Detailed Report – 2017

FINAL REPORT

THE COLLEGE BOARD

This report was prepared for the College Board
by Applied Educational Research, Inc.

INTRODUCTION

This "detailed report" contains comprehensive analyses of responses to the Admitted Student Questionnaire Plus by all admitted, by enrolling, and by non-enrolling students. The report covers ratings of our college only, and does not include analyses of ratings of other colleges. An accompanying "highlights report" provides tables and graphs designed to draw attention to key findings.

QUESTIONNAIRE RESPONSE RATES

	ALL ADMITTED STUDENTS	ENROLLING STUDENTS	NON- ENROLLING STUDENTS
Number of students surveyed	6005	1199	4806
Number of respondents	629	480	149
Percent responding	10%	40%	3%

WEIGHTING OF RESPONSES, TREATMENT OF MISSING DATA, DEFINITIONS

For all analyses in this report, responses for enrolling students have been weighted by 2.4979, and responses for non-enrolling students have been weighted by 32.2550. These weights were determined as follows:

$$\frac{\text{Total number of enrolling students}}{\text{Number of enrolling students responding}} = \frac{1199}{480} = 2.4979$$

$$\frac{\text{Total number of non-enrolling students}}{\text{Number of non-enrolling students responding}} = \frac{4806}{149} = 32.2550$$

The effect of this weighting is to express all results as estimates for total groups of admitted, enrolling, and non-enrolling students.

The weighted numbers and the percentages of students who provided the data used in a given table are shown on a line labeled: N(%). Numbers of cases shown in all tables are rounded values of the weighted totals. Percentages are based on weighted numbers of cases before rounding.

The weighted numbers of cases in particular tables may be less than the total numbers of students surveyed (as shown above) when the question on which a table is based was not answered by some students. In addition, responses with codes of zero on the questionnaire ("Can't Rate" for questions 21 through 36 and "Not Used" for questions 40 through 53) have been treated as though the question was not answered.

In this report, percentages greater than 0 but less than 0.5% are shown as *%. Percentages based on small numbers (fewer than 25 weighted cases) are bracketed []. Percentages in some tables do not add to 100% due to rounding.
