forward to working with you!
